M. F. Heath, 2013-05-02 This book is at the interface between Visual Studies and Biblical Studies and is the only monograph to date on St Paul s visual piety Heath argues that biblical scholarship has downplayed this worldly visuality in Christian culture and that the exegesis of Paul is both a partial cause and a symptom of this disciplinary blind spot *The World and the Word* Eugene H. Merrill, Mark F. Rooker, Michael A. Grisanti, 2011 Three esteemed Old Testament professors introduce students to the first eighty percent of the Bible freshly illuminating the text as a rich source of theology and doctrine packed with practical principles for modern times **A Bibliography of the Finds in the Desert of Judah, 1970-95** Donald Parry, Florentino García Martínez, 2018-11-26 This volume contains a bibliography of the research on the Dead Sea Scrolls published during the last 25 years and as such it provides scholars with an indispensable tool for further research Although originally planned as a continuation of B Jongeling s A Classified Bibliography of the Finds of the Desert of Judah 1958 1969 the materials are presented in a different way in order to avoid unnecessary duplications of entries Each bibliographical entry is alphabetically listed in the first part of the book and is provided with an identification number which allows for multiple classifications The second part offers a sophisticated classification of the materials by themes topics and key words but also by manuscript numbers and titles of the compositions as well as by authors *Proximity to Power and Jewish Sectarian Groups of the Ancient Period* Hillel Newman, 2006-10-31 This book deals with the values lifestyle and code of law of four Jewish sectarian groups in the Hellenistic and Roman Second Temple period in the land of Israel It reviews the groups according to their proximity to power highlighting the fact that political involvement has a decisive impact on the life and development of these social groups The groups under review the Pharisees Sadducees Essenes and Qumran receive a new historical description from the viewpoint of their proximity to power The issue of what determines the course of a social

group whether normative or sectarian is discussed and the traditional terminology is re examined Original terminology is established The first part of the book deals with the question of terminology the available sources and the presentation of the different groups

Planting and Reaping Albright Burke O. Long, 2010-11 This book examines the social formation and ideological practices of William Foxwell Albright the gifted Johns Hopkins linguist and archaeologist who along with a fiercely loyal and organized group of former students exerted uncommon influence on the substance and direction of mid twentieth century biblical studies Albright and these devoted students such as G Ernest Wright Frank Moore Cross Jr David Noel Freedman John Bright George E Mendenhall came to be known as the Albright School Burke Long here treats the field of biblical studies not as a repository of objective knowledge but as a culture created by like minded people whose knowledge is mediated through the ideologically charged give and take of social interactions A first of its kind for biblical studies

Planting and Reaping Albright draws on private letters interviews and published work to expose ideological presuppositions and political machinations embedded in historical knowledge about the Bible that this group of scholars constructed and disseminated through its various activities Long investigates Albright s many assumptions about the way things really are and the ways in which his students describing themselves as sons of Albright embarked on a crusade to secure political and ideological dominance of the landscape of American biblical scholarship The Albright School constituted a sociological phenomenon that had lasting consequences for American intellectual history and scholarship Accordingly this book suggests ways in which Albright or a social realization of Albright was present in and presented to a culture of generational and ideological solidarity

Scripture in Its Historical Contexts James A. Sanders, 2018-10-29 In this important collection of essays James A Sanders offers his most significant work on the text and canon of the Hebrew Bible along with his seminal studies of the Qumran Scrolls He has been at the forefront of the study of canon formation history of interpretation and textual criticism with specialty in the Dead Sea Scrolls and the use of the Old

Testament in the New These studies document the variety of textual traditions as well as the diversity and unsettled incipient state of the collection of sacred literature that was regarded as authoritative or canonical in the late Second Temple period They laid the foundation on which today s scholarly discussion is focused Science and Religion: Fifty Years After Vatican II Kenan Osborne, Ki Wook Min, 2014-01-31 In the past one hundred years two major realities have changed both science and religion The world of science has been enriched by quantum physics the computation of the age of the universe archaeological data in the Middle East and a scientific stress on historical writing The world of religion has been enriched by the establishment of the World Council of Churches and the Second Vatican Council In the past fifty years major scientists and major religious leaders have met together again and again In the past fifty years religious leaders from Christianity Islam and Judaism have held a number of thought provoking conferences In this volume these gatherings are reviewed and evaluated Two major religious problems have challenged the science religion discussions namely which God should the scientists agree on the Trinitarian God Allah or Yahweh Which history of the universe sponsored by these three religions should scientists be looking for This volume raises questions and suggests some preliminary forms of serious discussion

