Nationalist Revolution In China 1923 1928:

The Nationalist Revolution in China, 1923-1928 C. Martin Wilbur, 1984-11-29 This lively history of China's Nationalist revolution tells the story of a small group of Chinese patriots headed by Sun Yat-sen until his death in 1925. They mobilised men, money and propaganda to create a provincial base from which they launched a revolutionary military campaign to unify the country, end imperialist privilege and bring the Kuomintang to power. Soviet Russia induced the fledgling Chinese Communist Party to join the effort and sent money, arms, military and political experts to guide the revolution. But there was a fatal flaw in this co-operation and when the fighting was over the remnant Communist Party had been driven underground, the Russian experts had been expelled and a faction-riven Nationalist Party led by Chiang Kai-shek could claim to be China's new government. This study of a key period in China's history reprinted from Volume 12 of *The Cambridge History of China* is solidly based in Chinese, Russian and Western language sources. *The Chinese Revolution in the 1920s* Roland Felber, A.M. Grigoriev, Mechthild Leutner, M.L. Titarenko, 2013-10-11 Uses previously unavailable archive material. Presents perspectives on the Chinese revolution from independent outlooks: Chinese, Russian, European and US. Covers a crucial period in Chinese modern history. *Historical Dictionary of the Chinese Civil War* Christopher R. Lew, Edwin Pak-wah Leung, 2013-07-29 The Chinese Civil War, which lasted several years or several decades depending on how you define it, was one of the most momentous wars of the 20th century for it determined the fate of the world's most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected. More to the point, it was won by the Chinese Communist Party under Mao Zedong, who imposed Communist rule, while the Nationalists retreated to Taiwan. It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States. This second edition of the *Historical Dictionary of the Chinese Civil War* studies the longer, broader war and its chronology carefully tracks the major events. The introduction then provides a broad overview describing the contending forces and showing how the Communists came out on top. The details and these are crucial are laid out in over 200 cross-referenced dictionary entries dealing with the opposing forces and parties, the major campaigns and battles, the Long March and, of course, the leadership on both sides. This book, one of few such in English, provides a very solid basis for study but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography. *American Radio in China* Michael A. Krysko, 2011-04-12 Interwar era efforts to expand US radio into China floundered in the face of flawed US policies and approaches. Situated at the intersection of media studies, technology studies and US foreign relations, this study frames the ill-fated radio initiatives as symptomatic of an increasingly troubled US-East Asian relationship before the Pacific War. **Chiang Kai-shek's Politics of Shame** Grace C. Huang, 2022-03-07 Once a powerful figure who reversed the disintegration of China and steered the country to Allied victory in World War II, Chiang Kai-shek fled into exile following his 1949 defeat in the Chinese civil war. As attention pivoted to Mao

Zedong's communist experiment Chiang was relegated to the dustbin of history In Chiang Kai shek's Politics of Shame Grace C Huang reconsiders Chiang's leadership and legacy by drawing on an extraordinary and uncensored collection of his diaries telegrams and speeches stitched together by his secretaries She paints a new intriguing portrait of this twentieth century leader who advanced a Confucian politics of shame to confront Japanese incursion into China and urge unity among his people In also comparing Chiang's response to imperialism to those of Mao Yuan Shikai and Mahatma Gandhi Huang widens the implications of her findings to explore alternatives to Western expressions of nationalism and modernity and reveal how leaders of vulnerable states can use potent cultural tools to inspire their country and contribute to an enduring national identity

Politics in China William A. Joseph, 2019-04-25 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest

Politics in China provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan

Britain's Imperial Cornerstone in China Donna Brunero, 2006-03-02 This is an in depth account of the Chinese Imperial Maritime Customs Service a uniquely cosmopolitan institution established in the wake of China's defeat in the Opium Wars 1842 to 43 and a central feature of the Treaty Port system The British dominated service was headed by the famous Robert Hart who founded a far reaching customs administration that also encompassed other responsibilities such as marine and harbour maintenance quarantine anti piracy patrols and postal services This institution sat at a crucial juncture between Chinese and foreign interests and was intimately linked to British interests and fortunes in the Far East Following the establishment of the Republic in 1911 there were grave misgivings as to whether the foreign element of the Service would survive Yet the Service grew in influence and strength ensuring the foreign inspectorate a continued role in China's affairs Delivering an overview of the Service its bureaucracy fiscal responsibilities and life for foreigners in its employ focusing especially on the later years of the Service Donna Brunero draws on the experiences of the foreign administration of the Service as it attempted to negotiate between Chinese and foreign expectations and interests

