Managing the Canadian Mosaic in Wartime Ivana Caccia, 2010 With the outbreak of the Second World War in Europe The Canadian government realised that it was necessary not only to invoke national consciousness but also to involve the twenty percent of the country's population who were not of British or French origins in the war effort *Managing the Canadian Mosaic in Wartime* explores the anxieties that characterised public debate and policy making of the time as well as the pragmatic view that the wartime project depended upon the successful integration of marginalised immigrant communities This history provides a key to understanding the development of multiculturalism in Canada At the time Canadian policies regarding ethnic communities were preoccupied with the involvement and loyalty these communities had with their homeland's politics And The fear of infiltration from either the left or right of the political spectrum Focusing on the creation and operation of under examined government institutions and committees devised to exercise subtle control of minority groups Ivana Caccia explores the shaping of Canadian identity The introduction of government inspired citizenship education And The management of ethnic relations mid century An engaging work that offers an important account of nation building in Canada And The treatment of ethnic minorities in times of heightened international tensions *Managing the Mosaic in Wartime* provides crucial insights into multicultural policy And The possibility of parallels with the preoccupations with security and surveillance in the aftermath of 9 11

Emigrant Worlds and Transatlantic Communities Elizabeth Jane Errington, 2007 *Emigrant Worlds and Transatlantic Communities* gives voice to the Irish Scottish English and Welsh women and men who negotiated the complex and often dangerous world of emigration between 1815 and 1845 Using information wanted notices that appeared in colonial newspapers as well as emigrants own accounts Errington illustrates that emigration was a family affair Individuals made their decisions within a matrix of kin and community their experiences shaped by their identities as husbands and wives parents and children siblings and cousins The Atlantic crossing divided families but it was also the means of reuniting kin and rebuilding old communities Emigration created its own unique world a world whose inhabitants remained well aware of the transatlantic community that provided them with a continuing sense of identity home and family

Being Neighbours Catharine Anne Wilson, 2022-10-28 Throughout history farm families have shared work and equipment with their neighbours to complete labour intensive time sensitive and time consuming tasks They benefitted

materially and socially from these voluntary flexible loosely structured networks of reciprocal assistance making neighbourliness a vital but overlooked aspect of agricultural change Being Neighbours takes us into the heart of neighbourhood the set of people near and surrounding the family through an examination of work bees in southern Ontario from 1830 to 1960 The bee was a special event where people gathered to work on a neighbour's farm like bees in a hive for a wide variety of purposes including barn raising logging threshing quilting turkey plucking and apple paring Drawing on the diaries of over one hundred men and women Catharine Wilson takes readers into families daily lives the intricacies of their labour exchange and their workways feasts and hospitality Through the prism of the bee and a close reading of the diaries she uncovers the subtle social politics of mutual dependency the expectations neighbours had of each other and their ways of managing conflict and crisis This book adds to the literature on cooperative work that focuses on evaluating its economic efficiency and complicates histories of capitalism that place communal values at odds with market orientation Beautifully written engaging and richly detailed and illustrated Being Neighbours reveals the visceral textures of rural life *Ireland's Empire* Colin Barr, 2020-01-16 Examines the complex relationship between Roman Catholicism and the global Irish diaspora in the nineteenth century for the first time Demography, State and Society Enda Delaney, 2000 The process of migration is associated with longing homesickness the shock of exposure to a new culture and sometimes escape and freedom Between the foundation of the new Irish state in 1921-22 and the early 1970s approximately one and one half million **Between Raid and Rebellion** William Jenkins, 2013-02-01 Winner Joseph Brant Award 2014 Ontario Historical Society Winner Clio Prize Ontario 2014 Canadian Historical Association Winner The James S Donnelly Sr Prize 2014 American Conference for Irish Studies Winner Geographical Society of Ireland Book of the Year Award 2013-2015 In *Between Raid and Rebellion* William Jenkins compares the lives and allegiances of Irish immigrants and their descendants in one American and one Canadian city between the era of the Fenian raids and the 1916 Easter Rising Highlighting the significance of immigrants from Ulster to Toronto and from Munster to Buffalo he distinguishes what it meant to be Irish in a loyal dominion within Britain's empire and in a republic whose self-confidence knew no bounds Jenkins pays close attention to the transformations that occurred within the Irish communities in these cities during this fifty year period from residential patterns to social mobility and political attitudes Exploring their experiences in workplaces homes churches and meeting halls he argues that while various social cultural and political networks were crucial to the realization of Irish mobility and respectability in North America by the early twentieth century place related circumstances were linked to wider national loyalties and diasporic concerns With the question of Irish Home Rule animating debates throughout the period Toronto's unionist sympathizers presented a marked contrast to Buffalo's nationalist agitators Although the Irish had acclimated to life in their new world cities their sense of feeling Irish had not faded to the degree so often assumed A groundbreaking comparative analysis *Between Raid and Rebellion* draws upon perspectives from history and geography to enhance our understanding of the Irish experiences in
