New Colleges For New Students The Jossey Bass Series In Higher Education:

Higher Education in the United States James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education Higher Education in the United States provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis

Collaborative Thinking Sarah K.A. Pfatteicher, 2025-09-02 A blueprint for what is possible when higher education institutions embrace collaboration over competition In Collaborative Thinking Sarah K A Pfatteicher offers an insightful guide to the transformative potential of consortial thinking in higher education With extensive experience leading one of the largest and oldest higher education consortia Pfatteicher presents a framework for fostering collaboration that transcends the competitive mindset dominating many campuses today The book examines how consortial partnerships whether sharing academic resources administrative functions or cultural programs can amplify institutional strengths promote cost efficiencies and tackle enormous societal challenges like climate change and social inequality Combining real world examples with practical guidance Pfatteicher explores the structures funding models and leadership strategies that drive successful collaboration She emphasizes the skills and motivations needed to create and sustain these partnerships from building trust and shared purpose to committing resources and adapting to evolving needs The book also offers cautionary tales of attempted collaborations gone awry and how to avoid such missteps Collaborative Thinking provides a blueprint for creating effective consortia and also demonstrates how the principles of collaborative leadership can strengthen stand alone campuses In an era of rising costs demographic shifts and global challenges this book makes a compelling case for the power of working together to reimagine the future of higher education
