Source Book of American Architecture George Everard Kidder Smith, 1996 Scorched Earth is the first book to chronicle the effects of chemical warfare on the Vietnamese people and their environment where even today more than 3 million people including 500 000 children are sick and dying from birth defects cancer and other illnesses that can be directly traced to Agent Orange dioxin exposure Weaving first person accounts with original research Vietnam War scholar Fred A Wilcox examines long term consequences for future generations laying bare the ongoing monumental tragedy in Vietnam and calls for the United States government to finally admit its role in chemical warfare in Vietnam Wilcox also warns readers that unless we stop poisoning

our air food and water supplies the cancer epidemic in the United States and other countries will only worsen and he urgently demands the chemical manufacturers of Agent Orange to compensate the victims of their greed and to stop using the Earth's rivers lakes and oceans as toxic waste dumps Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical Scorched Earth will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy Native American Log Cabins in the Southeast Gregory A. Waselkov, 2024-01-12

Southeastern Native American forms of domestic architecture underwent multiple transitions between the mid eighteenth to early nineteenth centuries In Native American Log Cabins in the Southeast Gregory A Waselkov and ten colleagues track the origins of Native American cabins structures that incorporated a range of features borrowed from indigenous post in ground building traditions Euroamerican horizontal notched log construction and elements introduced by Africans and African Americans Grounded in archaeological investigation their essays illuminate the distinctive cabin forms developed by various southeastern Native groups including the Cherokee Creek Choctaw and Catawba peoples In a rapidly changing social economic and political landscape at the frontiers of an expansionist United States the log cabin a northern European house form proved equally adaptable to the needs of settlers slaves and Native peoples Each found ways to make log cabins their own Beneath these deceptively simple hewn facades indigenous principles of correctness guided southeastern Indians uses of interior cabin space creations of raised clay hearths and maintenance of pits that gave occupants access to the regenerative properties of the Beneath World The chapters in this volume make important contributions toward a better understanding of houses and households in the Native Southeast by marshalling new data methods and theory to address an important but understudied phenomenon **Puerto Rico's Henry Klumb** Cesar Cruz, 2020-03-27 This book follows Henry Klumb's life in architecture from Cologne Germany to Puerto Rico Arriving on the island Klumb was a one time German immigrant a moderately successful designer and previously a senior draftsman with Frank Lloyd Wright Over the next forty years Klumb would emerge as Puerto Rico's most prolific locally well known and celebrated modern architect In addition to becoming a leading figure in Latin American modern architecture Klumb also became one of Frank Lloyd Wright's most accomplished protégés and an architect with a highly attuned social and environmental consciousness Cruz explores his life works and legacy through the lens of a sense of place defined as the beliefs that people adopt actions undertaken and feelings developed towards specific locations and spaces He argues that the architect's sense of place was a defining quality of his life and work most evident in the houses he designed and built in Puerto Rico Puerto Rico's Henry Klumb offers a historical narrative culminating in a series of architectural analyses focusing on four key design strategies employed in Klumb's work vernacular architecture the grid and the landscape dense urban spaces and open air rooms This book is aimed at researchers academics and postgraduate students interested in Latin American architecture modernism and architectural history

Encyclopedia of Native American Tribes Carl Waldman, 2014-05-14 A comprehensive illustrated encyclopedia which provides information on over 150 native tribes of North America including prehistoric peoples *A World History of Architecture* Marian Moffett, Michael W. Fazio, Lawrence Wodehouse, 2003 The Roman architect and engineer Vitruvius declared firmitas utilitas and venustas firmness commodity and delight to be the three essential attributes of architecture These qualities are brilliantly explored in this book which uniquely comprises both a detailed survey of Western architecture including Pre Columbian America and an introduction to architecture from the Middle East India Russia China and Japan The text encourages readers to examine closely the pragmatic innovative and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers Artistic economic environmental political social and technological contexts are discussed so as to determine the extent to which buildings met the needs of clients society at large and future generations The Diné Hogan Lillian Makeda, 2024-06-28 Over the course of their history the Navajo Din have constructed many types of architecture but during the 20th century one building emerged to become a powerful and inspiring symbol of tribal culture This book describes the rise of the octagonal stacked log hogan as the most important architectural form among the Din The Navajo Nation is the largest Indian reservation in the United States and encompasses territory from within Arizona New Mexico and Utah where thousands of Native American homes called hogans dot the landscape Almost all of these buildings are octagonal Whether built from plywood nailed onto a wood frame or with other kinds of timber construction octagonal hogans derive from the stacked log hogan a form which came to prominence around the middle of the last century The stacked log hogan has also influenced public architecture and virtually every Din community on the reservation has a school senior center office building or community center that intentionally evokes it Although the octagon recurs as a theme across the Navajo reservation the inventiveness of vernacular builders and professional architects alike has produced a wide range of octagonally inspired architecture Previous publications about Navajo material culture have emphasized weaving and metalwork overlooking the importance of the tribe s built environment But populated by an array of octagonal public buildings and by the hogan one of the few Indigenous dwellings still in use during the 21st century the Navajo Nation maintains a deep connection with tradition This book describes how the hogan has remained at the center of Din society and become the basis for the most distinctive Native American landscape in the United States The Din Hogan A Modern History will appeal to scholarly and educated readers interested in Native American history and American architecture It is also well suited to a broad selection of college courses in American studies cultural geography Native American art and Native American architecture