Confucian Marxism

Weigang Chen,2013-09-25 Buttressed by an autocratic system China's colossal economic growth over the past decades seems to have had the paradoxical effect of undermining the foundation of Western domination but at the same time invigorating Eurocentricism In particular it highlights the current relevance of the central conviction of Weber's Orient the absence of civic roots in non Western societies will create a kind of uncivic capitalist system in which one has no choice but to seek to compensate for instabilities through authoritarian institutions Does this mean that the West may alone afford to harmonize political stability with the universalistic ideal of justice as the basic structure of society If not how then is it possible to develop a notion of the primacy of social justice that transcends the limits of liberal democracy This book aims at addressing these timely questions by drawing on Confucian Marxism a distinctive perspective on civil society **Britain's Imperial Retreat from China, 1900-1931** Phoebe Chow,2016-07-15 Britain's relationship with China in the nineteenth and early twentieth century is often viewed in terms of gunboat diplomacy unequal treaties and the unrelenting pursuit of Britain's own commercial interests This book however based on extensive original research demonstrates that in Britain after the First World War a combination of liberal Labour party pacifist missionary and some business opinion began to argue for imperial retreat from China and that this movement gathered sufficient momentum for a sympathetic attitude to Chinese demands becoming official Foreign Office policy in 1926 The book considers the various strands of this movement relates developments in Britain to the changing situation in China especially the rise of nationalism and the Guomindang and argues that contrary to what many people think the reassertion of China's national rights was begun successfully in this period rather than after the Communist takeover in 1949 *A Critical Introduction to Mao* Timothy Cheek,2010-08-23 Mao Zedong's political career spanned more than half a century The ideas he championed transformed China and inspired revolutionary movements across the world In this book leading scholars offer a critical evaluation of the life and legacy of China's most famous son *Revealing/Reveiling Shanghai* Lisa Bernstein,Chu-chueh Cheng,2020-08-01 *Revealing/Reveiling Shanghai* provides international and interdisciplinary perspectives on representations of Shanghai a contested location within political discourse and cultural imagination Shanghai's complex history as a quasi colonial city and its contradictory identity as the birthplace of Communist China and the epitome of twenty first century capitalism make it an especially fascinating subject Contributors examine representations of Shanghai in film art literature memoir theater and mass media from the past one hundred years They address the ways in which texts from the late twentieth and early twenty first centuries have rewritten past and present Shanghai to reflect our own wishes and anguishes show how the city resists static interpretations and challenge notions of authentic representation and identity By revealing and questioning persistent stereotypes and constructed versions of East and West the essays offer diverse views so as to create a genuine exchange with contemporary global audiences A wide variety of texts are discussed including the films *Street Angel* 1937 and *The White Countess* 2005 and the novels *The Song of Everlasting Sorrow* 1996 and *Shanghai Baby* 1999 Government, Imperialism and Nationalism

in China Chihyun Chang, 2013-08-06 The Chinese Maritime Customs Service which was led by British staff is often seen as one of the key agents of Western imperialism in China the customs revenue being one of the major sources of Chinese government income but a source much of which was pledged to Western banks as the collateral for and interests payments on massive loans This book however based on extensive original research considers the lower level staff of the Chinese Maritime Customs Service and shows how the Chinese government struggling to master Western expertise in many areas pursued a deliberate policy of encouraging lower level staff to learn from their Western superiors with a view to eventually supplanting them a policy which was successfully carried out The book thereby demonstrates that Chinese engagement with Western imperialists was in fact an essential part of Chinese national state building and that what looked like a key branch of Chinese government delegated to foreigners was in fact very much under Chinese government control

The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly

Student Nationalism in China, 1924-1949 Lincoln Li, 1994-01-01 Li examines the critical role of the younger generation as a political force influenced by the cultural and ideological debates during China s reunification in 1927 and again in 1949 He focuses on key organizations to illustrate how political parties turned explosive national feelings into an organized political force Li shows how Chinese student nationalism despite its radical image represents a prominent feature of continuity in Chinese sociopolitical culture

Leadership and Authority in China Lawrence Sullivan, 2012-07-13 This volume presents elite conflicts and political controversies in China from 1895 to 1978 as rooted in two diametrically opposed visions of leadership and political authority a radical charismatic model that instills absolute authority in the single leader whose will

guides the polity and whose word is the basis of policy formulation versus an institutional model in which authority inheres in organization and where collective leadership and decision making govern the political realm The former model in modern Chinese history entailed a leader principle and personality cult that began with Sun Yatsen and Chiang Kaishek in the Nationalist Party KMT and reached its peak with the leadership cult of Chinese Communist Party CCP Chairman Mao Zedong especially during the 1966-1976 Great Proletarian Cultural Revolution The latter model with its emphasis on collective leadership *jiti lingdao* and administrative rationalism began as a reaction among early members of the CCP against the promotion of the Sun and Chiang leadership cults and became a central governing principle in the Communist Party that served as official leadership doctrine beginning with the formation of the Party in 1921 While tensions over leadership issues were relatively muted in the pre-1949 period and early 1950s of CCP history as an apparent compromise was reached in which from 1943 onward a cult of the leader was promoted for propaganda purposes but with collegial decision making governing inner Party decision making the mid to late 1950s saw this compromise among the top leadership come under increasing strain and finally break down Devoted to a fundamentally different vision of a socialist China from other top leaders on a number of economic social and political fronts Mao Zedong pushed his domination of the policy process that ultimately provoked a wholesale assault on the CCP apparatus throughout the country while the leader cult reached mythic proportions during the Cultural Revolution Confronted by the possibility of civil war and generally opposed to the takeover of the polity by the radical Gang of Four led by his wife Jiang Qing by the mid 1970s the aging great leader acquiesced to the rebuilding of the CCP along traditional institutional lines
