Nationalist Ideology And Antisemitism

Kevin P. Spicer

Nationalist Ideology And Antisemitism:

Nationalist Ideology and Antisemitism Leon Volovici, 1991 After surveying political and ideological antisemitism in modern Romanian history and its main exponents Cuza Iorga Paulescu Goga discusses the evolution of antisemitic ideas in 1930s intellectual life the importance of antisemitism in Iron Guard ideology and the influence of its leader Codreanu and of extreme right wing intellectuals especially Nae Ionescu and N Crainic on representatives of the young generation of intellectuals e g Eliade and Cioran Emphasizes the link between antisemitic and anti democratic and pro fascist attitudes Focuses on specific cases of evolution to radical antisemitism e g Br tescu Voine ti and Manoilescu and deals with the contradictory case of Panait Istrati a former left wing militant Mentions the use of anti Jewish theological arguments antisemitic stereotypes in literature and forms of anti Jewish discrimination in free professional associations Underlines the great weight of the Jewish threat in Romanian nationalist thinking and its impact on cultural life The 1930s represented the climax of this trend

Antisemitism, Christian Ambivalence, and the Holocaust Kevin P. Spicer, 2007-05-31 Thirteen essays exploring the role of antisemitism in the political and intellectual life of Europe In recent years the mask of tolerant secular multicultural Europe has been shattered by new forms of antisemitic crime Though many of the perpetrators do not profess Christianity antisemitism has flourished in Christian Europe In this book thirteen scholars of European history Jewish studies and Christian theology examine antisemitism s insidious role in Europe s intellectual and political life The essays reveal that annihilative antisemitic thought was not limited to Germany but could be found in the theology and liturgical practice of most of Europe s Christian churches They dismantle the claim of a distinction between Christian anti Judaism and neo pagan antisemitism and show that at the heart of Christianity hatred for Jews overwhelmingly formed the milieu of twentieth century Europe This volume s inclusion of essays on several different Christian traditions as well as the Jewish perspective on Christian antisemitism make it especially valuable for understanding varieties of Christian antisemitism and ultimately the practice and consequences of exclusionary thinking in general In bringing a range of theological and historical perspectives to bear on the question of Christian and Nazi antisemitism the book broadens our view on the question and is of great value to historians and theologians alike Maria Mazzenga Catholic University of America H Catholic February 2009 Sheds light on and offers steps to overcome the locked in conflict between Jews and Christians along the antisemitic path from Calvary to Auschwitz and beyond Zev Garber Los Angeles Valley College and American Jewish University Shofar An Interdisciplinary Journal of Jewish Studies Vol 27 No 1 Fall 2008

Encyclopaedia of Nationalism Athena Leoussi, 2018-02-06 Since the end of the internationalist Soviet experiment in 1989 nationalism is now recognized as a positive vital force in modern political cultural and social life if kept in check from excess As a result of the explosion of nationalism there has been a veritable resurgence of nationalism studies This proliferation calls for a survey of instruments which have been developed by scholars for the study of nationalism The Encyclopaedia of Nationalism brings together

leading scholars in nationalism studies to survey this complex phenomenon With over one hundred entries the Encyclopaedia of Nationalism offers a complete and concise set of tools for the study of nationalism in a single volume The focus throughout is theoretical and for this reason particular nationalist movements and individual leaders are treated only as illustrative historical and contemporary cases in numerous entries The Encyclopaedia is organized in an alphabetical sequence of entries each of which includes a short bibliography for further reading The reader will find in depth discussions of the work of modern theoreticians of nationalism The defining figures of the eighteenth and nineteenth centuries including Herder Rousseau Fichte Marx and Renan Conceptual entries are treated historically and sociologically Crucial influential ideas and phenomena that continually redefine themselves with changing historical circumstances among them anti-Semitism art and nationalism assimilation class and nation decolonization ethnic competition genocide language and nation multiculturalism religion and nation state and nation and xenophobia are treated in depth A special attraction of this volume is its essay long entries many of which have been written by the scholars who developed them The Encyclopaedia of Nationalism discusses in lucid terms from an interdisciplinary perspective the central issues debates concepts and theories available to students and scholars of nationalism As such it is the most comprehensive and authoritative guide to the subject in all its varied manifestations and implications It will be an essential tool for historians political scientists sociologists and scholars of the history of ideas

