## **New Family Values Liberty Equality Diversity:**

New Family Values Karen Struening, 2002-06-25 How many different kinds of families are there New Family Values provides a critical analysis of scholars and authors who argue that law and policy should be used to foster one model of the family the intact two parent heterosexual family Karen Struening argues that this position does not adequately address the problem it supposedly solves family dissolution and unnecessarily constrains personal liberty Healthy families may be necessary for civic unity and individual stability but there can be many different kinds of families New Family Values Karen Struening, 2002 New Family Values provides a critical analysis of scholars and authors who argue that law and policy should be used to foster one model of family the intact two parent heterosexual family The author argues that this position does not adequately address the problem in purports to solve family dissolution and unnecessarily constrains personal liberty Civic stability and individual well being require healthy families but do not necessitate uniformity in family form **Pious Pro-family Rhetoric** Jay Newman, 2007 This wide ranging interdisciplinary study examines the contemporary media debate between traditionalists and progressivists over religion the family and culture Consideration of this persistent and often fierce debate reveals much about the state of religion in Western democracies varieties of religious commitment strategies of religious and cultural competition religious uses of politics and political uses of religion images of religion in the media and images of the media in religion the conditions of a sustainable pluralism ideals of tradition and progress and the relations of religion and the family **The Family** Jack O. Balswick, Judith K. Balswick, Thomas V. Frederick, 2021-11-16 This proven comprehensive resource covers every issue that affects Christian family life It has been in print for over thirty years and has sold nearly 100 000 copies This new edition is updated throughout with discussions of recent family related issues It includes a new chapter on work and family balance and a new section on the increasing role grandparents take in parental responsibilities Family Problems Joyce A. Arditti, 2014-10-01 Family Problems Stress Risk and Resilience presents an interdisciplinary collection of original essays that push the boundaries of family science to reflect the increasingly diverse complexity of family concerns in the modern world Represents the most up to date family problem research while addressing such contemporary issues as parental incarceration same sex marriage health care disparities and welfare reform Features brief chapter introductions that provide context and direction to guide the student to the heart of what s important in the piece that follows Includes critical thinking questions to enhance the utility of the book for classroom use Responds to family problem issues through the lens of a social justice perspective **A Timeless Place** Julia Harrison, 2013-09 As Julia Harrison s first summer of living in Ontario approached she became aware of the culture of the cottage Friends talked of nothing but languid afternoons on the dock but Harrison marveled at the investment of money and labour that the idyllic escapes demanded Curious about the rich and passionate meaning these places seemed to hold she studied cottagers in the Haliburton region over the course of seven years Thoughtfully and engagingly written A Timeless Place considers the family

cottage as a place where memories are treasured national identity is celebrated spiritual balance is restored and a few dark secrets are kept

**Health Care Economics** John B. Davis, Robert McMaster, 2017-06-01 The analytical approach of standard health economics has so far failed to sufficiently account for the nature of care This has important ramifications for the analysis and valuation of care and therefore for the pattern of health and medical care provision This book sets out an alternative approach which places care at the center of an economics of health showing how essential it is that care is appropriately recognized in policy as a means of enhancing the dignity of the individual Whereas traditional health economics has tended to eschew value issues this book embraces them introducing care as a normative element at the center of theoretical analysis Drawing upon care theory from feminist works philosophy nursing and medicine and political economy the authors develop a health care economics with a moral basis in health care systems In providing deeper insights into the nature of care and caring this book seeks to redress the shortcomings of the standard approach and contribute to the development of a more person based approach to health and medical care in economics Health Care Economics will be of interest to researchers and postgraduate students in health economics heterodox economists and those interested in health and medical care

Modern Couples Sharing Money, Sharing Life Janet Stocks, Björn Halleröd, 2007-07-12 This collection is the result of a five year long collaboration of

sociologists in Sweden Spain and the United States In depth extended interviews with couples explore their daily lives and provide insights into the impact of modernity gender roles and expectations of the meaning of money and the complex financial reality of households

