Nations Unbound:

Nations Unbound Linda Basch, Nina Glick Schiller, Cristina Szanton Blanc, 2020-07-24 Nations Unbound is a pioneering study of an increasing trend in migration transnationalism Immigrants are no longer rooted in one location By building transnational social networks economic alliances and political ideologies they are able to cross the geographic and cultural boundaries of both their countries of origin and of settlement Through ethnographic studies of immigrant populations the authors demonstrate that transnationalism is something other than expanded nationalism By placing immigrants in a limbo between settler and visitor transnationalism challenges the concepts of citizenship and of nationhood itself *The Multisite Nation* Michel S. Laguerre, 2016-06-21 This book explains the transformation of the nation into a cosmonation or multisite nation through the reunification of the homeland with its diaspora The book elaborates on how the mechanisms of linkages connections and networking interact to form distributed sites of homeland and diaspora into a cosmonation and how diasporans in different units of such a crossborder social formation wherever they relocate relate to each other The ensemble thereby functions as a cultural and political collectivity manifested through cultural traditions inter site familial institutional and associational ties transnational solidarity and reverence for the ancestral homeland **Nations and Nationalism** Philip Spencer, Howard Wollman, 2005 Nationalism is a key area of political theory with a huge amount of literature available This text includes both the core texts in this area and a selection of less mainstream pieces with the aim of engaging readers with contemporary debates which have reconfigured understanding of nationalism *Globalisation and the Nation in Imperial Germany* Sebastian Conrad, 2010-09-02 Translation of award winning study of the development of German nationalism in a global context Migration, Identity and Resistance in the Postcolonial Nation-State Sk Sagir Ali, Tanmoy Kundu, Saikat Sarkar, Sanjoy Saren, 2025-02-25 This volume represents a significant contribution to the fields of migration studies postcolonial theory and critical geography It critically engages with the intersections of power space and identity to deepen our understanding of the challenges and possibilities of negotiating citizenship and belonging in an increasingly interconnected and precarious world The book interrogates the construction of nationalist narratives and their role in perpetuating exclusionary paradigms which marginalize certain demographic segments and reinforce hierarchical notions of belonging Further it examines the bio political mechanisms that engender conditions of precarity reshaping conceptions of citizenship and nationhood in response to environmental degradation population control policies and state surveillance The essays in the volume delve into the diverse factors driving displacement encompassing both state driven policies of engineered displacement and environmental factors such as climate change resource depletion and natural disasters They also focus on the marginalized spaces of displacement and explore how these sites become loci of resistance and incubators of alternative forms of belonging Interdisciplinary in its approach and rigorous in its empirical analysis the volume will stimulate further research provoke new questions and inspire transformative interventions in the fields of migration and

diaspora studies literary and cultural studies politics and political processes and sustainability studies **Italy's Many Diasporas** Donna R. Gabaccia, 2013-10-18 Italy's residents are a migratory people. Since 1800 well over 27 million left home but over half also returned home again. As cosmopolitans, exiles, and workers of the world, they transformed their homeland and many of the countries where they worked or settled abroad. But did they form a diaspora? Migrants maintained firm ties to native villages, cities, and families. Few felt much loyalty to a larger nation of Italians. Rather than form a nation unbound, the transnational lives of Italy's migrants kept alive international regional cultures that challenged the hegemony of national states around the world. This ambitious and theoretically innovative overview examines the social, cultural, and economic integration of Italian migrants. It explores their complex yet distinctive identity and their relationship with their homeland, taking a comprehensive approach.

Jewish Bialystok and Its Diaspora Rebecca Kobrin, 2010-05-07 The mass migration of East European Jews and their resettlement in cities throughout Europe, the United States, Argentina, the Middle East, and Australia in the late 19th and early 20th centuries not only transformed the demographic and cultural centers of world Jewry; it also reshaped Jews' understanding and performance of their diasporic identities. Rebecca Kobrin's study of the dispersal of Jews from one city in Poland, Bialystok, demonstrates how the act of migration set in motion a wide range of transformations that led the migrants to imagine themselves as exiles not only from the mythic Land of Israel but most immediately from their east European homeland. Kobrin explores the organizations, institutions, newspapers, and philanthropies that the Bialystokers created around the world and that reshaped their perceptions of exile and diaspora.