The Nathan Narrative in 2 Samuel 7:1-17 William W. Watty, 2016-07-08 As with archaeology traditio historical research of Old Testament literature proceeds backwards from the received text travelling through the earlier stages of compositions to the probable origins The canonical structure of the Hebrew Bible has therefore been taken as the point of departure in the traditio historical study of the Nathan Narrative in 2 Samuel 7 1 17 By progressing backwards from the Canonical Prophets the stages in the composition of the Joshua Kings corpus and of 2 Samuel 7 1 17 have been recovered through the application of redactio critical and literary critical methods A pre history of the Narrative has also been retraced in the traditions that were preserved in the oral stages in the typical forms and settings of transmission Notwithstanding the valuable insights that have accrued from Martin Noth s hypothesis of a Deuteronomistic History both the hypothesis itself and analyses deriving from it have failed to account satisfactorily for the place of 2 Samuel 7 1 17 in the Joshua Kings composition That failure is due to a methodological flaw of taking a non canonical configuration namely the Deuteronomy Kings corpus as the point of departure and the interpretative key This study tries to remedy that flaw **A Gift of God in Due Season** Richard D. Weis, David M. Carr, 1996-11-01 This volume of essays addresses from a variety of vantage points the relation of scriptures and community that has been so central to the canonical critical work of James A Sanders The first part of the volume focuses on the formation of the Jewish and Christian canons and texts in them while the second part looks at ancient and modern appropriations of canonical texts Together these essays show the multiple potential links between canonical criticism and historical literary feminist and other approaches in contemporary biblical studies **The Forging of Israel** Paula M. McNutt, 1990-01-01 *The Bible in History* Robert B. Waltz, *The Bible in History* A study of the history folklore and occasionally even the mathematics underlying the Bible A sort of dictionary of scholarly material you likely won t

find elsewhere Dedicated to Elizabeth Rosenberg Patricia Rosenberg and Catie Jo Pidel Please understand that this is not a Biblical commentary Also while I try very hard to avoid actual theological discussions the work is very much based on external evidence the manuscripts of the Bible the evidence of other historical records the findings of science the folklore about the Bible Some of this can be offensive to some particularly those who try to find exact literal truth in the Bible I hope you will accept it or else not read it in that light If you are still interested there is a lot of historical background about the Bible here not always direct links to the Bible but the context of the nations among whom the Israelites lived There is no Biblical mention of say Nabopolassar of Babylon but his actions would deeply influence Judean history Knowing even a little of that history can help understand the Bible Also where there are variant readings in the manuscripts of the Hebrew Bible or the New Testament I note it This may mean that we are uncertain what the Bible says and hence what it means I try either to recover the original meaning or in some cases to assess the meanings of both readings And then there are the tidbits of science and folklore and anything else I can think of The result is a grab bag Some parts may be useful some may not The idea is to browse and see what strikes your fancy With luck you ll understand more about the Bible after doing so

Traditions in Transformation Frank Moore Cross,1981 Symbolism in the song of Jonah Greenspoon L J The origin of the idea of resurrection Purvis J D The Samaritan problem Collins J J Patterns of eschatology at Qumran Collins A Y Myth and history in the book of Revelation The Word of the Lord Shall Go Forth Carol L. Meyers,Michael Patrick O'Connor,1983 This volume contains fifty two essays composed in honor of David Noel Freedman and organized around the topics Hebrew Poetry and Prophecy The Prose of the Hebrew Bible History and Institutions of Israel Northwest Semitic Epigraphy and Other Perspectives A bibliography of the honoree is included **Holy Scripture in the Qumran Commentaries and Pauline Letters** Timothy H. Lim,1997 What was the ancient exegetes attitude to the biblical texts Did they consider them sacred in the sense that the words were the inviolable utterances of God Or did they when necessary modify and adapt holy writ for their own purposes This book examines the question of exegetical modifications from the post Qumran perspective of textual pluriformity of literalism that runs through ancient exegeses and translations The Qumran Commentators and Paul complemented their fulfilment exegeses by paying close attention to the verbal formations of the biblical texts The hermeneutical principles underlying their exegeses involved a multiplex of competing forces that at the same time sought to make scripture relevant while guarding it from changes In so far as the label post biblical exegesis describes a clear separation between the written authoritative texts and its interpretation the distinction is overdrawn for the ancients were not merely commentators but also in some sense authors of the biblical texts
