Ethnic Subnationalist Insurgencies in South Asia Jugdep S. Chima, 2015-03-24 This book provides a micro historical analysis of the emergence and contemporary dynamics of recent ethnic sub nationalist insurgencies in South Asia Using comparative case studies it discusses the causes of each insurgency analyses the trajectory and dynamics of each including attempts at resolution and highlights the wider theories of ethno nationalist insurgency and mobilization Bringing together an international group of contributors the book covers insurgencies in India Sri Lanka Pakistan Nepal and Bangladesh It questions why ethnic sub nationalist insurgencies occurred at particular points in time and not at others and explores the comparative trajectories of these movements The book goes on to discern reappearing patterns of conflict escalation de escalation through the method of comparative process tracing It argues that while identity is a necessary factor for insurgency it is not a sufficient one Instead ethnic mobilization and insurgency only emerge when it is activated by tension emerging from political competition between ethnic and central state elites These elite led dynamics when combined with favourable socio economic and political conditions make the ethnic masses primed to accept the often symbolically rich appeals from their leaders to mobilize against the central state Providing an important study on ethno nationalist insurgencies in South Asia the book will be of interest to those working in the fields of South Asian Politics Security Studies and Ethnic Conflict Multination States in Asia Jacques Bertrand, Andre Laliberte, 2010-03-22 As countries in Asia try to create unified polities many face challenges from minority groups within their own borders seeking independence This volume brings together international experts on countries in all regions of Asia to debate how differently they have responded to this problem Why have some Asian countries for example clamped down on their national minorities in favour of homogeneity whereas others have been willing to accommodate statehood or at least some form of political autonomy Together they suggest broad patterns and explanatory factors that are rooted in the domestic arena including state structure and regime type as well as historical trajectories In particular they find that the paths to independence as well as the cultural elements that have been selected to define post colonial identities have
