Pearce, David G. Beresford-Jones, Paul Heggarty, 2020-10-21 Nowhere on Earth is there an ecological transformation so swift and so extreme as between the snow line of the high Andes and the tropical rainforest of Amazonia The different disciplines that research the human past in South America have long tended to treat these two great subzones of the continent as self contained enough to be taken independently of each other Objections have repeatedly been raised however to warn against imagining too sharp a divide between the people and societies of the Andes and Amazonia when there are also clear indications of significant connections and transitions between them Rethinking the Andes Amazonia Divide brings together archaeologists linguists geneticists anthropologists ethnohistorians and historians to explore both correlations and contrasts in how the various disciplines see the relationship between the Andes and Amazonia from deepest prehistory up to the European colonial period The volume emerges from an innovative programme of conferences and symposia conceived explicitly to foster awareness discussion and co operation across the divides between disciplines Underway since 2008 this programme has already yielded major publications on the Andean past including History and Language in the Andes 2011 and Archaeology and Language in the Los Primeros Mexicanos Guadalupe Sánchez, 2016-02-11 This book presents a synthesis of Mexican Andes 2012 Paleoindian archaeology with an emphasis on the state of Sonora The author uses extensive primary data concerning specific artifacts assemblages and other Mexican and Sonoran Paleoindian archaeology to demonstrate the insignificance of current international borders to the earliest peoples of North America Provided by publisher **Girl Cases** Brett L. Shadle, 2006-08-30 Beginning in the late 1930s a crisis in colonial Gusiiland developed over traditional marriage customs Couples eloped wives deserted husbands fathers forced daughters into marriage and desperate men abducted women as wives Existing historiography focuses on women who either fled their rural homes to escape a new dual patriarchy African men backed by colonial officials or surrendered themselves to this new power Girl Cases Marriage and Colonialism in Gusiiland Kenya 1890 1970 takes a new approach to the study of Gusii marriage customs and shows that Gusii women stayed in their homes to fight over the nature of marriage Gusii women and their lovers remained committed to traditional bridewealth marriage but they raised deeper questions over the relations between men and women During this time of social upheaval thousands of marriage disputes flowed into local African courts By examining court transcripts Girl Cases sheds light on the dialogue that developed surrounding the nature of marriage Should parental rights to arrange a marriage

outweigh women s rights to choose their husbands Could violence by abductors create a legitimate union Men and women debated these and other issues in the courtroom and Brett L Shadle's analysis of the transcripts provides a valuable addition Approaches to the historical archaeology of Mexico, Central & South America Patricia to African social history Fournier Garcia, Janine Gasco, Greg Charles Smith, 1997-12-31 Pennsylvania Union List of Serials ,1984 Research Report - Bureau of Sport Fisheries and Wildlife United States.
