## **Nationalism Religion And Ethics:**

**Nationalism, Religion, and Ethics** Gregory Baum, 2001 A look at the ethics of nationalism and the modern state In simple language Gregory Baum discusses the writings of four men whose nationalism was shaped by their religion and their time Martin Buber Mahatma Gandhi Paul Tillich and Jacques Grand Maison Our Destiny Laurence Gronlund, 1891

Our Destiny Laurence Gronlund, 1901 **Universal Ethics** Göran Bexell, Dan-Erik Andersson, 2021-08-04 Questions on universal ethics are of utmost importance for peaceful relations between nations cultures and religions Are there common values or are all morals just expressions for various political economic or religious interests In this book scholars from different academic fields and with various views discuss questions that in different ways concern both the possibilities and risks of universal or common ethics The book is divided into five parts philosophical and ethical perspectives human rights perspectives universal ethics and religion globalization and global governance universal ethics and Nordic values Scholars from such fields as philosophy ethics human rights history political science sociology and theology are represented All of the authors are active researchers at Scandinavian universities This collection of articles is directed to professionals in various disciplines but can also serve as an introduction to the subject of universal ethics Religious Internationalism Matthew Lon Weaver, 2010 Religious Internationalism assembles and assesses for the first time the ethics of war and peace in the writings of Paul Tillich It sketches the evolution of Tillich's thought from the period of his service in the German Imperial Army through the time of the Cold War The work begins by analyzing Tillich's theological roots and his World War I chaplaincy sermons as the starting point for his thoughts on power and nationalism Then Religious Internationalism looks to his postwar turn to socialist thought and his participation in religious socialism fueling his cultural analyses and culminating in his forced emigration under Hitler Next it probes the American interwar period giving special attention to Tillich's self-described boundary perspective as well as the one treatise he wrote on religion and international affairs The book also examines his Voice of America speeches written and broadcast into his former homeland during World War II Weaver next considers Tillich's message to his English speaking audience of that period emphasizing social and world reconstruction The discussion continues by examining his vision of a path toward personhood in a bipolar world Finally the book constructs Tillich's ethics of war and peace as an ethic of religious internationalism suggesting adjustments intended to give it more universal significance The study concludes that Tillich's thought has provocative contributions to make to debates regarding civilizational conflict economics and international justice trade and globalization the defense of unprotected minorities and immigration policy Book jacket **Politics, Ethics and the Self** Rajeev Bhargava, 2022-06-23 Hind Swaraj by Mahatma Gandhi is arguably the greatest text to have emerged from the anti colonial movement in India and the first to seriously challenge the cultural and civilizational premises of the colonizers mentality It is also the first text in India that falls within the broad tradition of modern political philosophy advancing a complex cluster of theses with conceptual sensitivity analytical

**Public Policy** Sumner B. Twiss, Marian Gh. Simion, Rodney L. Petersen, 2015-02-26 This book pivots around two principal concerns in the modern world the nature and practice of human rights in relation to religion and the role of religion in perennial issues of war and peace It articulates a vision for achieving a liberal peace and a just society firmly grounded in respect for human rights while working in tandem with the constructive roles that religion can play even amid cultural difference It explores topics including the status and justification of human rights the meaning and significance of religious liberty whether human rights protections ought to be extended to other species how the comparative study of religious ethics ought to proceed and the nature limits and future development of just war thinking Featuring a group of distinguished contributors this is a distinctive contribution that shows a multifaceted and original exploration of cutting edge issues with regards to the aforementioned themes      *Public Theology for the 21st Century* Duncan B. Forrester, William Storrar, Andrew Morton, 2004-01-01 The book is a unique stocktaking by a leading international group of theologians social scientists and other scholars on issues facing public theology at the beginning of the 21st century It combines retrospect and prospect in that it reflects on the issues and approaches that have characterized public theology in the 20th century especially its latter half and attempts to anticipate those which will or should come to the fore in the 21st century seeking to discern continuities and changes Three opening chapters deal with the overall theme of public or political theology with Jurgen Moltmann giving a critical historical account from the Second World War onwards Raymond Plant relating such theology to cultural pluralism and Andrew Morton illustrating it from the work of Duncan Forrester These are followed by pairs of contributions relating public theology to more specific topicsr History Technology and Creation Globalization Spirituality Punishment and Forgiveness Medical Ethics Tolerance and Human Rights Social Exclusion and Equality      The Religious Foundations of Internationalism Norman Bentwich, 2015-10-08 This book discusses the relation of different religious systems to the development of world unity peace and international law It examines Pagan worship Judaism Christianity Islam and the Indian and Far Eastern religions and shows how far their universalism has made for peace or war It traces the struggle for religious freedom through the ages and what part religion could and should play in the movement for international peace At a time when religious fundamentalism and nationalism are once again issues of global significance this book is as relevant today as

