National Security and International Criminal Justice Herwig Roggemann, Petar Šarcevic, 2021-10-25 One of the main problems of the International Ad hoc tribunals in The Hague and Arusha as well as of the permanent International Court concerns the conflict between national security and secrecy interests of sovereign States arising in legal proceedings as a result of evidence interests and the court hearing the case While an International Criminal Court cannot succeed without the necessary competence for gathering evidence it can also not succeed if it fails to take account of legitimate national security interests Written by well known authors and commentators the articles in the book deal with this controversy from the point of view of comparative law and legal politics The topics covered focus on experiences and decisions from the practice of both ad hoc tribunals as well as political and legal discussions relating to the Statute and Rules of Procedure and Evidence of the permanent International Criminal Court The Oxford Companion to International Criminal Justice

Justice Mark Findlay, 2016-04-15 This collection discusses appropriate methodologies for comparative research and applies this to the issue of trial transformation in the context of achieving justice in post conflict societies In developing arguments in relation to these problems the authors use international sentencing and the question of victims interests and expectations as a focus The conclusions reached are wide ranging and highly significant in challenging existing conceptions for appreciating and giving effect to the justice demands of victims of war and social conflict The themes developed demonstrate clearly how comparative contextual analysis facilitates our understanding of the legal and social contexts of international punishment and how this understanding can provide the basis for expanding the role of restorative international criminal justice within the context of international criminal trials *National Criminal Justice Thesaurus*, 1994 *US Foreign Policy on Transitional*

Justice Annie R. Bird, 2015-03-04 Since the end of the Cold War the United States has been a key driver of transitional justice It has provided crucial political backing as well as technical and financial assistance for trials truth commissions and other measures aimed at helping societies address serious human rights violations Surprisingly however scholars have not analyzed closely the role of the US in transitional justice This book offers the first systematic and cross cutting account of US foreign policy on transitional justice It explores the development of US foreign policy on the field from World War I to the present and provides an in depth examination of US involvement in measures in Cambodia Liberia and Colombia Annie Bird supports her findings with nearly 200 interviews with key US and foreign government officials staff of transitional justice measures and country experts By opening the black box of US foreign policy the book shows how the diverse and evolving

interests of presidential administrations Congress the State Department and other agencies play a major role in shaping US involvement in transitional justice The book argues that despite multiple influences US foreign policy on transitional justice is characterized by a distinctive approach that is symbolic retributive and strategic As the book concludes this approach has influenced the field as a whole including the establishment design and implementation of transitional justice measures

The National Security Constitution in the Twenty-First Century Harold Hongju Koh, 2024-06-25 A deeply researched fully updated edition of The National Security Constitution that explores the growing imbalance of institutional powers in American foreign affairs and national security policy Since the beginning of the American Republic a package of norms has evolved in the US Constitution to protect the operation of checks and balances in national security policy This National Security Constitution promotes shared powers and balanced institutional participation in foreign policymaking Today it is under attack from a competing claim of executive unilateralism generated by recurrent patterns of presidential activism congressional passivity and judicial tolerance This dynamic has pushed presidents of both parties to press the limits of law in foreign affairs In his award winning National Security Constitution 1990 Harold Hongju Koh traced the evolution of this constitutional struggle across America's history This new book based on the earlier volume but with roughly 70 percent new material brings the story to the present placing recent events into constitutional perspective Reviewing the presidencies of the twenty first century he explains why modern national security threats have given presidents of both parties incentives to monopolize foreign policy decision making Congress incentives to defer and the courts reasons to rubber stamp Koh suggests both a workable strategy and crucial prescriptions to restore the balance of our constitutional order in addressing modern global crises
