Hoffman, 2014-02-25 This volume investigates our ability to capture and then apply expertise In recent years expertise has come to be regarded as an increasingly valuable and surprisingly elusive resource Experts who were the sole active dispensers of certain kinds of knowledge in the days before AI have themselves become the objects of empirical inquiry in which their knowledge is elicited and studied by knowledge engineers experimental psychologists applied psychologists or other experts involved in the development of expert systems This book achieves a marriage between experimentalists applied scientists and theoreticians who deal with expertise It envisions the benefits to society of an advanced technology for capturing and disseminating the knowledge and skills of the best corporate managers the most seasoned pilots and the most renowned medical diagnosticians This book should be of interest to psychologists as well as to knowledge engineers who are out in the trenches developing expert systems and anyone pondering the nature of expertise and the question of how it can be elicited and studied scientifically The book's scope and the pivotal concepts that it elucidates and appraises as well as the extensive categorized bibliographies it includes make this volume a landmark in the field of expert systems and AI as well as the field of applied experimental psychology *On Intelligence* Stephen J. Ceci, 2009-07-01 Ceci argues that traditional conceptions of intelligence ignore the role of society in shaping intelligence and underestimate the intelligence of non Western societies He puts forth a bio ecological framework of individual differences in intellectual development that is intended to address some of the major deficiencies of extant theories of intelligence The focus is on alternative interpretations of phenomena that emerge when implicit assumptions of intelligence researchers are challenged **Exotic Betting At The Racetrack** William T Ziemba, 2018-12-21 Exotic Betting at the Racetrack is unique as it covers the efficient inefficient strategy to price and find profitable racetrack bets along with handicapping that provides
