The Soviet Union - Federation or Empire? Tania Raffass, 2012-06-14 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

early twentieth century to the end of the Irish Civil War The First World War and German National Identity Jan Vermeiren, 2016-07-18 An innovative study of the impact of the wartime alliance between Imperial Germany and Austria Hungary on German national identity The SAGE Handbook of Asian Foreign Policy Takashi Inoguchi, 2019-11-25 Comprising 60 3 percent of the world's 7.2 billion population Asia is an enigma to many in the West Hugely dynamic in its demographic economic technological and financial development its changes are as rapid as they are diverse The SAGE Handbook of Asian Foreign Policy provides the reader with a clear balanced and comprehensive overview on Asia's foreign policy and accompanying theoretical trends Placing the diverse and dynamic substance of Asia's international relations first and bringing together an authoritative assembly of contributors from across the world this is a reliable introduction to non Western intellectual traditions in Asia VOLUME 1 PART 1 Theories PART 2 Themes PART 3 Transnational Politics PART 4 Domestic Politics PART 5 Transnational Economics VOLUME 2 PART 6 Foreign Policies of Asian States Part 6a East Asia Part 6b Southeast Asia Part 6c South Central Asia Part 7 Offshore Actors Part 8 Bilateral Issues Part 9 Comparison of Asian Sub Regions *Helpless Imperialists* Maurus Reinkowski, Gregor Thum, 2012-11-21 *Helpless Imperialists* enquires into the relation between imperial exposure fear radicalization and violence and highlights moments of peripety bringing imperialist grandeur to collapse Minority Accommodation through Territorial and Non-Territorial Autonomy Tove H. Malloy, Francesco Palermo, 2015-10-08 *Minority Accommodation through Territorial and Non-Territorial Autonomy* explores the relationship between minority territory and autonomy and how it informs our understanding of non territorial autonomy NTA as a strategy for accommodating ethno cultural diversity in modern societies While territorial autonomy TA is defined by a claim to a certain territory NTA does not assume that it is derived from any particular right to territory allocated to groups that are dispersed among the majority while belonging to a certain self identified notion of group identity In seeking to understand the value of NTA as a public policy tool for social cohesion this volume critically dissects the autonomy arrangements of both NTA and TA and through a conceptual analysis and case study examination of the two models rethinks the viability of autonomy arrangements as institutions of diversity management This is the second volume in a five part series exploring the protection and representation of minorities through non territorial means examining this paradox within law and international relations with specific attention to non territorial autonomy NTA *Who Owns Antiquity?* James Cuno, 2010-10-18 Whether antiquities should be returned to the countries where they were found is one of the most urgent and controversial issues in the art world today and it has pitted museums private collectors and dealers against source countries archaeologists and academics Maintaining that the acquisition of undocumented antiquities by museums encourages the looting of archaeological sites countries such as Italy Greece Egypt Turkey and China have claimed ancient artifacts as state property called for their return from museums around the world and passed laws against their future export But in *Who Owns Antiquity* one of the world's leading museum directors vigorously challenges this nationalistic position

arguing that it is damaging and often disingenuous Antiquities James Cuno argues are the cultural property of all humankind evidence of the world's ancient past and not that of a particular modern nation They comprise antiquity and antiquity knows no borders Cuno argues that nationalistic retention and reclamation policies impede common access to this common heritage and encourage a dubious and dangerous politicization of antiquities and of culture itself Antiquities need to be protected from looting but also from nationalistic identity politics To do this Cuno calls for measures to broaden rather than restrict international access to antiquities He advocates restoration of the system under which source countries would share newly discovered artifacts in exchange for archaeological help and he argues that museums should again be allowed reasonable ways to acquire undocumented antiquities Cuno explains how partage broadened access to our ancient heritage and helped create national museums in Cairo Baghdad and Kabul The first extended defense of the side of museums in the struggle over antiquities Who Owns Antiquity is sure to be as important as it is controversial Some images inside the book are unavailable due to digital copyright restrictions

