Smith, 2005 Japan Nancy K. Stalker, 2018-08-14 Japan History and Culture from Classical to Cool provides a historical account of Japan s elite and popular cultures from premodern to modern periods Drawing on the most up to date scholarship across numerous disciplines Nancy K Stalker presents the key historical themes cultural trends and religious developments throughout Japanese history Focusing on everyday life and ordinary consumption this is the first textbook of its kind to explore both imperial and colonial culture and offer expanded content on issues pertaining to gender and sexuality Organized into fourteen chronological and thematic chapters this text explores some of the most notable and engaging aspects of Japanese life and is well suited for undergraduate classroom use Japanese Science Samuel Coleman, 1999 This new ethnographic study of Japan s scientists looks firsthand at the career structures and organizational issues that have hampered their advancement It demonstrates the importance of moribund policy decisions in holding back research

Local Realities and Environmental Changes in the History of East Asia Ts'ui-Jung Liu, 2015-09-16 Environmental history has evolved into a well established historical subfield which has broadened the horizons of historical research beyond human affairs to include the study of human interactions with natural and man made environments This broadened scope has attracted scholars from many different fields a development which is reflected by this volume as it highlights the recent studies on East Asian environmental history by scholars of History Economic History Political ecology Sociology and Environmental Studies This book examines the local realities and environmental changes in East Asia and is one of a few publications in English on the subject Contributors apply rich historical material maps and statistical data to reveal the local environmental realities infused by global perspectives Part I deals with attitude toward nature focusing on the soundscape conceived by traditional Chinese literati and on industrious revolution in Tokugawa Japan Part II includes four case studies which respectively discuss the hydraulic management and political ecology in the Yongle reign 1403 1424 the Woosung Bar controversy in the 1870s the expansion of Daihaizi Reservoir in Xinjiang in the 1950s and interactions between the indigenous communities and NGOs in Hualien Taiwan Part III presents case studies of Japan dealing with natural disasters volcano eruption floods and the human actions around Tokyo since the eighteenth century These chapters and the insights they offer provide the reader with the most recent research on East Asian environmental history Covering the geographical areas of Japan North and Northwest China the Lower Yangzi Delta and Taiwan and the timeframe spanning the seventh century BC to the present day the book will be of great interest to anyone studying the history of East Asia environmental history or environmental studies The Origins of Japanese Trade Supremacy Christopher Howe, 1999-12-15 For many in

the West the emergence of Japan as an economic superpower has been as surprising as it has been sudden After its defeat in World War II Japan hardly appeared a candidate to lead industrialized nations in productivity and technological innovation and the Japanese miracle is often explained as the result of U S aid and protection in the postwar years In The Origins of Japanese Trade Supremacy Christopher Howe locates the sources of Japan's current commercial and financial strength in events that occurred well before 1945 In this revisionist account Howe traces the history of Japanese trade over four centuries to show that the Japanese mastery of trade with the outside world began as long ago as the sixteenth century with Japan's first contact with European trading partners Although profitable this early contact was so destabilizing that the Japanese leadership soon restricted foreign trade mainly to Asian partners From the early seventeenth to the middle of the nineteenth centuries Japan developed in relative isolation Though secluded from the scientific and economic revolutions in the West Japan proved adept at finding novel solutions to its own problems and its economy grew in size diversity and technological and institutional sophistication By the nineteenth century when contacts with the West were reestablished Japan had developed a remarkable capacity to absorb foreign technologies and to adapt and create new institutions while retaining significant elements of its traditional system of values Most importantly Japan's long standing reliance on its own ingenuity to solve problems continued to flourish This tradition born of necessity is the most important foundation for Japan s current position as a world economic power *Toxic Archipelago* Brett L. Walker, 2011-07-01 Every person on the planet is entangled in a web of ecological relationships that link farms and factories with human consumers Our lives depend on these relationships and are imperiled by them as well Nowhere is this truer than on the Japanese archipelago During the nineteenth century Japan saw the rise of Homo sapiens industrialis a new breed of human transformed by an engineered industrialized and poisonous environment Toxins moved freely from mines factory sites and rice paddies into human bodies Toxic Archipelago explores how toxic pollution works its way into porous human bodies and brings unimaginable pain to some of them Brett Walker examines startling case studies of industrial toxins that know no boundaries deaths from insecticide contaminations poisonings from copper zinc and lead mining congenital deformities from methylmercury factory effluents and lung diseases from sulfur dioxide and asbestos This powerful probing book demonstrates how the Japanese archipelago has become industrialized over the last two hundred years and how people and the environment have suffered as Japanese Civilization S. N. Eisenstadt, 1996 One of the world's leading social theorists provides a a consequence monumental synthesis of Japanese history religion culture and social organization Equipped with a thorough command of the subject S N Eisenstadt focuses on the non ideological character of Japanese civilization as well as its infinite capacity to recreate community through an ongoing past Averting a Great Divergence Peer Vries, 2019-08-08 The most significant debate in global economic history over the past twenty years has dealt with the Great Divergence the economic gap between different parts of the world Thus far this debate has focused on China India and north western Europe particularly Great

