The Revolution Will Be Hilarious Caty Borum, 2023-02-28 An insider's look at the power of comedy to effect social change. From Trevor Noah's The Daily Show and Hasan Minhaj's Patriot Act to Issa Rae's Insecure and Corey Ryan Forrester's Twitter feed, today's multi platform comedy refuses to shy away from the social issues that define our time. As more comedians lean into social justice activism, they help reshape the entertainment industry and offer creative dynamic avenues for social change. The Revolution Will Be Hilarious offers a compelling insider's look at how comedy and social justice activists are working together in a revolutionary media moment. Caty Borum invites readers into an expanding enterprising arena of participatory culture and politics through in depth interviews with comedians, social justice leaders and Hollywood players. Their insights shed light on questions such as: What role does comedy play in helping communities engage the public with challenging social issues? How do social justice organizations and comedians co create entertaining comedy designed to build the civic power of marginalized groups? And how are entertainment industry leaders working with social justice organizations to launch new comedy as both entertainment and inspiration for social change? Through this exploration, Borum argues that building creative power is crucial for marginalized groups to build civic power. The Revolution Will Be Hilarious positions the rise of social justice comedy as creative disruptive storytelling that hilariously invites us to agitate the status quo and re imagine social realities to come closer to the promise of equity and justice in America.

Native Americans in British Museums Jack Davy, 2021-07-22 The accumulated collections of Native American material culture in museums in Britain are vast and of critical cultural importance. Drawing on interviews with Indigenous American visitors to UK museum displays and collections between 2017 and 2019, this Element highlights the most significant inadequacies of contemporary engagement with Native American visitors and communities, identifying fundamental problems rooted in the ethos of collection management and display. It then explores why two critical crises, one of representation and one of expertise, are together exacerbating these problems and the damage to relationships and reputation which can result when these crises

collide with Indigenous demands for greater agency in museum processes The final section applies these lessons directly developing an adaptable policy document to assist museum staff in effectively and respectfully managing their relationships with Indigenous communities and collections
