Ambivalent Neighbors Anatol Lieven, Dmitri V. Trenin, 2013-01-25 Almost fifteen years after the end of the Cold War the process of creating a Europe whole and free is incomplete and likely to be so for the foreseeable future In this volume a group of highly distinguished contributors from both East and West examines the complicated and multi faceted process of NATO and EU enlargement in the context of the changed global situation since the terrorist attacks of September 11 2001 This book examines the enlargement processes not only from the perspective of the West and western institutions but also from the point of view of the former communist countries If an enlarged NATO and EU are to be stable and successful in the long run they must take account of the wishes and interests of both their new former communist members and those European states that will not become members of either NATO or the EU in the foreseeable future Contributors include Christopher Bobinski Unia Polska Vladimir Baranovsky Institute of the World Economy and International Relations Heather Grabbe Center for European Reform Karl Heinz Kamp Konrad Adenauer Foundation Charles King Georgetown University Alexander J Motyl Center for Global Change and Governance Zaneta Ozolina University of Latvia Alexander Sergounin Nizhny Novgorod Linguistic University William Wallace London School of Economics and Leonid Zaiko Strategy Center

Restructuring Post-Communist Russia Yitzhak Brudny, Jonathan Frankel, Stefani Hoffman, 2004-06-21 Since the fall of the Soviet Union in 1991 the question of whither Russia has been the source of ceaseless speculation both at home and abroad In search of answers twelve highly qualified scholars examine the complex interplay between continuity and change that has marked developments in Russia under the leadership first of Boris Yeltsin and now of Vladimir Putin Analysing the recent past they also peer into the country's future In his introduction to the volume Peter Rutland asks whether we are witnessing the gradual entrenchment of parliamentary democracy the slow return to autocracy or mere political stagnation Restructuring Post Communist Russia poses the fundamental questions while providing the information and analysis needed to give the at least preliminary answers

Nuclear Energy Safety and International Cooperation Spencer Meredith, III, 2014-07-11 Twenty five years after the Chernobyl explosion disaster struck once again after a tsunami overwhelmed the considerable safety measures at the Fukushima nuclear power plant in Japan However Fukushima had in place a solid containment structure to reduce the spread of radiation in the event of a worst case scenario Chernobyl did not These two incidents highlight the importance of such safety measures which were critically lacking in an entire class of Soviet designed reactors This book examines why five countries operating these dangerous reactors first signed international agreements to close them within a few years then instead delayed for almost two decades It looks at how political decision makers weighed the enormous short term costs of closing those reactors against the long term benefits of compliance and how the political instability that dominated post Communist transitions impacted their choices The book questions the efficacy of Western governments efforts to convince their Eastern counterparts of the dangers they faced and establishes a causal relationship

between political stability and compliance behavior This model will also enable more effective assistance policies in similar situations of political change where decision makers face considerable short term costs to gain greater future rewards This book provides a valuable resource for postgraduate students academics and policy makers in the fields of nuclear safety international agreements and democratization *The Road to Stability and Prosperity in South Eastern Europe* ,2000-01-01 Report prepared by the Europe and Central Asia Region World Bank in close consultation with the International Monetary Fund P ix

Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book s arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions Postcommunism from Within Jan Kubik,Amy Linch,2013-08-26 While the decline of communism in the late twentieth century brought democracy political freedom and better economic prospects for many people it also produced massive social dislocation and engendered social problems that were far less pronounced under the old regimes The fall of state socialism led to enormously complex political economic social and cultural transformations and while political liberalization was a lofty goal it was neither uniform in its effects nor unqualified in its benefits Postcommunism from Within foregrounds the diversity of the historical experiences and current realities of people in the postcommunist region in examining how they are responding to these monumental changes at home The original essays in this volume lay out a bold new approach to research on the postcommunist region and to democratization studies more broadly that focuses on the social and cultural microprocesses behind political and economic transformation Thematic essays by eminent scholars of postcommunism from across the social sciences are supported by case studies to demonstrate the limitations of current democratization paradigms and suggest ways of building categories of research that more closely capture the role of vernacular knowledge in demanding creating and adapting to institutional change A novel approach to understanding one of the greatest political and social transformations in recent history Postcommunism from Within explores not just how citizens respond to political and economic restructuring engineered at the top but also how people enact their own visions of life politics and justice by responding to daily challenges *Nations in Transit*, 1997 Adrian Karatnycky,Alexander J. Motyl,Boris Shor,1997 Keeping the Republic Christine Barbour,Gerald C. Wright,2025-02-22 Keeping the Republic draws students into the study of American politics showing them how to think critically about who gets what and how while exploring the twin themes of power and citizenship Throughout the text and its features authors Christine Barbour and Gerald C Wright reveal how to effectively apply critical thinking skills to the political information encountered every day With students living through one of the most challenging periods in American life the Twelfth Edition is a much needed resource to help them make sense of politics in America today and become savvy consumers of political information *Institution-building in the New Democracies* Hans-Georg Heinrich,1999 **The Limits of Europe** Daniel C. Thomas,2021-11-25 Where does Europe begin and end How have the European Union and its

precursors decided which countries are eligible to join the community and which are not Few issues are more hotly debated more important for the course of European integration or more consequential for individuals in and around the EU As this book demonstrates the limits of Europe are determined by the values shared at particular moments in time by the leaders of the community s member states regardless of their particular policy preferences These membership norms shape the community s decisions on enlargement by empowering certain political forces and disempowering others And contrary to conventional wisdom these norms have changed considerably over time The Limits of Europe Membership Norms and the Contestation of Regional Integration uses a novel combination of normative genealogy statistical analysis and detailed tracing of EU decision making on Greece Spain Turkey and Ukraine to demonstrate that changing membership norms have had a stronger impact on the community s enlargement since the 1950s than treaty rules the location of the states seeking membership or even the commercial or security interests of member states *Tajikistan on the Move* Marlene