Studies in Contemporary Jewry Jonathan Frankel, 1994-12-29 Published annually by the Institute of Contemporary Jewry at The Hebrew University of Jerusalem this acclaimed series includes symposia articles book reviews and lists of recent dissertations by major scholars of Jewish history from around the world This brilliant collection of essays examines the dialogue between Jewish history and historiography in terms of changing national and popular myths folk memory and historical consciousness of Jews in modern times From essays dealing with the origins of Jewish historiography in the 19th century to its contemporary perspectives and methodologies this book provides a great overview and varied insights into the field

Twentieth Century Mythologies Daniel Dubuisson, Martha Cunningham, 2014-12-05 Myths have intrigued scholars throughout history Twentieth Century Mythologies traces the study of myth over the last century presenting the key theories of mythology and critiquing traditional definitions of myth The volume presents the work of influential scholars in mythology the noted Indo-Europeanist Georges Dumézil the structuralist anthropologist Claude Lévi-Strauss and the historian of religions Mircea Eliade Twentieth Century Mythologies is an indispensable resource for scholars of religion and myth and for all those interested in the history of ideas

Antisemitism and the Politics of History Scott Ury, Guy Miron, Gai Miron, 2023-10-21 A ground breaking collection of essays regarding the history implementation and challenges of using antisemitism and related terms as tools for both historical analysis and public debate A unique sophisticated contribution to current debates in both the academic and the public realms regarding the nature and study of antisemitism today

Liberalism, Constitutional Nationalism, and Minorities Constantin Iordachi, 2019-06-17 Winner of the

2019 CEU Award for Outstanding Research This book documents the making of Romanian citizenship from 1750 to 1918 as a series of acts of national self determination by the Romanians as well as the emancipation of subordinated gender social and ethno religious groups It focuses on the progression of a sum of transnational questions that were at the heart of North Atlantic European and local politics during the long nineteenth century concerning the status of peasants women Greeks Jews Roma Armenians Muslims and Dobrudjans The analysis emphasizes the fusion between nationalism and liberalism and the emancipatory impact national liberalism had on the transition from the Old Regime to the modern order of the nation state While emphasizing liberalism s many achievements the study critically scrutinizes the liberal doctrine of legal political capacity and the dark side of nationalism marked by tendencies toward exclusion It highlights the challenges nascent liberal democracies face in the process of consolidation and the enduring appeal of illiberalism in periods of upheaval represented mainly by nativism The book s innovative interdisciplinary approach to citizenship in the Ottoman and post Ottoman Balkans and the richness of the sources employed appeal to a diverse readership *Cartoons and Antisemitism* Ewa

Stańczyk, 2024-06-20 Antisemitic caricatures had existed in Polish society since at least the mid nineteenth century But never had the devastating impacts of this imagery been fully realized or so blatantly apparent than on the eve of the Second World War In *Cartoons and Antisemitism Visual Politics of Interwar Poland* scholar Ewa Stańczyk explores how illustrators conceived of Jewish people in satirical drawing and reflected on the burning political questions of the day Incorporating hundreds of cartoons satirical texts and newspaper articles from the 1930s Stańczyk investigates how a visual culture that was essentially hostile to Jews penetrated deep and wide into Polish print media In her sensitive analysis of these sources the first of this kind in English the author examines how major satirical magazines intervened in the ongoing events and contributed to the racialized political climate of the time Paying close attention to the antisemitic tropes that were both local and global Stańczyk reflects on the role of pictorial humor in the transmission of visual antisemitism across historical and geographical borders As she discusses the communities of artists publishers and political commentators who made up the visual culture of the day Stańczyk tells a captivating story of people who served the antisemitic cause and those who chose to oppose it **Ana Pauker** Robert Levy, 2001-03-22 Yet this woman whom Time Magazine described in 1948 as the most

powerful woman alive has been buried under a myth of mindless loyalty to Stalin and such fanaticism that she supposedly could denounce her own husband Marcel Pauker as a traitor which Levy proves she did not do **Roots of Hate** William Brustein, 2003-10-13 William I Brustein offers the first truly systematic comparative and empirical examination of anti-Semitism within Europe before the Holocaust Brustein proposes that European anti-Semitism flowed from religious racial economic and political roots which became enflamed by economic distress rising Jewish immigration and socialist success To support his arguments Brustein draws upon a careful and extensive examination of the annual volumes of the American Jewish Year Books and more than 40 years of newspaper reportage from Europe s major dailies The findings of this

