Nations And States A Geographic Background To World Affairs:

Nations and states Thomas M. Poulsen, 1992* **Human Geography in Action** Michael Kuby, John Harner, Patricia Gober, 2013-01-14 Michael Kuby's 6th edition of *Human Geography in Action* is comprised of 14 stimulating concept based chapters. The text aims to develop geographic problem solving skills that prove valuable to readers. Each chapter begins with an introduction to a concept followed by a case study tying the concept into the real world and wraps up with an activity. These engaging activities featured throughout the text further its Do Geography approach. *Human Geography in Action* provides the opportunity to use GIS to investigate ethnic distributions and culture regions, track the AIDS epidemic over space and time, model interstate migration flows, simulate India's demographic future, add new baseball franchises, animate past urban growth, and assess future growth areas.

An Introduction to World Politics Richard Oliver Collin, Pamela L. Martin, 2012-08-02 This book, written for introductory level students of global politics, examines the connections and conflicts among peoples on our planet and relates them in a personalized way. While other world politics texts examine the globe from a distance, this text emphasizes the voices of the people.

The New World of Politics Neal Riemer, Douglas W. Simon, 1997-03 In this fourth edition, Neal Riemer and Douglas W. Simon again seek to introduce students to the challenging discipline of political science by highlighting six cardinal features. The editors strongly believe that their unique and comprehensive approach, employing those six features, can best equip students of political science to stay abreast of the ever-changing and ever-challenging world of politics. First and most important, Riemer and Simon affirm the importance of addressing the three main concerns of political science: political and philosophy and ethics, empirical behavioral political science, and public policy. Second, the authors reaffirm their normative preference for politics as a civilizing enterprise, one that enables people in the political community to live better, to grow robustly in mind and spirit, and to find creative fulfillment. The fourth cardinal feature requires recognizing realistically the ever-changing nature of politics and the tasks of assessing and responding to changing values. The sixth cardinal feature of *The New World of Politics* is understanding the importance of keeping the future in mind, not only the immediate future but the long-range future. This book seeks to introduce students to political science as a discipline intimately involved with ethics, empirical social scientific inquiry, and public policy. Neal Riemer and Douglas W. Simon are endeavoring to help students respond to those future problems with understanding and wisdom.
