practitioners see great advantage in integrating various approaches into their work rather than following one pure form of counselling or psychotherapy. **Integration in Counselling and Psychotherapy** has been written as a guide for trainees and professionals interested in the philosophy, process and practice of integration. Part One provides an account of how integration has developed, outlines the generic elements of counselling and psychotherapy and looks at how to integrate. In Part Two the authors set out their own multidimensional integrative framework and demonstrate its use in clinical practice and in Part Three they describe a further five frameworks for readers to compare.

Integration in Counselling & Psychotherapy Phil Lapworth, Charlotte Sills, 2010-01-20. Now in its Second Edition, this book is established reading for any practitioner or trainee wishing to develop their own personal style of working. As well as examining contemporary integrative approaches, the authors show how to develop an individual approach to integrating theories and methods from a range of psychotherapies. Offering clear strategies for integration rather than a new therapeutic model, this practical new edition puts added emphasis on the integrative framework and procedural strategies, extending discussion of the individual practitioner as integrator.

The Counselor and the Group, Fourth Edition James P. Trotter, 2013-08-21. This new, more streamlined version of the 1999 third edition brings the existing materials and references up to date and omits information now readily available online and elsewhere. The book is aimed at training group workers at the Masters level and may be used as a hands-on text for group practitioners who are in the early stages of their group practice and/or who want a resource that provides a structured problem-solving approach to group work. The book also features a specialty section on the topic of organizing and conducting crisis intervention groups using the model developed by Trotter.

Handbook of Counseling and Psychotherapy in an International Context Roy Moodley, Uwe P. Gielen, Rosa Wu, 2013-05-07. Many factors in the world today, such as globalization and a rise in immigration, are increasing the need for mental health practitioners to acquire the ability to interact effectively with people of different cultures. This text will be the most comprehensive volume to address this need to date, exploring the history, philosophy, processes and trends in counseling and psychotherapy in countries from all regions of the globe. Organized by continent and country, each chapter is written by esteemed scholars drawing on intimate knowledge of their homelands. This consistent structure facilitates quick and easy comparisons and contrasts across cultures, offering an enhanced understanding of diversity and multicultural competencies.