informative book offer a fresh perspective on the roots of society's longest hatred **The Resistible Rise of Antisemitism** Laura Engelstein, 2020-03-05 Antisemitism emerged toward the end of the nineteenth century as a powerful political movement with broad popular appeal. It promoted a vision of the world in which a closely knit tribe called the Jews conspired to dominate the globe through control of international finance at the highest levels of commerce and money lending in the towns and villages. This tribe at the same time maneuvered to destroy the very capitalist system it was said to control through its devotion to the cause of revolution. It is easy to draw a straight line from this turn of the century paranoid thinking to the murderous delusions of twentieth century fascism. Yet the line was not straight. Antisemitism as a political weapon did not stand unchallenged even in Eastern Europe where its consequences were particularly dire. In this region Jewish leaders mobilized across national borders and in alliance with non Jewish public figures on behalf of Jewish rights and in opposition to anti Jewish violence. Antisemites were called to account and forced on the defensive. In Imperial and then Soviet Russia in newly emerging Poland and in aspiring Ukraine notorious in the West as antisemitic hotbeds antisemitism was sometimes a moral and political liability. These intriguing essays explore the reasons why and they offer lessons from surprising places on how we can continue to fight antisemitism in our times **Comparative Perspectives on Civil Religion, Nationalism, and Political Influence** Lewin, Eyal, Bick, Etta, Naor, Dan, 2016-06-27 Throughout history as well as in contemporary times religion has had a significant impact on society and culture. Many times religious undertones are incorporated into political agendas or social movements in an effort to spur action from and engage the masses. *Comparative Perspectives on Civil Religion, Nationalism, and Political Influence* investigates how belief systems, political behavior, and public action impact the general populace. Featuring theoretical concepts and empirical research across pertinent topic areas, this book is a pivotal reference source for students, scholars, and public figures interested in social behavior, religious studies, and politics 1999 Susan Sarah Cohen, 2013-02-18 No detailed description available for 1999 **What is Antisemitism?** Linda Maizels, 2022-09-30 In October 2018 a white supremacist murdered eleven Jewish worshipers and wounded six others at the Tree of Life Synagogue in Pittsburgh, Pennsylvania, the deadliest attack on Jews ever perpetrated in the United States. The gunman's motivation to kill Jews stemmed from his belief that Jews were committing genocide against white Americans. Although his animosity was motivated by a racial conception of Jews, the attack took place in a house of worship, illustrating the complex and interlocking web of anti Jewish hatred based on race, ethnicity, nationality, religion, economic issues, and conspiracy theory that is commonly referred to as antisemitism. *What is Antisemitism?* provides a detailed overview of this complex topic. It offers a history of anti Jewish animosity from antiquity to the present, a discussion of the difficulties of defining antisemitism, arguably one of the most contentious issues in the contemporary discourse on the subject, and three case studies illustrating the diverse and wide ranging nature of the phenomenon in the present day, including examples from the political far right, the political hard left, and radical Islamism. With suggestions for further reading and a chronological

structure this volume is an accessible and essential student textbook

Hannah Arendt And The Jewish Question

Richard J. Bernstein, 1996-07-11 Hannah Arendt 1906 1975 was one of the most original and interesting political thinkers of the twentieth century In this new interpretation of her career philosopher Richard Bernstein situates Arendt historically as an engaged Jewish intellectual and explores the range of her thinking from the perspective of her continuing confrontation with the Jewish question Bernstein argues that many themes that emerged in the course of Arendt's attempts to understand specifically Jewish issues shaped her thinking about politics in general and the life of the mind By exploring pivotal events of her life story her arrest and subsequent emigration from Germany in 1933 her precarious existence in Paris as a stateless Jew working for Zionist organizations her internment at Gurs and her subsequent escape and finally her flight from Europe in 1941 he shows how personal experiences and her responses to them oriented her thinking Arendt's analysis of the Jews lack of preparation for the vicious political anti-Semitism that arose in the last decade of the nineteenth century Bernstein argues led her on a quest for the ultimate meaning of politics and political responsibility Moreover he points out that Arendt's deepest insights about politics emerged from her reflections on statelessness and totalitarian domination Bernstein also examines Arendt's attraction to and break with Zionism and the reasons for her critical stance toward a Jewish sovereign state He then turns to the issue that in Arendt's opinion needed most to be confronted in the aftermath of World War II the fundamental nature of evil He traces the nuances of her thinking from radical evil to the banality of evil and finally reexamines Eichmann in Jerusalem her meditation on evil that caused a storm of protest and led some to question her loyalty to the Jewish people

