## **New Germany In The East Policy Agendas And Social Developments Since Unification:**

**The New Germany in the East** Christopher Flockton, Eva Kolinsky, Rosalind M. O. Pritchard, 2000 Produced with the International Peace Academy in New York this volume focuses largely on the conflicts of the 1990s and future projects examining multifaceted issues involved in conflict management suggesting new approaches and tools for future conflict management *Handbook of Globalization, Governance, and Public Administration* Ali Farazmand, Jack Pinkowski, 2006-07-25 Globalization transcends borders and cultures as it develops both from the natural flow of information and communication technologies and as a directed and driven quest for global hegemony by self serving corporations and world political heavyweights It bears a multifaceted web of influence that manifests in inequalities in growth prosperity and

**Education in Germany since Unification** David Phillips, 2000-01-01 This volume is concerned with aspects of education in Germany over the 10 years prior to 2000 focusing on schools teachers vocational training and higher education in those eastern parts of the Federal Republic which formerly constituted the territory of the German Democratic Republic The articles deal with notions of transition and adaptation at a time of considerable upheaval and rapid change There is a particular focus in some contributions on the problems involved in conducting research on the views of teachers involved in complex processes of adjustment to a new status quo *Liberalism in Illiberal States* Mark I. Vail, 2018 After the end of the Cold War liberalism emerged as the world's dominant political economic ideology and economic liberalism seemed to have achieved global hegemony In *Liberalism in Illiberal States* Mark Vail acknowledges the dominance of economic liberalism but argues that its implementation in specific countries is always unique and dependent upon powerful historical factors He focuses on France Germany and Italy countries that many scholars do not view as liberal at all and contends they have in fact developed distinct forms of national liberalism of which their postwar models of capitalism were merely one manifestation Vail argues that these states political economies have been shaped by centuries old liberal traditions which have continued to inform national alternatives to transnational neoliberalism in the contemporary era He presents case studies that show how nationally specific interpretations of liberalism are flexible and responsive to local realities especially in times of economic uncertainty By demonstrating how variegated the practice of economic liberalism actually is *Liberalism in Illiberal States* will reshape our understanding of liberal political economy in the contemporary world *Bureaucratic, Societal, and Ethical Transformation of the Former East Germany* Jean-Claude Garcia-Zamor, 2004-01-06 This book analyzes the state of the bureaucracy in the eastern part of Germany prior to reunification and discusses changes that occurred after 1990 The contributors review the impact of these changes on the bureaucracy and other sectors of society where a new ethic seems to have emerged guiding practitioners involved in restructuring East German institutions Issues discussed include the performance of the administrative structures the transformation of the Eastern German university system the various affirmative action policies implemented after 1990 compensation to victims of abuses by the former socialist regime changes

in public relations policy after 1990 and an ethic guiding the models of restructuring institutions for industrialized and developing countries

**Modern Germany** Wendell G. Johnson, Katharina Barbe, 2022-03-29 This thematic encyclopedia presents a broad overview of contemporary Germany spanning such topics as geography pop culture the media and gender roles Themes in the book cover geography history politics and government economy religion and thought social classes and ethnicity gender marriage and sexuality education language etiquette literature and drama art and architecture music and dance food leisure and sports and media and pop culture Within each theme short topical entries cover a wide array of key concepts and ideas from LGBTQ issues in Germany to linguistic dialects to the famous Oktoberfest United and Divided Mike Dennis, Eva Kolinsky, 2004-03-01 The system transformation after German unification in 1990 constituted an experiment on an unprecedented scale At no point in history had one state attempted to redesign another without conquest bloodshed or coercion but by treaties public policy and bureaucratic processes Unification was achieved by erasing the eastern political and economic model However in the meantime it has become clear that the same cannot be said about social transformation On the contrary social and cultural attitudes and differentiation have continued and resulted in deep divisions between West and East Germany After unification the injustices of politics seemed to have been replaced in the eyes of most former GDR citizens by unexpected injustices in the personal spheres of ordinary people who lost their jobs and faced unknown realities of deprivation and social exclusion These are the main concerns of the contributors to this volume Incorporating new research findings and published data they focus on key aspects of economic political and social transformation in eastern Germany and compare through case studies each area with developments in the west East German Distinctiveness in a Unified Germany Jonathan Grix, P Cooke, 2003-02-28 This book explores the nature of the dramatic growth in a distinct sense of East German identity in the years since the events that led to formal unification in 1990 While it is problematic to see East Germanness as a singular and homogenous identity it can be perceived as a distinctive phenomenon and a level of identification that exists alongside local regional and national identities The essays in this volume hope to challenge the commonly held misconception that East German regional identity is a problem that needs to be overcome in the process of unification Through analyses of the social political and cultural behaviour of East Germans and their perception of their own place in German society this volume makes a complex and nuanced contribution to discussions on German national identity and the unification process