Laruelle, 2018-05-25 The southernmost and poorest state of the Eurasian space Tajikistan collapsed immediately upon the fall of the Soviet Union and plunged into a bloody five year civil war 1992-1997 that left more than 50 000 people dead and more than half a million displaced After the 1997 Peace Agreements Tajikistan stood out for being the only post Soviet country to recognize an Islamic party the Islamic Renaissance Party of Tajikistan IRPT as a key actor in the civil war as well as in postwar reconstruction and democratization Tajikistan s linguistic and cultural proximity to Iran notwithstanding the balance of external powers over the country remains fairly typical of Central Asia with Russia as the major security provider and China as its principal investor Another specificity of Tajikistan is its massive labor migration flows toward Russia Out of a population of eight million about one million work abroad seasonally one of the highest rates of departure in the world Migration trends have impacted Tajikistan s economy and rent mechanisms half of the country s GDP comes from migrant remittances a higher share than anywhere else in the world However it is in the societal and cultural realms that migration has had the most transformative effect Migrants cultural and societal identities are on the move with a growing role given to Islam as a normative tool for regulating the cultural shock of migration Islam and especially a globalized fundamentalist pietist movement regulates both physical and moral security in workplace and other settings and brings migrants together to make their interactions meaningful and socio politically relevant It offers a new social prestige to those who work in an environment seen as threatening to their Islamic identity The first section of this volume investigates the critical question of the nature of the Tajik political regime its stability legitimacy mechanisms and patterns of centralization In the volume s second part we move away from studying the state to delve into the societal fabric of Tajikistan shaped by local rural specificities and social vulnerabilities in the health sector and gender relationships The third section of the volume is devoted to identity narratives and changes While the Tajik regime works hard to control the national narrative and the interpretation of the civil war society is literally and figuratively on the move as migration profoundly reshapes societal structures and

cultural values *Frustrated Democracy in Post-Soviet Azerbaijan* Audrey L. Altstadt, 2017-05-23 Frustrated Democracy in Post Soviet Azerbaijan follows a newly independent oil rich former Soviet republic as it adopts a Western model of democratic government and then turns toward corrupt authoritarianism Audrey L Altstadt begins with the Nagorno Karabagh War 1988 1994 which triggered Azerbaijani nationalism and set the stage for the development of a democratic movement Initially successful this government soon succumbed to a coup Western oil companies arrived and money flowed in a quantity Altstadt calls almost unimaginable causing the regime to resort to repression to maintain its power Despite Azerbaijan's long tradition of secularism political Islam emerged as an attractive alternative for those frustrated with the stifled democratic opposition and the lack of critique of the West's continued political interference Altstadt's work draws on instances of censorship in the Azerbaijani press research by embedded experts and nongovernmental and international organizations and interviews with diplomats and businesspeople The book is an essential companion to her earlier works *The Azerbaijani Turks Power and Identity Under Russian Rule* and *The Politics of Culture in Soviet Azerbaijan 1920 1940*

legacy of the Second World War has been like the war itself an international phenomenon In both Europe and Asia common questions of criminality guilt and collaboration have intersected with history and politics on the local level to shape the way that wartime experience has been memorialized reinterpreted and used By directly comparing European and Asian legacies *Confronting Memories of World War II* provides unique insight into the way that World War II continues to influence contemporary attitudes and politics on a global scale The collection brings together experts from a variety of disciplines and perspectives to explore the often overlooked commonalities between European and Asian handling of memories and reflections about guilt These commonalities suggest new understandings of the war's legacy and the continuing impact of historical trauma

East Central Europe since 1989 Sabrina P. Ramet, Lavinia Stan, 2024-12-12 This groundbreaking treatment of post communist developments in East Central Europe examines politics economics media religious institutions transitional justice gender inequality and literature highlighting the overt functions latent functions and side effects associated with each sphere Communism in East Central Europe had cracks from the beginning as uprisings in East Germany in 1953 and Hungary in 1956 demonstrated But with the establishment of the Independent Trade Union Solidarity in Poland in the Summer of 1980 communism went into steady decline and between 1988 and 1991 crumbled What followed has been an unsteady transition to various forms of often corrupt pluralism with democracy doing best in the Czech Republic with the exception of the years 2017 2021 and Slovenia and worst in Hungary Albania Serbia and Bosnia Herzegovina Drawing on the functionalist theory of Robert K Merton the authors examine what policymakers communist and post communist were or are trying to accomplish the intended and unintended results of these policies and the side effects they have produced This volume will be of interest not only to specialists in East Central Europe but also to graduate and undergraduate students members of the diplomatic corps and general readers