The Transnational in Literary Studies Kai Wiegandt, 2020-07-06 This volume clarifies the meanings and applications of the concept of the transnational and identifies areas in which the concept can be particularly useful. The division of the volume into three parts reflects areas which seem particularly amenable to analysis through a transnational lens. The chapters in Part 1 present case studies in which the concept replaces or complements traditionally dominant concepts in literary studies. These chapters demonstrate, for example, why some dramatic texts and performances can better be described as transnational than as postcolonial and how the transnational underlies and complements concepts such as world literature. Part 2 assesses the advantages and limitations of writing literary history with a transnational focus. These chapters illustrate how such a perspective loosens the epistemic stranglehold of national historiographies but they also argue that the transnational and national agendas of literary historiography are frequently entangled. The chapters in Part 3 identify transnational genres such as the transnational historical novel, transnational migrant fiction, and translinguistic theatre and analyse the specific poetics and politics of these genres.

Navigating World History P. Manning, 2003-05-15 World history has expanded dramatically in recent years, primarily as a teaching field and increasingly as a research field. Growing numbers of teachers and Ph.D.s in history are required to teach the subject. They must be current on topics from human evolution to industrial development in Song dynasty China to today's disease patterns and then link these disparate topics into a coherent course. Numerous textbooks in

print and in preparation summarize the field of world history at an introductory level But good teaching also requires advanced training for teachers and access to a stream of new research from scholars trained as world historians In this book Patrick Manning provides the first comprehensive overview of the academic field of world history He reviews patterns of research and debate and proposes guidelines for study by teachers and by researchers in world history

Immigration and the Political Economy of Home Rachel Buff, 2001-03-25 In this unusual juxtaposition of Indians in Minneapolis and Caribbean immigrants in Brooklyn Buff has given us a unique and powerful lens on the nation form and its discontents This is a highly inventive insightful study as keen in its analysis of U S politics and policy as it is alive to the political force of various minority cultural forms Matthew Frye Jacobson Yale University author of *Barbarian Virtues The United States Encounters Foreign Peoples at Home and Abroad 1876-1917*

Black Zion Yvonne Patricia Chireau, Nathaniel Deutsch, 2000 This is an exploration of the interaction between African American religions and Jewish traditions beliefs and spaces The collection's argument is that religion is the missing piece of the cultural jigsaw and black Jewish relations need the religious roots of their problem illuminated

India Abroad Sandhya Shukla, 2021-03-09 India Abroad analyzes the development of Indian diasporas in the United States and England from 1947 the year of Indian independence to the present Across different spheres of culture festivals entrepreneurial enclaves fiction autobiography newspapers music and film migrants have created India as a way to negotiate life in the multicultural United States and Britain Sandhya Shukla considers how Indian diaspora has become a contact zone for various formations of identity and discourses of nation She suggests that carefully reading the production of a diasporic sensibility one that is not simply an outgrowth of the nation state helps us to conceive of multiple imaginaries of America England and India as articulated to one another Both the connections and disconnections among peoples who see themselves as in some way Indian are brought into sharp focus by this comparativist approach This book provides a unique combination of rich ethnographic work and textual readings to illuminate the theoretical concerns central to the growing fields of diaspora studies and transnational cultural studies Shukla argues that the multi-sitedness of diaspora compels a rethinking of time and space in anthropology as well as in other disciplines Necessarily the standpoint of global belonging and citizenship makes the boundaries of the America in American studies a good deal more porous And in dialogue with South Asian studies and Asian American studies this book situates postcolonial Indian subjectivity within migrants transnational recastings of the meanings of race and ethnicity Interweaving conceptual and material understandings of diaspora India Abroad finds that in constructed Indias we can see the contradictions of identity and nation that are central to the globalized condition in which all peoples displaced and otherwise live

