New Directions in Copyright Law Fiona Macmillan, Kathy Bowrey, 2006-08-29 This book the third in the series follows the themes considered in the first two volumes and brings together perspectives on copyright from law politics economics cultural studies and social theory in an effort to forge a truly coherent and meaningful agenda for the future of copyright It comprises thoughtful critical and often challenging contributions from an international multidisciplinary network of scholars

New Directions in Sustainable Design Adrian Parr, Michael Zaretsky, 2010-10-09 Recently there has been a plethora of work published on the topic of sustainability much of which is purely theoretical or technical in its approach More often than not these books fail to introduce readers to the larger challenge of what thinking sustainably might entail Combining a series of well known authors in contemporary philosophy with established practitioners of sustainable design this book develops a coherent theoretical framework for how theories of sustainability might engage with the growing practice of design This book brings together new and emerging perspectives on sustainability provides cohesive and jargon free reading articulates the specificity of both theory and practice to develop a symbiotic relationship which allows the reader to understand what thinking sustainably entails This volume describes a variety of new ways to approach sustainable design and it equips the next generation of designers with necessary conceptual tools for thinking sustainably Australia Harry

Margalit, 2019-11-15 This book tells the story of the architects and buildings that have defined Australia's architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes Shifting Views Andrew Leach, Antony Moulis, Nicole Sully, 2008 Shifting Views draws together a selection of writing from across twenty five years of these

conferences to provide a fascinating view into the region's architectural history discipline. The essays collected here from such diverse thinkers as Judith Brine, Joan Kerr, Miles Lewis, Sarah Treadwell, Philip Goad, Julie Willis, and Mike Austin reflect some of the most illuminating debates from these conferences. Together, these essays capture a tone of critical inquiry and the conditions of writing architectural history in Australia and New Zealand. *Shifting Views* takes us into the mechanics of architectural history, making, exposing its foundations, and demonstrating how they can be called to account. It shows us how architectural history has been made and revised, giving us a glimpse of the means by which our past becomes our history.

BOOK JACKET New Directions in Contemporary Architecture Luigi Prestinenza Puglisi, 2008-05-05. Rem Koolhaas has defined architecture as a chaotic adventure. Nothing could be more true than that of the last two decades. Never has architecture been so unbridled and so extraordinary; the architectural cast has never been so wide and their works so diverse. What though if you are new to the subject? How is it possible to make sense of this seemingly unruly architectural landscape? There are so many different types of architecture, so many designers with such varying and even contradictory approaches. This book is a much-needed navigation guide for anyone interested in modern architecture. Organised chronologically, it enables you to find your way through one of the most prolific periods of building design. It looks at buildings in often contrasting styles that have been built almost simultaneously across the world, with their roots in very different tendencies and schools of thought. A loose but effective framework is provided which pulls all these multiple threads together, while key buildings are described individually with a unique clarity and precision. Aaron Betsky, Director of Cincinnati Art Museum. Comprehensive, coherent, and cogent, Puglisi's book sorts out the messy history of the last quarter century of the world's best architecture. Professor Iain Borden, Head, Bartlett School of Architecture, UCL. Illuminating and insightful, a must-have read for students. Hans Ibelings, Editor of *A10* new European architecture. Lucid and concise. Charles Jencks, Architecture Critic and Author. A compelling comprehensive overview of the avant-garde since 1988 as it oscillates in and out of the global star system. Bill Menking, Editor of *The Architect's Newspaper*. This is the first clear and systematic study of the culture of architecture from the reds of deconstruction to the sustainable greens.

Summerson and Hitchcock Frank E. Salmon, 2006. Publisher description: *John Dalton*. Elizabeth Musgrave, 2023-08-10. This book addresses the work of architect John Dalton, 1927-2007, an important voice in mid-century modernism in Australia whose work, despite his being exhibited and published internationally and also winning several awards for his designs, is woefully little known. Published as part of the Bloomsbury Studies in Modern Architecture series, which brings to light the work of significant yet overlooked modernist architects, the book draws on previously unpublished archival documents, including Dalton's drawings and paintings, transcripts of lectures, letters, and articles, plans, and photographic images of built works to characterize the architect not only as a very talented designer but also as a pioneer of environmentalist thinking in Australia. The book reveals how Dalton's architectural preoccupations parallel a transition in mid-century modern architecture globally from functional

efficiency and material rationalism to a concern with being in dialogue with the environment confirming a wider environmental turn that involved the integration of environmental with cultural considerations through relational thinking and which preceded and transcends the discipline's fascination with theoretical paradigms such as Critical Regionalism John Dalton Subtropical Modernism and the Turn to Environment in Australian Architecture is thus not only an important contribution to the existing scholarship on 20th century modernism but also to the current renewed interest in environmental design across the globe

2000 Architects Aisha Hasanovic, 2006 Doctor Haydock the resident GP of St Mary Mead hopes to cheer up Miss Marple as she recovers from the flu with a little story The tale revolves around the return of the prodigal son of Major Laxton the devilishly handsome Harry Laxton Harry after leading a life of childish indiscretions and falling head over heels for the village tobacconist's daughter has made good and returned to lay claim to his tumbling childhood home and introduce the village to his beautiful new wife But the villagers are prone to gossip about young Harry's past and one person in particular cannot forgive him for tearing down the old house Will Miss Marple's acumen be up to the task of solving the story

