Sifters Theda Perdue, 2001-03-29 In this edited volume Theda Perdue, a nationally known expert on Indian history and southern women's history, offers a rich collection of biographical essays on Native American women. From Pocahontas, a Powhatan woman of the seventeenth century, to Ada Deer, the Menominee woman who headed the Bureau of Indian Affairs in the 1990s, the essays span four centuries. Each one recounts the experiences of women from vastly different cultural traditions: the hunting and gathering of the Kumeyaay culture of Delfina Cuero, the pueblo society of San Ildefonso potter Maria Martinez, and the powerful matrilineal kinship system of Molly Brant's Mohawks. Contributors focus on the ways in which different women have fashioned lives that remain firmly rooted in their identity as Native women. Perdue's introductory essay ties together the themes running through the biographical sketches, including the cultural factors that have shaped the lives of Native women, particularly economic contributions, kinship, and belief, and the ways in which historical events, especially in the United States, Indian policy, have engendered change.

The Role of Women in Native American Societies Kristina Maul, 2007-11 Seminar paper from the year 2000 in the subject American Studies, Culture and Applied Geography, grade 1.7. A Friedrich Alexander University Erlangen Nuremberg, Institute for American Studies, course Native American Indian Stimulations and Philosophies. 32 entries in the bibliography, language English, abstract. When Europeans first set foot on the new continent, they discovered that it had already been settled. At some point, ethnographers became interested in those aboriginal cultures. They intended to cultivate the savages. During those times, hardly anyone was interested, let alone wrote about Native American women and the not unimportant part they played in this unknown culture. If women were mentioned at all, only their duties in the household were described. It is exactly this lack of interest that today makes it hard to get valid information about the life of Native American women at that time. This ignorance caused the white society to form a distorted picture where the role of American Indian women matched the rather passive one white women had in their own society. They did not comprehend the importance the family represented as the central institution of society, nor the part women played outside the family or the freedom they had and the rules they needed to obey. It was only in the 1920s when the image of the vanishing race was created that more material was collected about American Indian women. Stereotypes developed because the information about America's indigenous peoples was presented to us by a third person. This medium described the object of interest in his or her own Eurocentric terms and with a certain intention; in this case, the want for the land the Natives inhabited. Then the information got generalized and eventually produced an image that mostly had nothing to do with the