Racial Science in Hitler's New Europe, 1938-1945 Anton Weiss-Wendt, Rory

Yeomans, 2020-04-01 In *Racial Science in Hitler's New Europe 1938 1945* international scholars examine the theories of race that informed the legal political and social policies aimed against ethnic minorities in Nazi dominated Europe The essays explicate how racial science preexisting racist sentiments and pseudoscientific theories of race that were preeminent in interwar Europe ultimately facilitated Nazi racial designs for a New Europe The volume examines racial theories in a number of European nation states in order to understand racial thinking at large the origins of the Holocaust and the history of ethnic discrimination in each of those countries The essays by uncovering neglected layers of complexity diversity and nuance demonstrate how local discourse on race paralleled Nazi racial theory but had unique nationalist intellectual traditions of racial thought Written by rising scholars who are new to English language audiences this work examines the scientific foundations that central eastern northern and southern European countries laid for ethnic discrimination the attempted annihilation of Jews and the elimination of other so called inferior peoples

Conservatives and Right Radicals in Interwar Europe Marco Bresciani, 2020-12-30

This book features a broad range of thematic and national case studies which explore the interrelations and confrontations between conservatives and the radical Right in the European and global contexts of the interwar years It investigates the political social cultural and economic issues that conservatives and radicals tried to address

and solve in the aftermaths of the Great War Conservative forces ended up prevailing over far right forces in the 1920s with the notable exception of the Fascist regime in Italy But over the course of the 1930s and the ascent of the Nazi regime in Germany political radicalisation triggered both competition and hybridisation between conservative and right wing radical forces with increased power for far right and fascist movements The book will be of great interest to students and scholars of politics history fascism and Nazism

Jews and Anti-Semitism in the Balkans Oto Luthar, Wolf Moskovich, Irena Šumi, 2004-01-01 Knjiga prina a osem prispevkov z mednarodne konference Jews and Anti semitism in the Balkans Judje in antisemitizem na Balkanu ki je potekala na Bledu od 20 do 24 oktobra 2002 Avtorji tematizirajo vrsto socialnih aspektov sodobnega antisemitizma Ve inoma se osredoto ajo na detaljne zgodovinske orise in analize aktualne situacije Judov in javnega dravnega in stereotipnega antisemitizma znotraj nacionalnih okvirov dravnega na Balkanu Zlasti podrobno je obdelan as po padcu komunisti njih re imov

Antisemitism Explained Steven K. Baum, 2012 Beneath the surface of our society writes historian Robert Wistrich are ancient myths dark hatreds and irrational fantasies that continue to nourish antisemitism But the larger question has to do with why we are so prone to believe them To that end Steven K Baum has an answer In this book Baum carefully guides the reader through the social mind and explains how the formation of social beliefs can be used as a narrative to determine reality He offers a new perspective regarding how antisemitic legends and folk beliefs form the basis of our ongoing social narrative Baum asks the reader to consider a social unconscious the cauldron of cultural fantasies that consists of superstitions magical thinking and racial tales This witches brew concocts a Social Voice that can be loud or quiet benign or hostile fleeting or permanent Most importantly this voice is undeniably antisemitic and racist As is often the case in the court of public opinion those who own the narrative win In *Antisemitism Explained* Baum reminds us to think critically about our own social narrative and to be careful about what we choose to believe

The Study of Religion Under the Impact of Fascism Horst Junginger, 2008 Addressing the European study of religion in the interwar period these proceedings tackle one of the most problematic epochs of its history The commonplace that understanding the present requires learning from the past is particularly true as this case well illustrates