Gender, Migration and Social Transformation Tanja Bastia,2019-05-28 Intersectionality can be used to analyse whether migration leads to changes in gender relations This book finds out how migrants from a peri urban neighbourhood on the outskirts of Cochabamba Bolivia make sense of the migration journeys they have undertaken Migration is intrinsically related to social transformation Through life stories and community surveys the author explores how gender class and ethnicity intersect in people s attempts to make the most of the opportunities presented to them in distant labour markets While aiming to improve their economic and material conditions migrants have created a new transnational community that has undergone significant changes in the ways in which gender relations are organised Women went from being mainly housewives to taking on the role of the family s breadwinner in a matter of just one decade This book asks and addresses important questions such as what does this mean for gender equality and women s empowerment Can we talk of migration being emancipatory Does intersectionality shed light in the analysis of everyday social transformations in contexts of transnational migrations This book will be useful to researchers and students of human geography development studies and Latin America area studies Writing Off the Hyphen José L. Torres-Padilla,Carmen Haydée Rivera,2008 The sixteen essays

in Writing Off the Hyphen approach the literature of the Puerto Rican diaspora from current theoretical positions with provocative and insightful results Prominent writers such as Rosario Ferr and Judith Ortiz Cofer are discussed alongside often neglected writers such as Honolulu based Rodney Morales and gay writer Manuel Ramos Otero Jos Torres Padilla is associate professor of English State University of New York at Plattsburgh Carmen Haydee Rivera is associate professor of English University of Puerto Rico New Directions in Transnational Mexican History Matthew D. missionaries and Mexican women soccer players This area of interdisciplinary inquiry has attracted the latest generation of scholars destined to publish their works during the age of globalization These pioneering scholars use transnational approaches to determine if Mexico has emerged as a transmigration and emigration state and if the Mexican people's extraterritorial influence embodied in the terms Greater Mexico and Mexico de Afuera applies to larger swaths of the Americas and the world

The Necessary Nation Gregory Jusdanis, 2011-06-27 In this controversial look at nationalism Gregory Jusdanis offers a sweeping defense of the nation as a protector of cultural difference and a catalyst for modernization Since the end of the Cold War the nation state has undergone intense scrutiny among critics in the media and the academy Many believe that civic nationalism may be fruitful but that cultural nationalism fosters xenophobia and backward thinking Jusdanis however emphasizes the positive collaboration between nation building and culture Through a series of critical readings of multicultural postcolonial and globalization theories the author reveals how nationalism enables people to defend their distinctive ways of life to fight colonial oppression and to build an independent society of citizens He explains why people over the last two hundred years have politicized their ethnic identities and have sought a union of culture and power within an autonomous nation state While seeking to defend nationalism Jusdanis also examines its potential to unleash extraordinary violence into the world He thus proposes federalism as a political solution to the challenges posed by nationalism and globalization Jusdanis applies the tools of disciplines ranging from anthropology to philosophy as he explores the nation building projects of numerous and diverse countries around the world What emerges is a fresh perspective on the subjects of national culture identity political nations globalization postcolonialism and diaspora

Creativity and Captivity Uday Balasundaram, 2021-12-02 Ultimately what really does it mean to be creative How can we see ourselves as participating in the creativity of God for mission All people are creative Sadly however for many creativity is stifled and remains stunted due to several reasons social economic political cultural and even spiritual This study explores how ICMs indigenous cosmopolitan musicians negotiate their creativity amid the liminal spaces they occupy as they share in the creativity of God for mission through their music But what exactly does it mean to share in the creativity of God for mission Contrary to popular notion ICMs evidence that creativity is not merely innovation it is not a psychological metric for measuring human potential it is certainly not the icing on the cake reserved for a few so called creatives or artists Rather theological creativity is participation in the creatio Dei it is theologically prior to mission As a missiological framework creatio Dei is understood here in terms of creative being creative construction design and creative performance Hopefully this book can help clarify and expand our understanding of what it means to be truly creative and thereby with the help of the Creator put into practice principles of theological creativity as we share in the creativity of God in the world with others
