Migration, Diasporas and Legal Systems in Europe Prakash Shah, Werner Menski, 2020-09-10 At a time when issues concerning migration and the formation of diasporic communities have come to be critical for all European legal systems this volume reflects discusses and analyzes the questions raised by diasporas who have established themselves in Europe over more than fifty years of immigration and the challenges faced by legal systems in the light of continued migration Contributors from a broad range of backgrounds address prominent issues ranging from legal pluralism among minorities pressures on EU accession states irregular migration state control of family reunification and formation in light of human rights laws challenges for citizenship and nationality laws and the implementation of visa rules and juxtaposed control zones Besides the EU as a supranational legal order the book contains discussion of conditions in the United Kingdom Ireland France Spain Gibraltar Morocco Greece Turkey and Lithuania This volume accompanies The Challenge of Asylum to Legal Systems and is the second book to emerge from the W G Hart Legal Workshop held in 2004 at London s Institute for Advanced Legal Studies **Ethnic Europe** Roland Hsu, 2010-02-05 Ethnic Europe examines the increasingly complex ethnic challenges facing the expanding European Union Essays from eleven experts tackle such issues as labor migration strains on welfare economies the durability of local traditions the effects of globalized cultures and the role of Islamic diasporas separatist movements and threats of terrorism With Europe now a destination for global immigration European countries are increasingly alert to the difficult struggle to balance minority rights with social cohesion In pondering these dilemmas the contributors to this volume take us from theory history and broad views of diasporas to the particularities of neighborhoods borderlands and popular literature and film that have been shaped by the mixing of ethnic cultures **The European Diaspora in Australia** Bruno Mascitelli, Sonia Mycak, Gerardo Papalia, 2016-05-11 This volume provides a contemporary reflection on the journey of many former European communities that migrated to Australia in the post war period and their stories of settlement assimilation and integration The chapters provide perspectives from a range of disciplines and approaches across different communities There are common themes that emerge as well as unique issues which define these

communities **Ethnic Cleansing and the European Union** L. Tesser, 2013-05-14 This book offers the first multi case analysis of the politics of ethnic remixing in an expanding EU including studies on Central Europe the Balkans and Cyprus Tesser explains the politics of minority return in a post national Europe with particular attention to the long term aftermath of minority removal as a conflict resolution policy Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world s cultures and provides an overview of important topics in the world s diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies Spheres of Global Justice Jean-Christophe Merle, 2013-06-22 Spheres of Global Justice analyzes six of the most important and controversial spheres of global justice each concerning a specific global social good These spheres are democratic participation migrations cultural minorities economic justice social justice and intergenerational justice Together they constitute two constellations dealt with in this collection of essays by leading scholars in two different volumes Global Challenges to Liberal Democracy and Fair Distribution These essays illustrate each of the spheres delving into their differences commonalities collisions and interconnections Unlike many writings on global justice Spheres of Global Justice does not content itself with describing the painful and advantageous effects of the globalization process as being ipso facto a global injustice or a just global order Rather this multidisciplinary collection of essays from a pluralist inspiration combines empirical analysis with theoretical approaches and ethical principles paying close attention to two aspects of the effects of the globalization process These aspects are the causal relationships that lead to such effects and the kinds of

obligations or of normative relationships between global rights and correlative duties that applies to each specific individual case This volume illustrates how diverse global obligations are and how they can be grounded in diverse relationships identity ability to provide help causal responsibility past injustices protection of agency and promotion of independence etc These essays also demonstrate that an ethical global approach has not only international or transnational but also domestic local and interpersonal dimensions

The US "Culture Wars" and the Anglo-American Special Relationship David G. Haglund, 2019-05-21 This book discusses culture and the origins of the Anglo American special relationship the AASR The bitter dispute between ethnic groups in the US from 1914 17 a period of time characterized as the culture wars laid the groundwork both for US intervention in the European balance of power in 1917 and for the creation of what would eventually become a lasting Anglo American alliance Specifically the vigorous assault on English civilization launched by two large ethnic groups in America the Irish Americans and the German Americans had the unintended effect of causing America's demographic majority at the time the English descended Americans to regard the prospect of an Anglo American alliance in an entirely new manner The author contemplates why the Anglo American great rapprochement of 1898 failed to generate the desired Anglo Saxon alliance in Britain and in so doing features theoretically informed inquiries into debates surrounding both the origins of the war in 1914 and the origins of the American intervention decision nearly three years later

