National Household Hiv Prevalence And Risk Survey Of South African Children

Alice Welbourn, Joanna Hoare

National Household Hiv Prevalence And Risk Survey Of South African Children:

The National Household HIV Prevalence and Risk Survey of South African Children Heather Brookes, Olive Shisana, Linda M. Richter, 2004 The National Household HIV Prevalence and Risk Survey of South African Children forms part of the Nelson Mandela HSRC Study of HIV AIDS South African National HIV Prevalence Behavioural Risks and Mass Media Household Survey 2002 This report provides information on HIV prevalence orphanhood risk factors for HIV infection and knowledge of HIV AIDS among South African children A total of 3 988 children aged 2 to 18 years participated in the survey Caregivers of 2 138 children 2 to 11 years of age answered a questionnaire on the child's behalf A total of 740 children 12 to 14 years of age directly answered a separate questionnaire An additional 1 110 children and between 15 and 18 years of age answered a youth questionnaire Of the 3 988 children 3 294 82.6 per cent provided a saliva specimen for HIV testing The results show HIV prevalence among children 2 to 18 years of age to be 5.4 per cent Prevalence was nearly constant across age groups and did not vary significantly There were insufficient numbers to compare prevalence across race groups The prevalence was higher than expected Further studies are necessary to verify this finding

South African National HIV Prevalence, HIV Incidence, Behaviour and Communication Survey, 2005 Olive Shisana, 2005 A follow up to the Nelson Mandela Foundation's 2002 national household survey of HIV AIDS prevalence in South Africa this 2005 report seeks to provide further understanding of the HIV pandemic Using data that tested for HIV incidence rather than just using mortality statistics this study looks at which socio demographic groups are most vulnerable whether new policies have been successful in fighting the disease what exactly is being done by key players such as the government churches and other civil society organizations and how the spread of HIV can be reduced in South Africa

Behavioural Risks and HIV Sero-Status (BSS) Household Survey in the Klerksdorp District of South Africa, 2006 **Primary Education in Crisis** Brahm Fleisch, 2008 In the past decade the national preoccupation has been on the crisis in secondary schools Lurking behind the intractable problem of low pass rates the dysfunctional schools and the small number of higher grade mathematics and science graduates is the calamity in primary education Drawing on the work of researchers in a range of fields including psychology sociology anthropology linguistics economics the health sciences and mathematics education this book documents the depth and scope of the primary education crisis and provides a comprehensive and rigorous explanation of its causes Primary education in crisis pulls together the wealth of research on health poverty resources language and teaching as factors in academic achievement in reading writing and mathematics At the centre of the book is an analysis of the published studies that systematically document what teachers teach and fail to teach and why it is that teaching is at the heart of the crisis in primary education The author suggests that there are no quick fixes but only hard choices and that for reform to succeed it must be evidence based

HIV/AIDS in South Africa 25 Years On Poul Rohleder, Leslie Swartz, Seth C. Kalichman, Leickness Chisamu Simbayi, 2009-09-01 Much has happened since the first appearance of AIDS in 1981 it has

been identified studied and occasionally denied The virus has shifted host populations and spread globally Medicine the social sciences and world governments have joined forces to combat and prevent the disease And South Africa has emerged as ground zero for the pandemic The editors of HIV AIDS in South Africa 25 Years On present the South African crisis as a template for addressing the myriad issues surrounding the epidemic worldwide as the book brings together a widely scattered body of literature analyzes psychosocial and sexual aspects contributing to HIV transmission and prevention and delves into complex intersections of race gender class and politics Including largely overlooked populations and issues e g prisoners persons with disabilities stigma as well as challenges shaping future research and policy the contributors approach their topics with rare depth meticulous research carefully drawn conclusions and profound compassion Among the topics covered The relationship between HIV and poverty starting from the question Which is the determinant and which is the consequence Epidemiology of HIV among women and men concepts of femininity and masculinity and gender inequities as they affect HIV risk gender specific prevention and intervention strategies The impact of AIDS on infants and young children risk and protective factors care of children by HIV positive mothers HIV infected children Current prevention and treatment projects including local level responses community based work and VCT voluntary counseling and testing programs New directions promoting circumcision vaccine trials positive prevention South Africa s history of AIDS denialism The urgent lessons in this book apply both globally and locally making HIV AIDS in South Africa 25 Years On uniquely instructive and useful for professionals working in HIV AIDS and global public health