**Immigration Policy in the Federal Republic of Germany** Douglas B. Klusmeyer, Demetrios G. Papademetriou, 2009 German migration policy now stands at a major crossroad caught between a fifty year history of missed opportunities and serious new challenges Focusing on these new challenges that German policy makers face the authors both internationally recognized in this field use historical argument theoretical analysis and empirical evaluation to advance a more nuanced understanding of recent initiatives and the implications of these initiatives Their approach combines both synthesis and original research in a presentation that is not only accessible to the general

educated reader but also addresses the concerns of academic scholars and policy analysts This important volume offers a comprehensive and critical examination of the history of German migration law and policy from the Federal Republic's inception in 1949 to the present *International Development Governance* Ahmed Shafiqul Huque, Habib

Zafarullah, 2017-09-25 The establishment of good governance is a major challenge for the developing world along with the need to sustain the progress resulting from developmental efforts Although there are numerous studies on the development and governance of emerging nations few volumes make a serious effort to bring together these two critical concepts *International Development Governance* combines the two concepts development and governance by examining the issues and problems faced by nations in their attempts to establish sustainable governance This textbook also initiates discussions on the concept of development governance in an international context The book fills the gap in existing literature by drawing upon the experience and expertise of scholars from a broad spectrum of knowledge Their views explain the issues and problems with reference to a number of tools that could establish development governance and sustain it The text offers in depth examinations of developmental sectors resulting in a textbook that will inspire future public officials policy makers and consultants to contribute to the betterment of life for citizens of developing countries State and Minorities in Communist East Germany Mike Dennis, Norman LaPorte, 2011-08-01 Based on interviews and the voluminous materials in the archives of

the SED the Stasi and central and regional authorities this volume focuses on several contrasting minorities Jehovah's Witnesses Jews guest workers from Vietnam and Mozambique football fans punks and skinheads and their interaction with state and party bodies during Erich Honecker's rule over the communist system It explores how they were able to resist persecution and surveillance by instruments of the state thus illustrating the limits on the power of the East German dictatorship and shedding light on the notion of authority as social practice German Reunification Joyce E.

Bromley, 2017-04-07 In 1945 German families with more than 100 hectares 247 acres of land were forced from their homes in the eastern sector by the Soviets now in control of that area These families were brutally evicted from their property and had their land expropriated In the next 45 years the GDR government would come to control all of the agricultural land At reunification in 1990 the earlier abuse of these farmers was compounded when the German government would not restore any of this expropriated land to these families The German government falsely accused the Soviet Union of insisting on non restitution as a condition of reunification Soviet leader Mikhail Gorbachev unequivocally denies this claim and insists that land issues are a German problem to resolve The temporary land trust agency established by the German government in 1990 to dispose of land it inherited from the GDR continues to exist After 25 years this agency still holds almost 20 percent of this expropriated land Its agents most of whom were reared in GDR decide who may or may not lease land the conditions of the lease and if and when a farmer may buy land circumstances that remain deeply controversial Joyce Bromley draws on extensive field research and previously untapped sources to explore the reliability of the government's version of these

important events Is the German government once again without shame discriminating against a group of its own citizens

**Fallen Elites** Andrew Bickford, 2011-03-09 Military officers are often the first to be considered politically dangerous when a state loses its authority Overnight actions once considered courageous are deemed criminal and men once praised as heroes are redefined as villains In *Fallen Elites* Andrew Bickford examines how states make soldiers and what happens to fallen military elites when they no longer fit into the political spectrum Gaining unprecedented entry into the lives of former East German officers in unified Germany Bickford relates how these men and their families have come to terms with the shock of unification capitalism and citizenship since the fall of the Berlin Wall Often caricatured as unrepentant hard line communists former officers recount how they have struggled with their identities and much diminished roles Their disillusionment speaks to global questions about the contentious relationship between the military citizenship masculinity and state formation today Casting a critical eye on Western triumphalism they provide a new perspective on our own deep seated assumptions about soldier making both at home and abroad Approaches to the Study of Contemporary Germany

