Diagnosis Jane Marie Hightower, 2013-02-22 One morning in 2000 Dr Jane Hightower walked into her exam room to find a patient with disturbing symptoms she couldn't explain The woman was nauseated tired and had difficulty concentrating but a litany of tests revealed no apparent cause She was not alone Dr Hightower saw numerous patients with similar inexplicable ailments and eventually learned that there were many more around the nation and the world They had little in common except a healthy appetite for certain fish Dr Hightower's quest for answers led her to mercury a poison that has been plaguing victims for centuries and is now showing up in seafood But this explanation opened a Pandora's Box of thornier questions Why did some fish from supermarkets and restaurants contain such high levels of a powerful poison Why did the FDA base its recommendations for safe mercury consumption on data supplied by Saddam Hussein's Ba'athist extremists And why wasn't the government warning its citizens In *Diagnosis Mercury* Dr Hightower retraces her investigation into the modern prevalence of mercury poisoning revealing how political calculations dubious studies and industry lobbyists endanger our health While mercury is a naturally occurring element she learns there's much that is unnatural about this poison's prevalence in our seafood Mercury is pumped into the air by coal fired power plants and settles in our rivers and oceans and

has been dumped into our waterways by industry It accumulates in the fish we eat and ultimately in our own bodies Yet government agencies and lawmakers have been slow to regulate pollution or even alert consumers Why The trail of evidence leads to Canada Japan Iraq and various U S institutions and as Dr Hightower puts the pieces together she discovers questionable connections between ostensibly objective researchers and industries that fear regulation and bad press Her tenacious inquiry sheds light on a system in which too often money trumps good science and responsible government Exposing a threat that few recognize but that touches many Diagnosis Mercury should be required reading for everyone who cares about their health Code of Federal Regulations ,1981 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **Catalogue** Pharmaceutical Society of Great Britain.