HIV Risk Exposure Among Young Children

Olive Shisana, 2005 South Africa has until now focused its HIV prevention efforts on youth and adults and now needs to expand its focus to include children Much is already known about vertical transmission which is the dominant mode of HIV transmission among children

Childhood Sexuality and AIDS Education

Deevia Bhana, 2015-08-27 Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence In countries like South Africa where AIDS is particularly widespread it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings This volume addresses the question of children s understanding of AIDS not simply in terms of their dependence but as active participants in the interpretation of their social worlds The volume draws on an interview and ethnographic based study of young children in two socially diverse South African primary schools as well as interviews conducted with teachers and mothers of young children It shows how adults sustain the production of childhood sexual innocence and the importance of scaling up programs in AIDS intervention gender and sexuality It makes significant contributions to the global debate around childhood sexualities gender and AIDS education

Psychosocial Issues Affecting Orphaned and Vulnerable

Children in Two South African Communities, 2006 In collaboration with several partner organizations the project currently focuses on how children families and communities in Botswana South Africa and Zimbabwe are coping with the impact of

HIV AIDS The aim of the project is to develop models of best practise so as to enhance and improve support structures for OVC in the southern African region as a whole

New South African Review 1 Doreen Atkinson, Prishani Naidoo, Devan Pillay, Roger Southall, 2010-11-01 Is South Africa on a long term decline The New South African Review revives the tradition of critical analytical scholarship developed by the South African Review in the 1970s and 1980s Accessible to a wide readership and drawing upon authors from well beyond academia its objective is to be informative discursive and at times downright provocative It seeks to provide contemporary comment and engage with current controversies The first volume in the series 2010 Development or Decline ranges widely across the implications of the international crisis for the economy the threats to our fragile ecology of present economic strategies through to the state of the ANC and the public service issues around service delivery migration HIV Aids land reform crime the sexual behaviour of our youth and much more Posing the provocative question of whether South Africa is embarking upon a long term decline the volume simultaneously argues the potential for a society premised upon social equality social coherence and sustainability This collection will appeal to both national and international audiences interested in engaging with the multiple dilemmas and challenges facing contemporary South Africa

A Child's Mind Required! Mary Lindner, 2010-08-18 As children grow up they discover taboo areas in their environment and in life They are in need of advice to prevent them from placing themselves in risky situations The primary preventive approach to a life skills programme on HIV AIDS and sex education called Child Mind Project can be seen as such an initiative

The African Book Publishing Record, 2005

The African AIDS Epidemic John Iliffe, 2005-02-15 This history of the African AIDS epidemic is a much needed accessibly written historical account of the most serious epidemiological catastrophe of modern times The African AIDS Epidemic A History answers President Thabo Mbeki's provocative question as to why Africa has suffered this terrible epidemic While Mbeki attributed the causes to poverty and exploitation others have looked to distinctive sexual systems practiced in African cultures and communities John Iliffe stresses historical sequence He argues that Africa has had the worst epidemic because the disease was established in the general population before anyone knew the disease existed HIV evolved with extraordinary speed and complexity and because that evolution took place under the eyes of modern medical research scientists Iliffe has been able to write a history of the virus itself that is probably unique among accounts of human epidemic diseases In giving the African experience a historical shape Iliffe has written one of the most important books of our time The African experience of AIDS has taught the world much of what it knows about HIV AIDS and this fascinating book brings into focus many aspects of the epidemic in the longer context of massive demographic growth urbanization and social change in Africa during the latter half of the twentieth century The African AIDS Epidemic A History is a brilliant introduction to the many aspects of the epidemic and the distinctive character of the virus

International Perspectives on Children and Mental Health Hiram E. Fitzgerald, Kaija Puura M.D., Mark Tomlinson, Campbell Paul, 2011-07-06 This unprecedented set examines the most prominent factors that