Britain This book shifts the focus to ask how Japan became the only non western county that managed at least partially to modernize its economy and start to industrialize in the 19th century Using a range of empirical data Peer Vries analyses the role of the state in Japan's economic growth from the Meiji Restoration to World War II and asks whether Japan's economic success can be attributed to the rise of state power Asserting that the state s involvement was fundamental in Japan s economic catching up he demonstrates how this was built on legacies from the previous Tokugawa period In this book Vries deepens our understanding of the Great Divergence in global history by re examining how Japan developed and modernized Global Markets Transformed Steven C. Topik, Steven Topik, Allen Wells, 2014-04-21 Transformations against the odds The sinews of trade Commodity chains **Vernacular Industrialism in China** Eugenia Lean, 2020-03-17 In early twentieth century China Chen Diexian 1879 1940 was a maverick entrepreneur at once a prolific man of letters and captain of industry a magazine editor and cosmetics magnate He tinkered with chemistry in his private studio used local cuttlefish to source magnesium carbonate and published manufacturing tips in how to columns In a rapidly changing society Chen copied foreign technologies and translated manufacturing processes from abroad to produce adaptations of global commodities that bested foreign brands Engaging in the worlds of journalism industry and commerce he drew on literati practices associated with late imperial elites but deployed them in novel ways within a culture of educated tinkering that generated industrial innovation Through the lens of Chen's career Eugenia Lean explores how unlikely individuals devised unconventional homegrown approaches to industry and science in early twentieth century China She contends that Chen's activities exemplify vernacular industrialism the pursuit of industry and science outside of conventional venues often involving ad hoc forms of knowledge and material work Lean shows how vernacular industrialists accessed worldwide circuits of law and science and experimented with local and global processes of manufacturing to navigate innovate and compete in global capitalism In doing so they presaged the approach that has helped fuel China's economic ascent in the twenty first century Rather than conventional narratives that depict China as belatedly borrowing from Western technology Vernacular Industrialism in China offers a new understanding of industrialization going beyond material factors to show the central role of culture and knowledge production in technological and industrial change Foundations of Modern Slavery Caf Dowlah, 2021-07-29 This is an academic inquiry into how labor power has been dehumanized and commodified around the world through the ages for capital accumulation and industrialization and colonial and post colonial economic transformation. The study explores all major episodes of slaveries beginning from the ancient civilizations to the end of Transatlantic Slave Trade in the eighteenth century the worlds of serfdoms in the context of Western Europe Eastern Europe and Russia the worlds of feudalisms in the context of Latin America Japan China and India the worlds of indentured servitudes in the context of the Europeans the Indians and the Chinese the worlds of questworkers in the contexts of the United States and Western Europe the worlds of migrant labor programs in the context of the Gulf States and the contemporary world of neoslavery focusing on

human trafficking in both developing and developed countries and forced labor in global value chains The book is designed not only for students and academia in labor economics labor history and global socio economic and political transformations but also for the intelligent and inquiring policy makers reformers and general readers across the disciplinary pursuits of Economics Political Science History Sociology Anthropology and Law Garden of the World Cecilia M. Tsu, 2013-06-01 Nearly a century before it became known as Silicon Valley the Santa Clara Valley was world renowned for something else the succulent fruits and vegetables grown in its fertile soil In Garden of the World Cecilia Tsu tells the overlooked intertwined histories of the Santa Clara Valley's agricultural past and the Asian immigrants who cultivated the land during the region's peak decades of horticultural production Weaving together the story of three overlapping waves of Asian migration from China Japan and the Philippines in the nineteenth and twentieth centuries Tsu offers a comparative history that sheds light on the ways in which Asian farmers and laborers fundamentally altered the agricultural economy and landscape of the Santa Clara Valley as well as white residents ideas about race gender and what it meant to be an American family farmer At the heart of American racial and national identity in the nineteenth and twentieth centuries was the family farm ideal the celebration of white European American families operating independent self sufficient farms that would contribute to the stability of the nation In California by the 1880s boosters promoted orchard fruit growing as one of the most idyllic incarnations of the family farm ideal and the lush Santa Clara Valley the finest location to live out this agrarian dream But in practice many white growers relied extensively on hired help which in the late nineteenth and early twentieth centuries was largely Asian Detailing how white farmers made racial and gendered claims to defend their dependence on nonwhite labor how those claims shifted with the settlement of each Asian immigrant group and how Chinese Japanese and Filipinos sought to create their own version of the American dream in farming Tsu excavates the social and economic history of agriculture in this famed rural community to reveal the intricate nature of race relations there *Iapanese Industrial History* Carl Mosk, 2016-09-16 A detailed examination of the industrial development of Japan since the Meiji Restoration Mooring the Global Archive Martin Dusinberre, 2023-10-05 Martin Dusinberre follows the Yamashiro maru steamship across Asian and Pacific waters in an innovative history of Japan's engagement with the outside world in the late nineteenth century This compelling in depth analysis reconstructs the lives of some of the thousands of male and female migrants who left Japan for work in Hawai i Southeast Asia and Australia These stories bring together transpacific historiographies of settler colonialism labour history and resource extraction in new ways Drawing on an unconventional and deeply material archive from gravestones to government files paintings to song and from digitized records to the very earth itself Dusinberre addresses key questions of method and authorial positionality in the writing of global history This engaging investigation into archival practice asks what is the global archive where is it cited and who are we as we cite it This title is also available as Open Access Constructing Subjectivities Noboru Tomonari, 2008-01-01 Constructing Subjectivities discusses some of the major