when it was originally published      **Honey from the Lion** Doug Gay,2013-12-31 Doug Gay explores the ethics of nationalism recognising that for many Christians churches and theologians nationalism has often been seen as intrinsically unethical due to a presumption that at best it involves privileging one nation's interests over another's and at worst it amounts to a form of ethnocentrism or even racism Gay argues that there is another tradition of thinking nationalism which can be related to state formation in early modern and modern Europe and North America decolonisation in the 20th C and the reshaping of Central and Eastern Europe post 1989 This tradition represents a political response to various forms of empire and an assertion of a desire for self determination in opposition to domination by an imperial or colonial power This trajectory has not yet been adequately recognised within political theology and Christian ethics which remains suspicious of the language of nationalism while quietly acquiescing in its acceptance of the political legitimacy of most existing nation states The book offers a clear challenge to this approach suggesting it lacks self awareness and moral authority and proposes a critical rehabilitation of the discourse of nationalism as necessary and helpful in relation to creating an honest and transparent discourse about the legitimacy of state boundaries What makes any nationalism whether regnant or aspiring ethical for Christian theology      *Religion and Social Criticism* Bharat Ranganathan,Caroline Anglim,2024-02-20 This volume brings together emerging and established religious ethicists to investigate how those in the field carry forward the practice and tradition of social criticism and at the same time how social criticism informs the scholarly values of their field Contributors reflect on the nature of the moral subject and the ethical weight of human dignity and consider the limits and possibilities of religious humanism in orienting the work of social criticism They compare religious sources and forms of research in religious ethics to secular sources and the tradition of liberal social criticism And they offer proposals for how religious ethics can help humanists navigate our complex and multicultural moral landscape and what this field reveals about the ultimate ends of humanistic scholarship      Contributions to the Study of Peacemaking United States Institute of Peace,1992      *Current Issues in Law and Religion* Silvio Ferrari,2017-07-05 This volume focuses on issues that have only recently come to the forefront of the discipline such as freedom from religion ordination of homosexuals apostasy security and fundamentalism issues that are linked to the common themes of secularism and globalization Although these subjects are not new to the academic debate they have become prominent in law and religion circles as a result of recent and rapid changes in society The essays in this volume present multiple points of view facilitate scholars in understanding this evolving discipline and act as a stimulus for further research This collection gives the reader a sense of the key topics and current debates in law and religion and is of interest to law politics human rights and religion scholars      *The Main Issues Confronting the Minorities of Latvia and Eesti* A. Baron Heyking,1922      Comparative Religious Ethics Darrell J. Fasching,Dell deChant,David M. **Authoritarian Regimes and their Islamist Rivals** Miaad A. Hassan, 2024-10-31 This book explores the political trajectories of various countries in the Middle East and North Africa MENA region tracing the shifts in party systems and regime transitions along a model like trajectory that spans from revolutionism to authoritarianism and electoral Islamism Adopting a comparative perspective this book places patterns of party formation and developments in authoritarian and semi authoritarian systems within a historical and regional context It argues that during distinct periods such as the prevalence of nationalism in the 1920s pre independence era the flourishing of pan Arabism in the 1950s and the rise of Islamism in the 1970s ideologies have played a pivotal role in shaping the political landscape While secular nationalism initially wielded a significant influence on political social and cultural change in the MENA region the author argues that political Islam emerged as its primary rival Even as secular leaders in MENA guided their republics through top down reforms to establish a unified national ideology many though not all eventually incorporated Islam to address popular demands This book s key contribution lies in conceptualizing Islamism as a form of dialectical ideology This book offers an in depth analysis of politics party systems and regime transitions in the MENA region It is poised to resonate with students and researchers in political science history and Middle East studies

**"Public Religion" and the Pancasila-based State of Indonesia** Benyamin Fleming Intan, 2006 Public Religion and the Pancasila Based State of Indonesia An Ethical and Sociological Analysis analyzes the public role of religion in Indonesian society from the pre independence period to the end of Suharto s New Order government It offers constructive suggestions regarding how Indonesian religion can play a significant role within the framework of Pancasila Indonesia s national ideology Based on a Christian Muslim dialogue it is only within the realm of civil society that Indonesian religion will be able to promote the ideas of democracy tolerance and human rights in Indonesian public affairs In short far from being anti pluralist Indonesian religion evolves as a liberating force in the life of society nation and state

Chosen Nation Braden P. Anderson, 2012-01-05 Christian teaching and modern sensibilities both eschew nationalism as an extreme fanatical form of patriotism an excessive or disordered form of an otherwise healthy and proper national identity But what if the problem of nationalism is something much more fundamental What if nationalism is actually the process leading to national identity in the first place And what happens when this process entails selectively appropriating and reinterpreting the Christian tradition for the sake of the envisioned nation This book takes up these questions within the context of American Christian nationalism Here the process of interweaving the Christian narrative with American history and myth is examined in depth through a thorough engagement with scholarship on nationalism and within a framework shaped by contemporary theopolitical studies and the biblical narrative The study aims to discern how the Christian Scriptures and theological tradition have been used by Christians themselves to further what amounts to an alternative gospel In so doing this book charts a path for the church to evaluate itself honestly in light of Christ's lordship repent and learn to tell its story more truly