**Ethnographic Inquiry and Lived Experience** Wing-Chung Ho,2019-01-15 Ho addresses two fundamental theoretical questions about how best to practice ethnographic inquiries to obtain qualitative experience near and shareable accounts of human living The first question is regarding the epistemology of ethnography Ho posits that writing is epistemologically prior to the researcher s fieldwork experience in the production of ethnographic knowledge This stance is developed using the theories of hermeneutics put forward by Paul Ricoeur and Hans Georg Gadamer who both consider that once a text is produced its meaning is dissociated from the intention of the author The second question is what is the putative object that the ethnographer writes about Ho argues that lived experience *Erlebnis* offers such an ethnographic object Since the lived experience that an ethnographer experiences during fieldwork cannot be studied directly further theorizations of lived experience are necessary Ho underscores both the non discursivity and transcendence of lived experience in the lifeworld and the way power is clandestinely imbued in everyday life in shaping subjectivity and practice This theorization brings together Alfred Schutz s lifeworld theory and Michel Foucault s power knowledge nexus The result is a general theory of experience that is pertinent for ethnographic inquiries By addressing these two fundamental questions and offering novel angles from which to answer them this book offers refreshed epistemological guidelines for conducting ethnographic research for scientific reasoning More importantly this book also provides a crucial knowledge base for comprehending the current epistemological debates inherent in the production of ethnographic knowledge and furthering discussions in the field

**The Heart of Justice** Daniel Engster,2007-04-26 The Heart of Justice proposes a new framework of political justice based upon the practice of caring Integrating the insights of earlier care theorists with the concerns of traditional justice theorists Engster forges a new synthesis between care and justice and further argues that the institutional and policy commitments of care theory must be recognized as central to any adequate theory of justice Engster begins by offering a practice based account of caring and a theory of obligation that explains why individuals should care for others He then systematically demonstrates the implications of this account of caring for domestic politics economics international relations and culture In each of these areas he reviews the contributions of earlier care theorists and then extends their arguments to provide a more complete description of the institutions and policies of a caring society Care ethics is further put in dialogue with diverse cultural and religious traditions and used to address the challenges of multicultural justice cultural relativism and international human rights More fully than other works on care theory this book provides an overarching account of the institutions and policies of a caring society The Heart of Justice provides the first full account of a theory of justice based upon care ethics and should be of interest to anyone interested in thinking about the nature of our moral obligations and the institutions of a just society

**Rich, Free, and Miserable** John Brueggemann,2023-06-14

Compared to much of the rest of the world America and its citizens are rich But many people are also deeply miserable at work at home or both In this provocative book author John Brueggemann unpacks why so many people are struggling both emotionally and financially in a nation that looks so prosperous on the surface From a hospital patient reduced to a balance sheet to a parent working such long hours that he misses dinner Brueggemann argues that market thinking has permeated every corner of our lives In the pursuit of more and better relationships erode to the detriment of individuals communities and the nation as a whole Rich Free and Miserable not only outlines these pressing social problems but also offers practical suggestions for people looking to make a positive change

*School of Architecture(s) - New Frontiers of Architectural Education* Michela Barosio,Elena Vigliocco,Santiago Gomes,2024-10-10 This open access book gathers the latest advances and innovations in the field of architectural education as presented at the 2023 annual conference of the European Association for Architectural Education EAAE AC School of Architecture s held in Turin Italy on August 30 September 1 2023

**Readings in Political Philosophy** Diane Jeske,Richard Fumerton,2011-12-20 This anthology surveys important issues in Western political philosophy from Plato to the present day Its aim is to show both the continuity and the development of political thought over time Each unit begins with readings on the fundamental theoretical principles underlying political discourse Theory is then connected to practice in readings on contemporary issues as well as court cases and other political documents

*Contemporary Issues in Family Studies* Angela Abela,Janet Walker,2013-10-02 This volume tackles key issues in the changing nature of family life from a global perspective and is essential reading for those studying and working with families Covers changes in couple relationships and the challenges these pose parenting practices and their implications for child development key contemporary global issues such as migration poverty and the internet and their impact on the family and the role of the state in supporting family relationships Includes a stellar cast of international contributors such as Paul Amato and John Coleman and contributions from leading experts based in North Africa Japan Australia and New Zealand Discusses topics such as cohabitation divorce single parent households same sex partnerships fertility and domestic violence Links research and practice and provides policy recommendations at the end of each chapter

Moral Argument, Religion, and Same-Sex Marriage Gordon A. Babst,Emily R. Gill,Jason A. Pierceson,2009-09-03 The diverse expert contributors to this volume from the fields of politics and law use moral argumentation with respect to same sex marriage gay rights in general and California s Prop 8 The arguments are advanced in terms of the nation s foundational political and legal principles extending ethical argumentation to important contemporary public policy areas such as marriage the separation of church and state and the rearing of children Several chapters also contest the perceived if not actual establishment in the law and public policy of heterosexist and religious bias that continues to work against full and meaningful inclusion of sexual minorities This bias is ironically and improperly couched in the language of American political and religious values and it misunderstands the nation s core principles or willfully miscasts them as inapplicable to many Americans and their families

