Nationalism Politics Of Culture In Quebec:

Nationalism and the Politics of Culture in Quebec Richard Handler, 1988 Richard Handler's pathbreaking study of nationalistic politics in Quebec is a striking and successful example of the new experimental type of ethnography interdisciplinary in nature and intensively concerned with rhetoric and not only of anthropologists but also of scholars in a wide range of fields and it is likely to stir sharp controversy Bringing together methodologies of history sociology political science and philosophy as well as anthropology Handler centers on the period 1976-1984 during which the independentist Parti Québécois was in control of the provincial government and nationalistic sentiment was especially strong Handler draws on historical and archival research and on interviews with Quebec and Canadian government officials as he addresses the central question Given the similarities between the epistemologies of both anthropology and nationalist ideology how can one write an ethnography of nationalism that does not simply reproduce and thereby endorse nationalistic beliefs Handler analyzes various responses to the nationalist vision of a threatened existence He examines cultural tourism ideology of the Quebec government legislations concerning historical preservation language legislation and policies towards immigrants and cultural minorities He concludes with a thoughtful meditation on the futility of nationalisms

Nationalist Politics and Everyday Ethnicity in a Transylvanian Town Rogers Brubaker, Margit Feischmidt, Jon Fox, Liana Grancea, 2018-06-05 Situated on the geographic margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania's cultural and political center Yet heated nationalist rhetoric has evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker's groundbreaking *Ethnicity without Groups* the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life