New Directions in Strategic Thinking 2.0 Russell W. Glenn, 2018-07-06 The Australian National University's Strategic Defence Studies Centre SDSC is Australia's premier university based strategic studies think tank Fifty years after the Centre was founded in 1966 SDSC celebrated its continued research publications teaching and government advisory role with a two day conference entitled New Directions in Strategic Thinking 2.0 The event saw the podium graced by many of the world's premier thinkers in the strategic studies field An evening between those tours to the lectern brought together academics practitioners and other honoured guests at a commemorative dinner held beneath the widespread wings of the G for George bomber in the Australian War Memorial an event that included SDSC's own Professor Desmond Ball AO making his last public appearance Since SDSC's 25th anniversary the world has seen the collapse of the Soviet Union and the end of the Cold War Bipolarity gave way to the emergence of the United States as the world's sole superpower a status many now see as under threat Both the nature of the threats and identity of individual competitors has changed in the interim quarter century Non state actors are presenting

rising challenges to national governments Meanwhile a diminished Russia and far more wealthy China seek to reassert themselves Never before has the call for reasoned innovative security studies thinking been more pronounced Rarely has a group so able to offer that thought come together as was the case in July 2016 This book encapsulates the essence of this cutting edge thinking and is a must read for those concerned with emerging strategic challenges facing Australia and its security partners

Robin Boyd: Spatial Continuity Mauro Baracco,Louise Wright,2017-01-20 Australian architect Robin Boyd 1919 1971 advocated tirelessly for the voice of Australian architects so that there could be an architecture that might speak to Australian conditions and sensibilities His legacy continues in the work of contemporary Australian architects yet also prompts a way forward for architecture particularly in relationship to the landscapes they inhabit through a quality of continuous space found in his work where the buildings are spatially reliant and sympathetic to the places they occupy A selection of 22 projects are documented comprehensively in this book for the first time This slice through Boyd s body of work reveals a gifted complex and contemporary thinker

2007 [The Australian Ugliness: Text Classics](#) Robin Boyd,2012-04-26 Brilliant witty scathing The Australian Ugliness is the classic postwar account of Australian society how we live in the environments we create and the consequences of our failure to think about how we live

[Brutalism Resurgent](#) Julia Gatley,Stuart King,2018-02-02 Brutalism had its origins in b ton brut concrete in the raw and thus in the post war work of Le Corbusier The British architects Alison and Peter Smithson used the term New Brutalism from 1953 claiming that if their house in Soho had been built it would have been the first exponent of the New Brutalism in England Reyner Banham famously gave the movement a series of characteristics including the clear expression of a building s structure and services and the honest use of materials in their as found condition The Smithsons and Banham promoted the New Brutalism as ethic rather than aesthetic privileging truth to structure materials and services and the gritty reality of the working classes over the concerns of the bourgeoisie But Brutalist architecture changed as it was taken up by others giving rise to more sculptural buildings flaunting their raw materials including off form concrete often in conjunction with bold structural members While Brutalism fell out of vogue in the 1980s recent years have seen renewed admiration for it This volume is consistent with this broader resurgence presenting new scholarship on Brutalist architects and projects from Skopje to Sydney and from Harvard to Haringey It will appeal to readers interested in twentieth century architecture and modern and post war heritage This book was originally published as a special issue of Fabrications the Journal of the Society of Architectural Historians Australia and New Zealand

The Greenwood Encyclopedia of Homes through World History James M. Steele,2009-03-30 The house throughout history in every place in the world has been built to provide shelter from the elements The dwellings that have resulted are as different as the people that have built them the social norms that prevailed at the time and place in which they were built and the natural environment that they adapted to Studying them now in a comprehensive way allows us to understand the social political economic and religious conditions that existed for their inhabitants They are a three

dimensional record of culture Twenty four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world The volumes cover ancient times to the late Middle Ages the Renaissance to the Industrial Revolution and the Post Industrial Revolution to the Present Robin Boyd Geoffrey Serle,1991-11-30 Robin Boyd gifted architect writer teacher and social commentator was the leading Australian propagandist for the International Modern Movement in architecture In partnership with Roy Grounds and Frederick Romberg he was noted for his innovative domestic buildings Indeed the suburban home was often a focus of Boyd s thinking writing and criticism and in Australia s Home 1952 he provided the first substantial interpretation of Australia s architectural history But the most popular and controversial of Boyd s nine books was The Australian Ugliness 1960 in which he scourged prevailing tastes in both architecture and popular culture The sentiments he expressed here made him one of Australia s liveliest social critics But his criticism sprang from patriotism and ambition for his country Boyd was a very private man who left few personal letters or records In this highly acclaimed and beautifully illustrated book Geoffrey Serle writes predominantly about Boyd s work and public activities allowing key selections from Boyd s writings to reveal the inner man *Contemporary Architects* Muriel Emanuel,2016-01-23