Voices of the Diaspora Thomas Nolden, Frances Malino, 2005-10-21 *Voices of the Diaspora* offers for the first time representative works by major Jewish women writers from Austria England France Germany Italy the Netherlands Spain and Russia These stories and essays written over the last twenty five years speak to the challenges confronting the post Shoah generations of Jews living in Europe a need to commemorate the lives extinguished in the camps a desire to repair a ruptured culture and a determination to reclaim a Jewish identity resistant to assimilation and the threats of anti-Semitism At the same time these writers address themes specific to their national contexts Berlin born Barbara Honigmann questions the possibility of Jewish life in the country responsible for the final solution Maghreb born Marlène Amar and Reina Roff address the experiences of displacement and emancipation as Sephardic women in Western post colonial societies Clara Sereni describes how Jews in post Fascist Italy reemerged with a self assertiveness that troubled a society that had found comfort in amnesia Ludmila Ulitskaya portrays a Jewish girlhood on the eve of Stalin's death empowered by the religious traditions of Jewish resistance From the unique perspective of women's literary voices this volume reveals to English speaking readers the extraordinary vivacity and diversity of European Jewry and introduces them to a new generation of women writers

Ethnicity, Nationalism and the European Cold War Robert Knight, 2012-04-26 This book questions the prevalent assumption that ethnicity and nationalist politics had nothing to do with the Cold War and that far from being frozen until the fall of communism they remained central to the conflict in Europe Leading scholars bring their understanding of particular regions to bear on the wider issue of why ethnic explanations were written out of the discourse and whether this was a failure on the

part of Western observers This in turn has led to an overly simple understanding of power flowing downwards from superpower to nation state and from state to society Engaging with key thinkers such as Gaddis Moynihan and Adam Roberts this collection ultimately allows such speculation to be replaced by historical research and bridges the gap between high politics and ethnic concerns *The Cultures of Italian Migration* Graziella Parati, Anthony Julian Tamburri, 2011-12-28 The Cultures of Italian Migration allows the adjective Italian to qualify people's movements along diverse trajectories and temporal dimensions Discussions on migrations to and from Italy meet in that discursive space where critical concepts like home identity subjectivity and otherness eschew stereotyping This volume demonstrates that interpretations of old migrations are necessary in order to talk about contemporary Italy New migrations trace new non linear paths in the definition of a multicultural Italy whose roots are unmistakably present throughout the centuries Some of these essays concentrate on topics that are historically long term such as emigration from Italy to the Americas and southern Pacific Ocean Others focus on the more contemporary phenomena of immigration to Italy from other parts of the world including Africa This collection ultimately offers an invitation to seek out new and different modes of analyzing the migratory act

Diaspora in the MENA Region and Beyond Aditya Anshu, 2024-07-18 Diaspora in the Middle East and North Africa MENA Region and Beyond is very relevant for emerging multidisciplinary Diaspora studies The region itself has settled or long term international migrants Diasporas from neighbouring regions to Diasporas from distant places Diasporas with the same ethnic religious cultural identity as that of natives to Diasporas having a distinct and divergent ethnic linguistic identity The number of these Diasporic communities and their role in economic development is substantial Their concerns and contributions require academic and research output to understand them and their potential to serve the domestic and foreign objectives of the host countries as well as those of world community **Ethnic Politics in Europe** Judith G.

Kelley, 2010-01-02 This detailed account of ethnic minority politics explains when and how European institutions successfully used norms and incentives to shape domestic policy toward ethnic minorities and why those measures sometimes failed Going beyond traditional analyses Kelley examines the pivotal engagement by the European Union the Organization for Security and Cooperation in Europe and the Council for Europe in the creation of such policies Following language education and citizenship issues during the 1990s in Latvia Estonia Slovakia and Romania she shows how the combination of membership conditionality and norm based diplomacy was surprisingly effective at overcoming even significant domestic opposition However she also finds that diplomacy alone without the offer of membership was ineffective unless domestic opposition to the proposed policies was quite limited As one of the first systematic analyses of political rather than economic conditionality the book illustrates under what conditions and through what mechanisms institutions influenced domestic policy in the decade preparing the way for the historic enlargement of the European Union This thoughtful and thorough discussion based on case studies quantitative analysis and interviews with nearly one hundred policymakers and experts tells

an important story about how European organizations helped facilitate peaceful solutions to ethnic tensions in sharp contrast to the ethnic bloodshed that occurred in the former Yugoslavia during this time This book s simultaneous assessment of soft diplomacy and stricter conditionality advances a long overdue dialogue between proponents rational choice models and social constructivists As political requirements increasingly become part of conditionality it also provides keen policy insights for the strategic choices made by actors in international institutions

