Brian Lasater, 2005-12 About my book Although there is nothing new under the sun it is always useful to reevaluate old ideas and principles and express them in new and original ways There are many books on the Kabala but based on what I have seen and read there is room for a comprehensive approach Many authors leave out fundamental principles altogether like the authors who don't even mention the celestial bodies and the Zodiac On the other hand scholars of mythology generally do not even refer to astrology and the Kabala and apparently do not recognise that the celestial bodies were the principle gods of the ancient pantheon My approach has been to briefly discuss some of the fundamental elements of the old theologies and relate them to astrology and the Kabala from a modern perspective Thus I have laid an essential foundation for the Kabala and astrology and placed them in the context of Greek and Roman mythology Since I have adopted a broad perspective the reader has a basis for pursuing these subjects in a variety of ways I have not seen any other book that relates astrology and the Kabala to Greek and Roman mythology the Bible and then relates these to Mesopotamian and Egyptian mythology The ancient theologies have many fundamental elements in common and these form key parts of the foundation of astrology and the Kabala In addition I have given a concise discussion of the Four Alchemical Elements the Signs of the Zodiac and the Celestial Bodies and placed them in a Kabbalistic framework To truly comprehend the Kabala and Astrology it must be remembered that it is one complete whole and it is broken down to make analysis practicable Therefore I have discussed Creation and the Ten Sephiroth the trinity in some of its forms as sacred elements in Creation and in Man and Woman the Four Elements and the Zodiac Then from a mythological and theological perspective I have looked briefly at Mesopotamia and Egypt As a counterweight to our cynical age I have looked at the Golden Age of Atlantis and the mythological heroes and heroines of the primordial past serve as exemplars and encourage us to strive to attain some of Occidental Civilization's highest ideals On the other hand Atlantis is a warning the misuse of knowledge and power leads to the destruction of civilization Further from a theological

and mythical perspective the Sephiroth were divine instruments used in Creation. On a more mundane level the Kabala and astrology are a means to know ourselves and obey the injunction Know Thyself that used to be inscribed on Apollo's temple at Delphi. This book is based on the work of the ancients whose writing is superb. The quotes in English from the ancients are the best part of the book and it is a pleasure to read. *The Wiccan's Dictionary of Prophecy and Omens* Gerina Dunwich, 2018-11-27

THE WICCAN'S DICTIONARY OF PROPHECY AND OMENS

Divination, the art of obtaining knowledge of the future or of secret things, has played an important role in ancient cultures and religions as well as in modern times. It was once a method of sacred communication with the spirit world and a way to determine the will of the gods by means of visions and predictions. In the present age, divination, including astrology, palmistry, and the I Ching, continues to be a popular method of looking into the future or past as well as revealing that which was once unknown. In fact, a large number of our contemporary customs and superstitions are remnants of the once powerful divinatory rituals of the ancient pagan religions. The Wiccan's Dictionary of Prophecy and Omens details over two hundred methods of divination from those used in antiquity to those in use today. It traces the history of these practices and provides examples of nearly every known divinatory art. This is an essential resource for followers of today's Wiccan lifestyle by modern Wiccan expert Gerina Dunwich. *The Complete Astrologer* Derek Parker, Julia Parker, 1975