The Romanian Mass Media and Cultural Development David Berry, 2017-07-05 This

compelling book assesses the development of the mass media since the Romanian Revolution in December 1989 and the media's impact on cultural development the public sphere civil society and democracy It controversially claims that Romania's failure to experience a thoroughgoing enlightenment project in its entire history remains a major obstacle for producing democratic ownership of the media and democratic development of society Analyzing both the print and broadcast media and their respective effects on development the book also discusses the effects of Romanian law on media and societal development ethics and media responsibilities It concludes however that far from having an absolutely negative impact on Romanian post communism the media has helped produce a contradictory empirical form that equally contains positive moments in terms of subjective cultural development

In Search of Pre-Classical Antiquity: Rediscovering Ancient Peoples in Mediterranean Europe (19th and 20th c.), 2016-11-28 The book aims rethinking the cultural history of Mediterranean nationalisms between 19th and 20th centuries by tracing their specific approach to antiquity in the forging of a national past By focusing on how national imaginaries dealt with this topic and how history and archaeology relied on antiquity this collection of essays introduces a comparative approach presenting several cases studies concerning many regions including Spain Italy and Slovenia as well as Albania Greece and Turkey By adopting the perspective of a dialogue among all these Mediterranean political cultures this book breaks significantly new ground because it shifts attention on how Southern Europe nationalisms are an interconnected political and cultural experience directly related to the intellectual examples of Northern Europe but also developing its own particular trends Contributors are i dem Atakuman Filippo Carl Francisco Garcia Alonso Maja Gori Eleni Stefanou Rok Stergar Katia Visconti

The Politics of HBO's *The Wire* Shirin Deylami, Jonathan Havercroft, 2014-12-17 This innovative new work suggests that *The Wire* reflects not simply a cultural take on contemporary America but a structural critique of the conditions of late modernity and global capitalism As such it is a visual text worth investigating and exploring for its nuanced examination of power difference and inequality Deylami Havercroft bring together nine essays addressing issues of interest to a range of academic fields in order to engage with this important cultural intervention that has transfixed audiences and sparked debate within the social scientific community While the TV show is primarily focused upon the urban politics of Baltimore the contributors to this volume read Baltimore as a global city That is they argue that the relations between race class power and violence that the series examines only make sense if we understand that inner city Baltimore is a node in a larger global network of violence and economic inequality The book is divided into three interrelated sections focusing on systemic and cultural violence the rise and decline of national and state formations and the dysfunctional and destructive forces of global capitalism Throughout the series the relation of the urban to the global is constantly being explored This innovative new volume explains clearly how *The Wire* portrays this interaction and what this representation can show social scientists interested in race neo liberal processes of globalization criminality gender violence and surveillance

The Many Faces of Christianity, 2025-08-28 Is the Russian invasion of

Ukraine a Holy War This book offers insights into the complex ideology of the Russki Mir or Russian World which must be understood as Russian shaped world order or peace but above all a claim to the sacred The collected essays describe how Far Right politics in Europe and its resonances with the Russian World nod to the changing meaning of Christianity defying and transforming the categories of religion and politics and challenging common conceptions of the role of Christianity in European politics

The Northern Ireland experience of conflict and agreement Robin Wilson, 2018-07-30 The Northern Ireland Experience of Conflict and Agreement presents a salutary warning to the international community against the fashionable view that there is an Irish model which can be exported to cauterise ethnic troubles around the globe The book draws on extensive archive research in London and Dublin on the 1970s power sharing experiment and on interviews with senior officials and political figures from the two capitals as well as reconciliation practitioners about the negotiation and chequered implementation of the Belfast agreement It shows how stereotyped conceptions of the problem as a product of ancient hatreds allied to solutions based on Realpolitik have failed to transform Northern Ireland from a fragile peace following the exhaustion of protracted paramilitary campaigns to genuine reconciliation The book concludes with practical proposals for constitutional reforms which would favour genuine power sharing rather than merely sharing power out and set Northern Ireland on the road to the normal civic society its long suffering residents desire It will be essential reading not only for academics and postgraduates interested in ethnic conflict but also for policy makers who confront it in practice