The Communist Quest for National Legitimacy in Europe, 1918-1989 Martin Mevius,2013-09-13 There are two popular myths concerning the relationship between communism and nationalism The first is that nationalism and communism are wholly antagonistic and mutually exclusive The second is the assertion that in communist Eastern Europe nationalism was oppressed before 1989 to emerge triumphant after the Berlin Wall came down Reality was different Certainly from 1945 onwards communist parties presented themselves as heirs to national traditions and guardians of national interests The communist states of Central and Eastern Europe constructed socialist patriotism a form of loyalty to their own state of workers and peasants Up to 1989 communists in Eastern Europe sang the national anthem and waved the national flag next to the red banner The use of national images was not the exception but the rule From Cuba to Korea all communist parties attempted to gain national legitimacy This was not incidental or a deviation from Marxist orthodoxy but ingrained in the theory and practice of the communist movement since its inception The study of communist national legitimacy is an exciting new field This book presents examples of communist attempts to co opt nationalism from both sides of the iron curtain and lays bare the striking similarities between such diverse cases as the socialist patriotism of the Bulgarian Communist Party and the national line of the Portuguese communists between Romanian communist nation building and the national ideology of the Spanish Communist Party This book was published as a special issue of Nationalities Papers

Securitized Borderlands Martin Deleixhe,Magdalena Dembińska,Julien Danero Iglesias,2021-05-13 Borders are both a door and a bridge Because they are operating at a critical juncture between security expectations and intense cross border exchanges they appear to be Janus faced To some they are demarcating lines that call for extensive protection and a regime of strict closure To others they are a gateway to transnational opportunities and their opening should be carefully but liberally managed The very same paradox affects the regions located alongside borders that is the borderlands or frontier zones Borderlands can be simultaneously depicted as epitomizing the growth of mutually beneficial transnational ties and as offering a privileged but bleak glimpse into the importation of international threats into domestic politics Partly due to the discrepancy between their premises borderlands studies and security studies have virtually no dialogue Security studies remain focused on the discriminatory function of the border while borderlands studies document the social dynamics of cross border societies Against this backdrop the ambition and originality of Securitized Borderlands lie in its aim to theoretically and empirically fill the gap between security studies that remain focused on the discriminatory function of the border and borderlands studies that document the social dynamics

of cross border societies The chapters in this book were originally published as a special issue of the Journal of Borderlands Studies

Taming Ethnic Hatred Patrice C. McMahon, 2007-04-05 With its unique emphasis on ethnic cooperation rather than discord this work provides insights into how the international community can help to restrain ethnic conflict in the Twenty First century By examining the construction of ethnic peace in post Soviet Eastern Europe Patrice McMahon accurately describes how the international community worked to quell growing tensions in the East Key was a network of public and private organizations whose goal it was to work in overlapping ways to manage inter ethnic relations which in turn kept ethnically charged clashes far below levels forecast Inspired by the Conference on Security and Cooperation in Europe CSCE this network included Western governments intergovernmental organizations as well as non governmental organizations Although each actor had its own reason for involvement in this network she highlights the shared principles and overlapping strategies actors used and how their interaction translated into a modern form of decentralized governance This book addresses these issues by considering ethnic relations in Romania and Latvia In so doing it brings to the fore important stories too long ignored by the West and academic research Writing in a direct readable fashion the author connects her subject to a larger review of changes in global governance

Ethnicity Without Groups Rogers Brubaker, 2006-09-01 Despite a quarter century of constructivist theorizing in the social sciences and humanities ethnic groups continue to be conceived as entities and cast as actors Journalists policymakers and researchers routinely frame accounts of ethnic racial and national conflict as the struggles of internally homogeneous externally bounded ethnic groups races and nations In doing so they unwittingly adopt the language of participants in such struggles and contribute to the reification of ethnic groups In this timely and provocative volume Rogers Brubaker well known for his work on immigration citizenship and nationalism challenges this pervasive and commonsense groupism But he does not simply revert to standard constructivist tropes about the fluidity and multiplicity of identity Once a bracing challenge to conventional wisdom constructivism has grown complacent even cliched That ethnicity is constructed is commonplace this volume provides new insights into how it is constructed By shifting the analytical focus from identity to identifications from groups as entities to group making projects from shared culture to categorization from substance to process Brubaker shows that ethnicity race and nation are not things in the world but perspectives on the world ways of seeing interpreting and representing the social world

Postwar Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize Winner of the Council on Foreign Relations Arthur Ross Book Award One of the New York Times s 100 Best Books of the 21st Century Impressive Mr Judt writes with enormous authority The Wall Street Journal Magisterial It is without a doubt the most comprehensive authoritative and yes readable postwar history The Boston Globe Almost a decade in the making this much anticipated grand history of postwar Europe from one of the world s most esteemed historians and intellectuals is a singular achievement Postwar is the first modern history that covers all of Europe both east and west drawing on research in six languages to sweep readers through thirty four

nations and sixty years of political and cultural change all in one integrated enthralling narrative Both intellectually ambitious and compelling to read thrilling in its scope and delightful in its small details Postwar is a rare joy
