Country Study Guide Volume 1 Strategic Information and Developments IBP USA, 2013-08 Greece Country Study Guide Strategic Information and Developments Volume 1 Strategic Information and Developments *India after Naxalbari* Bernard D'Mello, 2018-07-23 How the 1967 uprising at Naxalbari inspired a generation of resistance across India and the South Asian subcontinent Although the 1967 revolutionary armed peasant uprising in Naxalbari at the foot of the Indian Himalayas was brutally crushed the insurgency gained new life elsewhere in India In fact this revolt has turned out to be the world's longest running people's war and Naxalbari has come to stand for the road to revolution in India What has gone into the making of this protracted Maoist resistance Bernard D Mello's fascinating narrative answers this question by tracing the circumstances that gave rise to India's 1968 decade of revolutionary humanism and those that led to the triumph of the 1989 era of appallingly unequal growth condoned by Hindutva nationalism the Indian variant of Nazism Will what remain of India's continuing 1968 bring twenty first century New Democracy to the collective agenda Or will the ongoing regression of 1989 lead the way to full blown semi fascism and sub imperialism India after Naxalbari is far more than a simple history of the ongoing Naxalite Maoist resistance it is a deeply passionate and informed work that not only captures the essence of modern Indian history but also tries to comprehend the present in the context of that history so that the oppressed can exercise their power to influence its shape and outcome *The New Populism and the New Politics* Paul A. Taggart, 2016-07-27 Two of the major forces that have made an impact on West European politics in recent years have been Green and New Populist parties While they differ radically in their ideological positions policy prescriptions and bases of support taken together they represent the left and right versions of a protest against the general direction and form of contemporary politics Surveying the fortunes of these two types of parties in different countries the author develops a framework for explaining their relative success and failure Using the specific cases of two Swedish protest parties the Green Party and New Democracy a systematic comparison is made of their electoral constituencies party organization and elite behaviour to show that there are common origins similar difficulties but divergent strategies The case study reveals the different way in which political systems incorporate contemporary left and right forms of protest *Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... existing state powers and win consent for revolutionary rule and transform society Economic reform is now creating new socio economic groups and the CCP is adjusting the united front and the MPGs to co opt their representatives and deliberately forestall the evolution of an autonomous civil society and middle class which could challenge CCP rule This has resulted in a new and expanding role for the united front the MPGs and organisations representing the new interest groups

Los Angeles School Journal ,1920 **Greece in Crisis** Ourania Hatzidaki,Dionysis Goutsos,2017-07-26 Since its onset the Greek crisis has given rise to an abundance of relevant text and talk This volume offers an insider s view of the discursive manifestations of the crisis focusing on discourses in the Greek language and by Greek social actors The contributions investigate the diverse ways in which the crisis has been communicated to the public by domestic policymakers or debated by elite non elite and resistant participants Crisis discourses are also examined in the light of the rise of neo nationalism and the extreme Right in both Greece and Cyprus All contributions seek to meaningfully combine critical discourse and corpus linguistics perspectives for a better understanding of the Greek crisis as a socio economic episode and as a discourse construct Discourse driven quantification and corpus driven quantification complement each other in the critical examination of textual data as diverse as official government communications party leader speeches newspaper articles public assembly resolutions song lyrics social media commentary and terrorist proclamations Democratic Transitions Sujian Guo,Gary A Stradiotto,2014-04-03 Democratic transitions have occurred in many countries in various regions across the globe such as Southern Europe Latin America Africa East and Southeast Asia Eastern Europe and the Middle East and these nations have undergone simultaneously political economic and social transformations Yet the patterns and characteristics of transitions have varied significantly and different modes of transition have resulted in different outcomes This book offers cross national comparisons of democratic transition since the turn of the twentieth century and asks what makes democracies succeed or fail In doing so it explores the influence the mode of transition has on the longevity or durability of the democracy by theoretically examining and quantitatively testing this relationship The authors argue that the mode of transition directly impacts the success and failure of democracy and suggest that cooperative transitions where opposition groups work together with incumbent elites to peacefully transition the state result in democracies that last longer and are associated with higher measures of democratic quality Based on a cross national dataset of all democratic transitioning states since 1900 this book will be of great interest to students and scholars of international politics comparative politics and democracy and democratization studies Future of Liberation Theology Ivan Petrella,2006-06-28 There is a notion amongst some academics that Latin American Liberation Theology has had its day a dream killed off by the Nicaraguan and Salvadoran revolutions the 1989 demise of socialism and the end of history claims of the champions of capitalism However in this book Petrella proves this to be an ill conceived notion and shows that this theology can be reinvented to bring its preferential option for the poor into the real world The actualisation of historical projects is possible by adopting the methods developed