harm or support healthy development in children outside the United States from abuse and economics to social injustice and poor public policy In *International Perspectives on Children and Mental Health* expert contributors from around the world examine the forces affecting the psychological well being of children in regions worldwide They consider such factors as family conditions and economic status including single parents poverty disease war child abuse substance abuse in the home and a loss of community stability And they look at political religious national and global matters including racism and class inequality Since education is key to children s success the essays consider these factors largely in the context of how they affect educational readiness and academic adjustment Volume 1 of the set considers development and context while volume 2 focuses on prevention and treatment Specific examples enable readers to better understand the often horrific challenges to child development and mental health across nations But the work is not limited to exploring problems It also looks at various programs and actions that mitigate risks helping children to be mentally healthy despite the odds Monitoring Child Well-being Andrew Dawes,Rachel Bray,Amelia Van der Merwe,2007 Taking a rights based approach this comprehensive study develops a conceptual framework and a definitive set of holistic indicators for monitoring the well being of children in South Africa Taking cues from the child rights focus of the South African constitution it is made clear that it is not just the state of the children that is important to measure but also the contexts within which the children grow and develop Providing practical tools for policy makers to assess the effectiveness of child based policies and interventions this practical work addresses a wide range of domains child poverty HIV and AIDS education mental health and disability abuse and neglect the justice system and children affected by the worst forms of labor *South Africa Pushed to the Limit* Hein Marais,2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people s skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa s vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma s rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country s continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens *South Africa Pushed to the Limit* presents a riveting benchmark analysis of the incomplete journey beyond apartheid HIV and AIDS Alice Welbourn,Joanna Hoare,2008 This book looks at the key challenges of HIV and AIDS from a gender perspective and describes positive responses in areas of the world as diverse as Cambodia South Africa the UK and Papua New Guinea The impact of HIV on women and men across the world are devastating and wide ranging Girls may have to drop out of school to look after sick relatives boys to earn money The death of working age adults can mean that surviving family members struggle to get by

with grandparents shouldering the burden of looking after orphaned grandchildren often in dire poverty Young women may have to resort to sex work and other risky survival strategies to support themselves and their families Young men are growing up with ideas about masculinity that include violence and the sexual domination of women contributing to the spread of HIV The contributors analyze these contexts exploring the links between HIV AIDS gender inequality and poverty They present accounts of successful interventions recording experience describing good practice and sharing information about resources This book is essential reading for development practitioners and policy makers involved in responding to the HIV and AIDS crisis

Breaking the Silence Ellen Grünkemeier, 2013 Examines the South African HIV AIDS epidemic through creative texts and the impact of these representations in determining which issues receive attention and how public understanding of the virus is shaped South Africa is one of the countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus Ellen Grünkemeier is a lecturer and researcher in the English Department at Leibniz University of Hanover Germany Her publications include two co edited volumes on postcolonial literatures and cultures *Listening to Africa Anglophone African Literatures and Cultures* 2012 and *Postcolonial Studies across the Disciplines ASNEL Papers* 19 forthcoming

Youth Violence Catherine Ward, Andrew Dawes, Amelia van der Merwe, 2012-01-25 Youth violence Sources and solutions in South Africa thoroughly and carefully reviews the evidence for risk and protective factors that influence the likelihood of young people acting aggressively Layers of understanding are built by viewing the problem from a multitude of perspectives including the current situation in which South African youth are growing up perspectives from developmental psychology the influences of race class and gender and of the media The book then reviews the evidence for effective interventions in the contexts of young people's lives their homes their schools their leisure activities with gangs in the criminal justice system in cities and neighbourhoods and with sexual offenders In doing so thoughtful suggestions are made for keeping an evidence based perspective while necessarily adapting interventions for developing world contexts such as South Africa Youth violence in South Africa Sources and solutions is a valuable addition to the library of anyone who has ever wondered about youth violence or wanted to do something about it

The Greenwood Encyclopedia of Children's

Issues Worldwide Irving Epstein, 2007-12-30 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China from the violent street culture of Nigeria to the crippling poverty in Nicaragua from child trafficking in Thailand to child marriages in India this jam packed six volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century In recent years while many countries have enjoyed a higher standard of living and improved working conditions others have been torn apart by war and incapacitated by famine and are struggling to improve life for their children and their future Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood New attention has been paid not only to healthcare and secondary education but also to the right to play and increased access to technology The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth Organized by region The Greenwood Encyclopedia of Children's Issues Worldwide is the first globally focused set of this magnitude offering extensive up to date coverage of these critical issues Original chapters accessibly synthesize current data on key topics including education play and recreation child labor family health laws and legal status religious life abuse and neglect and growing up in the 21st century [HIV/AIDS, Stigma and Children](#) Harriet Deacon, Inez Stephney, 2007 The publication provides a literature review of HIV AIDS Stigma and Children