Nonetheless this bias is pervasive in the nation's political discourse working to deny an important right and the recognition of equality to many citizens. The main contribution of *Moral Argument Religion and Same Sex Marriage* is in its direct engagement with the political and legal arguments of the gay community's critics on their own moral and ethical terms. Along the way important concepts in public discourse such as governmental neutrality, the right to marry and religious freedom are presented and cast in the light of liberal democratic theory.      **Fittingness and Environmental Ethics** Michael S.

Northcott, Steven C. van den Heuvel, 2023-02-24 This volume focuses on fittingness as an ethical/aesthetical idea and in particular examines how the concept is beneficial for environmental ethics. It brings together an innovative set of contributions to argue that fittingness is a significant but under-investigated facet of human ethical deliberation with both ethical and aesthetic dimensions. In widely diverse matters from architecture to table manners individuals and communities make decisions based on fittingness, also expressed in related terms such as appropriateness, prudence, temperance and mutuality. In the realm of environmental ethics fittingness denotes a relation between conscious embodied persons and their habitats and is of relevance to judgements about how humans shape and take up with the non-human environment and hence to ethical decisions about the development and use of the environment and non-human creatures. As such fittingness can be of great benefit in reframing human relationships to the non-human, stimulating a way of living in the world that is fitting to the preservation of its fruitfulness, goodness, beauty and truth.      *The Blackwell Companion to Social Work* Martin

Davies, 2013-04-01 Fully revised and restructured this fresh edition offers students and trainee social workers an incisive and authoritative introduction to the subject. As well as entirely new sections on theory and practice, the expert contributions which have shaped the companion's leading reputation have been updated and now include innovative standalone essays on social work theory. Comprehensively reworked new edition comprising six substantive sections covering essential topics for trainee social workers in effect six books in one. Includes an extensive introduction and chapters by leading experts on the focus and purpose of social work. Provides a unified textbook for trainees and an invaluable professional reference volume. Features a wealth of new material on theory and practice alongside detailed expositions of the social and psychological framework, stages in the human life cycle and the objectives and core components of social work. Each chapter lists five key points to remember, questions for discussion and recommendations for further reading.      **Real Utopia** Chris Spannos, 2008

With contributors including Barbara Ehrenreich, Michael Albert, Tom Wetzel, Lydia Sargent, Noam Chomsky and many more, this is a collection of some of the finest progressive minds around. *Real Utopia* catapults the imagination into visions of what participatory society may look like and how we might get there. The writers aim to distinguish between what is feasible and what is a pipe dream, proposing practical transformations of society's key defining institutions.      **The American People**

Reynolds Farley, John Haaga, 2005-09-08 For more than 200 years America has turned to the decennial census to answer questions about itself. More than a mere head count, the census is the authoritative source of information on where people live

the types of families they establish how they identify themselves the jobs they hold and much more The latest census taken at the cusp of the new millennium gathered more information than ever before about Americans and their lifestyles The American People edited by respected demographers Reynolds Farley and John Haaga provides a snapshot of those findings that is at once analytically rich and accessible to readers at all levels The American People addresses important questions about national life that census data are uniquely able to answer Mary Elizabeth Hughes and Angela O Rand compare the educational attainment economic achievement and family arrangements of the baby boom cohort with those of preceding generations David Cotter Joan Hermesen and Reeve Vanneman find that unlike progress made in previous decades the 1990s were a time of stability and possibly even retrenchment with regard to gender equality Sonya Tafoya Hans Johnson and Laura Hill examine a new development for the census in 2000 the decision to allow people to identify themselves by more than one race They discuss how people form multiracial identities and dissect the racial and ethnic composition of the roughly seven million Americans who chose more than one racial classification Former Census Bureau director Kenneth Prewitt discusses the importance of the census to democratic fairness and government efficiency and notes how the high stakes accompanying the census count especially the allocation of Congressional seats and federal funds have made the census a lightning rod for criticism from politicians The census has come a long way since 1790 when U S Marshals set out on horseback to count the population Today it holds a wealth of information about who we are where we live what we do and how much we have changed The American People provides a rich detailed examination of the trends that shape our lives and paints a comprehensive portrait of the country we live in today A Volume in the Russell Sage Foundation Census Series
