Soviet Union unequivocally testify to the power and influence of ethnonationalism at the end of the second millennium What forces make people so committed to their ethnonational groups that they are ready to ignore all other concerns first and foremost the rights and interests of people of other ethnicities What is the social psychological and anthropological underpinning of ethnonationalism And finally why and how do people adhere to nationalist attitudes and beliefs These questions are virtually impossible to avoid for anyone who has directly felt the impact of ethnonationalism but they also present themselves to anyone who has indirectly experienced the prejudices unleashed by ethnonationalist forces This book attempts to answer all these questions by focusing on national feeling and the social psychological and anthropological foundations that underlie the sense of belonging that is essential to nationalism No matter how qualitatively different nationalist attitudes and beliefs are from national sentiment the latter has to be considered in any study of nationalism

and how as in the French catastrophe of 1812 early successes were transformed into ruinous defeat However the smaller German states in Napoleon s alliance system the Confederation of the Rhine or Rheinbund also played an important part Despite its significance there are few books especially in English that explore the Rheinbund s creation evolution and demise This groundbreaking new work seeks to redress this Based on years of research in archives across Germany and France as well as battlefield visits this unprecedented study provides the first comprehensive analysis of the confederation s military campaigns of 1813 culminating in Napoleon s defeat and the collapse of his German alliance Presented in two parts this first volume opens with an overview of the Rheinbund as an institution a summary of its brief history and an overview of the campaigns battles and sieges of 1813 It then proceeds to a detailed examination of the activities of the armies of Saxony and Bavaria in this critical year The second volume continues with an analysis of the forces of W rtemberg Baden and Hesse Darmstadt Westphalia and the multitude of smaller states that comprised the Rheinbund Supplemented by more than 100 maps charts and orders of battle this is an essential reference work for any Napoleonic scholar and all those with an interest in the historical development of Germany

Identities, Politics, and Rights Austin Sarat, Thomas R. Kearns, 2010-05-06 The subject of rights occupies a central place in liberal political thought This tradition posits that rights are entitlements of individuals by virtue of their personhood and that rights stand apart from politics that rights in fact hold at bay intrusions of state policy The essays in *Identities Politics and Rights* question these assumptions and examine how rights constitute us as subjects and are at the same time implicated in political struggles In contrast to the liberal notion of rights universality these essays emphasize the context specific nature of rights as well as their constitutive effects Recognizing that political disputes throughout the world have increasingly been cast as arguments about rights the essays in this volume examine the varied roles that rights play in political movements and contests They argue that rights talk is used by many different groups primarily because of its fluidity Certainly rights can empower individuals and protect them from their societies but they also constrain them in other areas Frequently empowerment for one group means disabling rights for another group Moreover focusing on rights can both liberate and limit the imagination of the possible By alerting us to this paradox of rights empowerment and limitation *Identities Politics and Rights* illuminates ongoing challenges to rights and reminds us that rights can both energize political engagement and provide a resource for defenders of the status quo Contributors are Richard Abel Bruce Ackerman Wendy Brown John Comaroff Drucilla Cornell Jane Gaines Thomas R Kearns Elizabeth Kiss Kirstie McClure Sally Merry Martha Minow Austin Sarat and Steven Shiffrin Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science Amherst College Thomas R Kearns is William H Hastie Professor of Philosophy Amherst College
