Theocratic Secularism Naser Ghobadzadeh,2022 This book articulates a religious rationale for political secularism in the Iranian shi i context The genealogy of Twelver shi i political theology shows that the bitter experience and lack of success of the shi ia in the field of governance in the early centuries of Islamic history led them to link the realisation of their ideal political system to transcendental factors Belief in theocracy has always been the basis of shi i political theology but with the messianic conception of the 12th Im m in the fourth tenth century its realisation came to depend on the will and intervention of the divine As a result shi i leaders while awaiting the return of the 12th Im m not only do not have the authority or responsibility to take over the institution of government but have been forbidden from doing so For more than 1300 years the political thought and action of shi i religious leaders was shaped by the political theology formulated in this book as Theocratic secularism In opposition to orthodox shi i theology a new politico religious discourse emerged at the initiative of Ayatollah Khomeini in the last decades of the twentieth century which in this book is referred to as governmental shi ism In sharp contrast to shi i orthodoxy governmental shi ism considers the occupation of the government apparatus as the duty of shi i religious leaders In this book it is argued that governmental shi ism was neither the product of a theological transformation of shi i orthodoxy nor used as a blueprint to establish the Islamic Republic Rather the formation of the Islamic Republic and the clergy s rise to power led to the birth of governmental shi ism and bestowed importance on Khomeini s doctrine of wil yat i faq h

Cultural Practices and Identity Politics in Manipur Lisham Henthaoiba,Laishram Churchil,2015-01-01 This compendium of ten essays earlier published in the quarterly journal *Alternative Perspectives* is an attempt to evaluate conventional understanding of identity culture and resistance and at the same time present some key underlying arguments in a comprehensive form This volume consists of three different themes which are closely interrelated The first theme on identity deals with the assertion of discomfort against the politics of homogenising articulation of identity and the oversimplification of gender issues on the pretext of women being a celebrated identity within our constructed sensibilities The chapters on economy as the second theme of this volume examine underdevelopment of Manipur s economy and its

ramifications and correlation with the above mentioned issues The essays of the last theme on resistance underscore the forms of protest which are arguably belittled within the purview of the all pervasive armed conflict and its diverse narratives