autobiographies that appeared in nineteenth and twentieth century Japan Tomonari connects their emergence to the social transformation taking place at the time the modernization and industrialization of Japan Focusing on particular groups such as wealthy peasants newly emerging businessmen social activists and feminist intellectuals Tomonari positions the autobiographies as part of the social reform their authors were trying to carry out Japanese Capitalism and Entrepreneurship Pierre-Yves Donzé, Julia S. Yongue, 2024-05-27 From being the last country in the world to open its doors to global trade in the 1850s to becoming the second industrialized nation in the 1960s Japan has experienced impressive economic and social development over the last two centuries In the last three decades however it became entrenched in a long phase of economic stagnation dropping from second to third place in the global economy having been overtaken by China in 2010 Inspired by the recent works on the history of capitalism this history of business shows that the Japanese company was not the product of a unique national culture Japanese capitalism was largely shaped by a political economic and institutional environment which offered a variety of new opportunities to entrepreneurs who also played a central role in the process of change Rural capitalism that formed during the period of national seclusion shifted to industrial capitalism after the opening of the nation to global trade this form of capitalism was close to those observed in other late industrializing countries and was characterized by the monopolistic domination of large business groups or zaibatsu during the interwar years The Second World War saw the emergence of wartime capitalism with the central government as the dominant actor in the economy and after 1945 the need to reconstruct the country and catch up with advanced Western economies gave birth to a new form of capitalism based on a cooperative relationship between business and the state communitarian capitalism more broadly known as the Japanese Business System The liberalization and deregulation brought new changes in the business system marked by the emergence of financial capitalism in the 1980s and 1990s **History of Humanity** UNESCO,2005-12-31 Volume V of the History of Humanity is concerned with the early modern period the sixteenth seventeenth and eighteenth centuries It gives an extensive overview of this crucial stage in the rise of the West as well as examining the development of cultures and societies elsewhere Structure The volume is divided into two main parts The first is thematic discussing the geography chronology and sociology of cultural change in this period The second is regional less theoretical and more empirical it stresses cultural diversity the links between different activities in a given region and the importance of social contexts and local circumstances Each chapter has a bibliography which directs the reader to sources of further information The volume is extensively illustrated with line drawings and plates and is comprehensively indexed

The Japanese Enterprise System W. Mark Fruin,1992 This volume merges four streams of inquiry and interpretation in a study of the evolution and emergence of Japan's leading industrial firms during the twentieth century First it is a historical study of how the industrial institutions of modern Japan appeared and matured Second it is anorganization study of the basic forms of social and economic interaction in Japan Third it is a development study of how circumstances of rapid

technical and economic change have shaped the Japanese business system It is also a strategy study of how Japanese managers have responded to and shaped these circumstances. This fourfold synthesis offers a model of institutional development under conditions of late economic development and private initiative that falls somewhere between a capitalist development state and a free market economy. Business policy rather than industrial policy is accentuated revealing aset of robust institutions and a dynamic to activate and interrelate them **Japan's Politics and Economy** Marie Söderberg, Patricia Nelson, 2009-12-16. This book focuses on the processes of change taking place in Japan's politics and economy. The contributors look at a number of different areas including political leadership the defence industry security and diplomatic policy peace building official development assistance the economic and business areas and education policy
