New Creation A Liturgical Worldview:

New Creation Frank C. Senn, Although the twentieth century has witnessed a thorough liturgical revival and renewal the last ten years have exploded in diverse and conflicting styles settings and even media of corporate worship traditional high church liturgies alternative worship for small communities women church services seeker services at megachurches and more Does this innovation portend a brave new liturgical world or is it just dumbing down For example do megachurch services simply revive the old frontier revival and in an effort to reach out accommodate Christianity to the reigning consumer culture One of today s most knowledgeable liturgical theologians and historians contemplates the future shape of liturgy He believes that ritual systems liturgy express and inculcate a worldview an implicit theology and he fears lest the community of faith gain the whole world and lose its soul New Creation proposes the lines of a Christian culture or worldview or way of life that can inform liturgical renewal Twelve erudite and earnest chapters further specify this counter cultural matrix as it pertains to God Christ church creation world worship hospitality culture evangelism prayer and life itself

Worldview David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

The Theater of God's Glory W. David O. Taylor, 2017 A theological framework for the liturgical arts rooted in John Calvin Both detractors and supporters of John Calvin have deemed him an enemy of the physical body a pessimist toward creation and a negative influence on the liturgical arts But says W David O Taylor that only tells half of the story Taylor examines Calvin s trinitarian theology as it intersects his doctrine of the physical creation in order to argue for a positive theological account of the liturgical arts He does so believing that Calvin s theology can serve perhaps surprisingly as a rich resource for understanding the theological purposes of the arts in corporate worship Drawing on Calvin s Institutes biblical commentaries sermons catechisms treatises and worship orders this book represents one of the most thorough investigations available of John Calvin s theology of the physical creation and the promising possibilities it opens up for the formative role of the arts in worship

Liturgical Theology Simon Chan, 2009-09-20 Bad worship produces bad theology and bad theology produces an unhealthy church In Liturgical Theology Simon Chan issues a call to evangelicals to develop a mature theology of the church an ecclesiology that is grounded in the church s identity as a worshiping community

Evangelicals he argues are confused about the meaning and purpose of the church in part because they have an inadequate understanding of Christian worship As a remedy for this ailment Chan presents a coherent theology of the church that pays particular attention to the liturgical practices that have constituted Christian worship throughout the centuries With a seasoned eye and steady hand he guides the reader through these practices and unpacks their significance for theology spirituality and the renewal of evangelicalism in the postmodern era Chan s proposal advances the conversation among evangelicals regarding the relationship between theology and worship In contrast to some theologians who have tended to emphasize a sociological analysis Chan argues that we need to consider what is essential to the church s theological identity Drawing on the larger Christian tradition Chan argues that we discover that identity primarily in the structure and significance of Christian worship

Reading Religious Ritual with Ricoeur Christina M. Gschwandtner, 2021-08-20

Reading Religious Ritual with Ricoeur Between Fragility and Hope creates a dialogue between Ricoeur s hermeneutic philosophy and the interpretation of human ritual practices especially as such practices are manifested within the context of Christian liturgy In the first part of the book Christina M Gschwandtner shows that Ricoeur s account of religion would be deepened if it were to take into account not only the biblical texts but also forms of liturgical expression and ritual actions She challenges Ricoeur s early reading of the symbol and second na vet broadens his interpretation of biblical texts and faith to consider religious actions more fully and suggests that ritual can enhance human capacities The second part of the book employs Ricoeur s hermeneutics in order to shed light on the analysis of liturgy demonstrating that his accounts of truth of the world of the text of religious language of the imagination and of the formation of identity are all eminently applicable to liturgical experience Reading Religious Ritual with Ricoeur shows that one of the most significant themes in Ricoeur s work the tension between fragility and hope is especially helpful for understanding what liturgy does and how it functions Seeing how liturgy and ritual configure fragility and hope also enriches Ricoeur s account of the role and function of religion in human experience
