National Geographic Readers: Ocean Animals Collection National Geographic Kids,2015-07-14 All titles in this collection are by Laura Marsh and previously copyrighted in 2014 2012 and 2011 by the National Geographic Society *The Coloniality of Animal Monstrous Othering in Children's Books, Films, and Toys* Donna Varga,2024-08-19 The Coloniality of Animal Monstrous Othering in Children s Books Films and Toys examines how the portrayal of animals as physically distorted behaviorally depraved and intellectually defective serves to justify their debasement violation and destruction in materials directed toward young consumers The author argues that this animal monstrous Othering arises from the Eurocentric belief in humans natural superiority over animals and the right to categorize animals in accordance with a scale of worthiness that parallels the subjugation of racialized persons The chapters examine a variety of canonical figures like the dissolute wolf of Red Riding Hood stories and the disfigured titular character of the Wonky Donkey picture book alongside non canonical animals including reprobate pigs degenerate sharks self centered flamingos and wicked piranhas To counter this animal debasement Varga juxtaposes these readings with an examination of materials that articulate harmonious animal human interrelationships without dependence on styles of anthropomorphism that diminish animality *Weird But True!
