Andrea C. Bianculli, 2016-12-08 How do international negotiations affect domestic politics Starting in the 1990s countries throughout Latin America embarked on many and simultaneous negotiations On the shifting ground of widening and deepening trade agendas and diverse arenas what factors determined trade politics This book examines the domestic political dynamics triggered by South South North South and multilateral agendas in Argentina and Chile between 1990 and 2005 Using a much needed cross negotiation and cross country comparative perspectives and through detailed empirical analyses of several key negotiations it proposes an explanation that emphasizes the interplay between international negotiations and domestic trade politics taken as the result of the complex and dynamic interdependencies and interrelations between state and society Informed by interviews with public officials businesses and civil society the analysis reveals that variation in the depth of agendas the distributional effects and the uncertainty of political outcomes all have important consequences for domestic preference formation collective action strategies and types of relationships Given this the variety of negotiations when considered separately and comparatively show that South South North South and multilateral processes promote different patterns of trade politics In sum although national specificities and historical legacies are important the book argues that trade policy comes first in creating domestic politics in Latin America      **The G20** Peter I. Hajnal, 2019-01-24 This revised and updated edition presents detailed analysis of the history and current state of the G20 and the challenges it faces The emergence of the G20 was the result of calls for full inclusion of major developing and other systemically important countries and to reflect new global economic and political realities The growth of Chinese power growing significance of other major developing countries and new concerns concerning anti globalization and rising protectionism in the West have all resulted in important changes to the dynamics of the institution The suspension of Russia's membership in the G8 has also necessitated a change in G7 G20 dynamics and the G20's processes agenda priorities and role in global governance Providing a historical overview and analysis of the evolving agenda methods of performance evaluation relationship with structured international organizations and other external actors Hajnal's text is an authoritative work of history analysis and reference on the G20 and also G7 G8 G20 reform This book is an essential source for researchers and students focusing on the G20 international organizations and global governance and more generally for scholars in the fields of political science economics and finance
