Natos Strategic Options Arms Control And Defense:

NATO's Strategic Options David Scott Yost,1981 Forfattere Kenneth Adelman Richard Burt Thomas A Callaghan Samuel T Cohen Joseph D Douglass William R Graham John G Keliher Uwe Nerlich Robin Ranger John P Rose Robert Strausz Hup Peter H Vigor Seymour Weiss og David S Yost *Strategic Review* ,1978 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States North Atlantic Treaty Organization Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed **The Friday Review of Defense Literature** ,1983 **Air University Review** ,1982-07 Chemical Warfare Edward M. Spiers,2016-04-30 Ever since its employment in the First World War chemical warfare has always aroused controversy Governments have responded by pursuing the policies of disarmament and deterrence in the hope of avoiding its recurrence However despite the signing of the Geneva Protocol in 1925 which banned the use of poison gas chemical weapons have been used in subsequent conflicts and most recently in the Gulf War between Iraq and Iran In this work the policies of disarmament and deterrence will be reassessed within a broad historical and strategic context It will be argued that poison gas could still be used in a modern European conflict that the Soviet forces are the best equipped to operate in a contaminated environment and that weaknesses persist in NATO s anti chemical defences and in her deterrent It will be emphasised too that the Geneva disarmament talks which have made some progress in recent years still face formidable difficulties over the issues of verification and compliance Above all it will be claimed that the onset of nuclear parity between the superpowers has eroded the credibility of a deterrent to chemical attack based upon the threat of nuclear release Accordingly this book will contend that the United States should modernize her stockpile of chemical weapons to bolster the Western deterrent and to provide more leverage for the negotiations in Geneva *Strategic Nuclear Weapons, Arms Control, and the NATO Alliance* Gil Klinger,Rand Corporation,1985 Special Bibliography Series United States Air Force Academy. Library,1989 **NATO at 40 years : a critical assessment.** ,1989 **Rethinking national security** Frances Scott,1990 **The Star Wars Controversy** Steven E. Miller,Stephen Van Evera,2014-07-14 These essays from the journal *International Security* assess the technical feasibility and the strategic desirability of defense against ballistic missiles Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **NATO at 40 Years** ,1989 *U.S. Nuclear Forces and Arms Control Policy* United States. Congress. House. Committee

on Armed Services. Defense Policy Panel,1987 **Special Bibliography Series** ,1957 **The Tenuous Balance** James M Garrett,2019-06-12 The instigation for this book was the author s doubt that the political and military confrontation in Central Europe would remain stable in a serious crisis Uncertainty of success may deter Soviet risk taking forty nine years out of fifty but not in that fiftieth year if Soviet leaders should face an apparent threat to their continued hegemony in

The Federal Republic Of Germany And The United States James A Cooney,Gordon Craig,Hans-Peter Schwarz,Fritz Stern,2019-07-11 This book examines the current and historical dimensions of relations between the United States and the Federal Republic of Germany focusing on the complex economic issues that make the two countries interdependent and on the resulting policy implications The contributors analyze the reasons for increasingly problematic relations between the United States and West Germany arguing that the situation is exacerbated by the inadequate understanding Americans often have of the changing nature of society politics and culture in West Germany **The Strategic Defense Initiative** Ralph L. Dietl,2018-08-15 The Nuclear and Space Talks revolutionized arms control The Cold War endgame commenced with the umbrella negotiations that linked START and INF negotiations to a regulation on the weaponization of space This volume reveals a US grand strategy to replace deterrence with a collective security order An entente of the superpowers was needed to transform bipolarity The US planned the replacement of mutually assured destruction by mutually assured security A global astrodome was to protect a nuclear disarmed world The Franco German special relationship in European affairs had to be amended by a US SU special relationship to replace classic bloc politics The Reagan Administration planned a global zero agenda a joint development of a global protective system and a creation of a Common House of Europe In brief the superpowers prepared the velvet revolution that eliminated the Cold War structures Neither containment nor convergence offers a valid explanation of the Cold War endgame Co creation is the key to decipher the end of the Cold War NATO Europe challenged the transformation of bipolarity The European NWS resisted to a multilateralization of strategic arms control In Europe the classic Cold War thinking survived the fall of the Iron Curtain European conservatism contributed to the geopolitical catastrophe of the first order the downfall of the Soviet Union The Reagan Administration developed a Grand Strategy to end the Cold War The US SU co creation of an astrodome was meant to ease a global zero agenda A global collective security structure under the United Nations was to replace deterrence The superpower project collapsed due to the penetration of US decision making by NATO Allies The European NWS totally objected to a multilateralization of strategic arms control to preserve their relative position in the international system *Defense* ,1988 **Conventional Arms Control and East-West Security** Institute for East-West Security Studies,1989 This important and timely work prepared by the leading researchers planners and policymakers from both Eastern and Western alliances analyzes the major issues in the Vienna talks on conventional forces in Europe involving NATO and Warsaw Pact nations It is likely to have a significant influence on the course of these negotiations and on emerging debate on conventional arms control The

contributors met in Moscow prior to the Vienna conference to review and compare their analyses and revised them thereafter for publication in this work **NATO in the Fifth Decade** Keith A. Dunn, Stephen J. Flanagan, 1992-05