Jonathan Grix, 2002-09-30 The 10 essays of this collection are derived from a group of courses developed by the U of Birmingham's UK Institute for German Studies which is devoted to the social sciences The essays consider the British research methods used for studying issues in Germany by researchers in economics pol **The Other People** M. Wilkes Karraker, 2013-05-14 This book offers an interdisciplinary and accessible approach to issues of global migration in the twenty first century in 13 essays plus an appendix written by scholars and practitioners in the field **The Capitalist Personality** Christopher S. Swader, 2013-01-04 Modern capitalism favors values that undermine our face to face bonds with friends and family members Focusing on the post communist world and comparing it to more developed societies this book reveals the mixed effects of capitalist culture on interpersonal relationships While most observers blame the egoism and asocial behavior found in new free market societies on their communist pasts this work shows how relationships are also threatened by the profit orientations and personal ambition unleashed by economic development Successful people in societies as diverse as China Russia and Eastern Germany adjust to the market economy at a social cost relaxing their morals in order to obtain success and succumbing to increased material temptations to exploit relationships for their own financial and professional gain The capitalist personality is internally troubled as a result of this sellout but these qualms subside as it devalues intimate qualitative bonds with others This book also shows that post communists are similarly individualized as people living in Western societies Capitalism may indeed favor values of independence creativity and self expressiveness but it also rewards self centeredness consumerism and the stripping down of morality As is the case in the West capitalist culture fosters an internally conflicted and self centered personality in post communist societies *Handbook of Workplace Spirituality and Organizational Performance* Robert A. Giacalone, Carole L. Jurkiewicz, 2003 A comprehensive research based interdisciplinary and action oriented approach to spirituality in organizational life It defines workplace spirituality as all

aspects of the workplace that promote individual feelings of satisfaction through a sense of connection to a larger force

**The GDR and its History**, 2021-11-08 Ten years have now passed since the political changes in the GDR which led to unification A central feature of the past decade has been the discussion concerning the process of historical evaluation of the GDR's 40 year existence This volume takes as its main focus the official process of Geschichtsaufarbeitung as represented by the two Enquete Commissions set up by the Bundestag which completed their work in 1994 and 1998 respectively Several of the contributions are by leading participants in the Commissions such as Dorothee Wilms the last CDU Minister for Inner German Relations and Markus Meckel MdB SPD the last Foreign Minister of the GDR and the original proposer of the Commissions in the Bundestag Other chapters look at the various independent initiatives in the area of Geschichtsaufarbeitung the role of the Commissions in the context of the overall Geschichtsdebatte in relation to the GDR and the attitude of the PDS to the official process of Geschichtsaufarbeitung Other topics include an analysis of the way in which Buchenwald was presented to the public after unification a re evaluation of the Zwangsvereinigung of the KPD and SPD an examination of the role of education in the GDR the controversial way in which the Churches were treated in the work of the first Commission which led to the dissenting report by the SPD members and the legacy of GDR architecture This is the first volume in English on the Enquete Commissions and will be of interest to students and teachers of contemporary German politics and history It contains thirteen contributions seven in English and six in German *Gdr and Its History* Peter Barker, 2000 Ten years have now passed since the political changes in the GDR which led to unification A central feature of the past decade has been the discussion concerning the process of historical evaluation of the GDR's 40 year existence This volume takes as its main focus the official process of Geschichtsaufarbeitung as represented by the two Enquete Commissions set up by the Bundestag which completed their work in 1994 and 1998 respectively Several of the contributions are by leading participants in the Commissions such as Dorothee Wilms the last CDU Minister for Inner German Relations and Markus Meckel MdB SPD the last Foreign Minister of the GDR and the original proposer of the Commissions in the Bundestag Other chapters look at the various independent initiatives in the area of Geschichtsaufarbeitung the role of the Commissions in the context of the overall Geschichtsdebatte in relation to the GDR and the attitude of the PDS to the official process of Geschichtsaufarbeitung Other topics include an analysis of the way in which Buchenwald was presented to the public after unification a re evaluation of the Zwangsvereinigung of the KPD and SPD an examination of the role of education in the GDR the controversial way in which the Churches were treated in the work of the first Commission which led to the dissenting report by the SPD members and the legacy of GDR architecture This is the first volume in English on the Enquete Commissions and will be of interest to students and teachers of contemporary German politics and history It contains thirteen contributions seven in English and six in German **Hollywood Behind the Wall** Daniela Berghahn, 2005-07-15 This book is a representative history of East German film culture from 1946 to the

present examining both DEFA's celebrated classics and the most acclaimed post unification feature films by East German directors. As Berghahn shows, East German cinema occupies an ambivalent position between German national cinema on the one hand and East European and Soviet cinema on the other. It includes a wide-ranging exploration of post unification cinema from East Germany including cult films such as *Sun Alley* and *Goodbye Lenin* and provides contextualized readings of twenty significant films referencing one hundred and ninety East German films in total along with numerous West German and East European classics.
