The Craft of Political Research W. Phillips Shively,2017-06-14 The Craft of Political Research is a non technical introduction to research design and analysis in political science emphasizing the choices we make when we design a research project and analyze its results The book s approach centers on asking an interesting research question and then designing inquiry into the question so as to eliminate as many alternative explanations as possible How do we develop theory and what constitutes a good research question How do we develop measures and gather evidence to answer a question How do we analyze our findings Students will be introduced to such topics as

multidimensional concepts levels of measurement validity reliability random and non random measurement error sampling case selection causality experimental and quasi experimental design statistical inference and regression and correlation analysis Throughout the emphasis is on understanding the back story of analysis why do we measure in a particular way why do we choose one design as against another why do we conduct our analysis as we do Emphasizing the internal logic of research methods and the collaborative nature of the research process the greatest strength of the book is its clarity and the large range of political science examples it provides It works at a conceptual level seeking an understanding of the principles that underlie techniques and the reasons that we choose them New to this edition Updated and international examples from the US UK Latin America and China amongst others and international organizations such as the World Bank and the United Nations New section Reading Political Science reviews sources of published political research with some broad principles for how to find good sources and advises students on what to look for in reading a research report New section Gathering Accurate Information reviews published sources of data such as UNESCO and offers advice about how to use such sources It advises students on how to gather data in personal interviews and it acquaints them with publicly available data sets for secondary analysis Online material featuring revised learning objectives for each chapter and a new section offering projects and questions for each chapter

Bee Craft, 1927 *Novel Craft* Talia Schaffer, 2011-01-15 *Novel Craft* explores an intriguing and under studied aspect of cultural life in Victorian England domestic handicrafts the decorative pursuit that predated the Arts and Crafts movement Talia Schaffer argues that the handicraft movement served as a way to critique the modern mass produced commodity and the rapidly emerging industrial capitalism of the nineteenth century Her argument is illustrated with the four pivotal novels that form her study's core Gaskell's *Cranford* Yonge's *The Daisy Chain* Dickens's *Our Mutual Friend* and Oliphant's *Phoebe Junior* Each features various handicrafts that subtly aim to subvert the socioeconomic changes being wrought by industrialization Schaffer goes beyond straightforward textual analysis by shaping each chapter around the individual craft at the center of each novel paper for *Cranford* flowers and related arts in *The Daisy Chain* rubbish and salvage in *Our Mutual Friend* and the contrasting ethos of arts and crafts connoisseurship in *Phoebe Junior* The domestic handicraft also allows for self referential analysis of the text itself in scenes of craft production and destruction the authors articulate the work they hope their own fictions perform The handicraft also becomes a locus for critiquing contemporary aesthetic trends with the novels putting forward an alternative vision of making value and understanding art A work that combines cultural history and literary studies *Novel Craft* highlights how attention to the handicraft movement's radically alternative views of materiality consumption production representation and subjectivity provides a fresh perspective on the major changes that shaped the Victorian novel as a whole