by the Brazilian champion of critical legal studies Robert Unger Doing so will entail the rejection of these theologians unitary concepts of a despised and rejected capitalism and a canonized and accepted socialism Petrella argues for a reconstruction of these concepts and those of democracy and property too He closely analyses the differences in democracy and capitalism as practised across the USA and Europe in support for the reconstruction of these concepts bringing about far reaching suggestions for the future of liberation theology How the Red Sun Rose Gao Hua,2018-11-15 This work offers the most comprehensive account of the origin and consequences of the Yan an Rectification Movement from 1942 to 1945 The author argues that this campaign emancipated the Chinese Communist Party from Sovietinfluenced dogmatism and unified the Party preparing it for the final victory against the Nationalist Party in 1949 More importantly this monograph shows in great detail how Mao Zedong established his leadership through this partywide political movement by means of aggressive intraparty purges thought control coercive cadre examinations and total reorganizations of the Party s upper structure The result of this movement not only set up the foundation for Mao s new China but also deeply influenced the Chinese political structure today The Chinese version of How the Red Sun Rose was published in 2000 and has had nineteen printings since then

Viable Utopian Ideas Art Shostak,2015-06-11 Utopias whether philosophical literary or actual experiments are attempts to solve all social problems In the wake of the attack on the World Trade Center unfolding corporate scandals and other devastating shocks it is natural to search for practical lessons in utopian literature In this collection noted sociologists renew the call to develop an altruistic social order They address a wide variety of topics as they look for viable utopian ideas that can be applied to today s society Written in an engaging jargon free style and directed to introductory sociology students as well as anyone concerned with social problems the book provides both visionary ideals and insights for pragmatic decision making as we venture into an uncertain future **Censorship, Surveillance, and Privacy: Concepts, Methodologies, Tools, and Applications**

Management Association, Information Resources,2018-10-05 The censorship and surveillance of individuals societies and countries have been a long debated ethical and moral issue In consequence it is vital to explore this controversial topic from all angles **Censorship Surveillance and Privacy Concepts Methodologies Tools and Applications** is a vital reference source on the social moral religious and political aspects of censorship and surveillance It also explores the techniques of technologically supported censorship and surveillance Highlighting a range of topics such as political censorship propaganda and information privacy this multi volume book is geared towards government officials leaders professionals policymakers media specialists academicians and researchers interested in the various facets of censorship and surveillance **A Simple Justice** Melanie Beals Goan,2020-11-12 When the Declaration of Independence was signed by a group of wealthy white men in 1776 poor white men African Americans and women quickly discovered that the unalienable rights it promised were not truly for all The Nineteenth Amendment eventually gave women the right to vote in 1920 but the change was not welcomed by people of all genders in politically and religiously conservative Kentucky As a result the

suffrage movement in the Commonwealth involved a tangled web of stakeholders entrenched interest groups unyielding constitutional barriers and activists with competing strategies In *A Simple Justice* Melanie Beals Goan offers a new and deeper understanding of the women s suffrage movement in Kentucky by following the people who labored long and hard to see the battle won Women s suffrage was not simply a question of whether women could and should vote it carried more serious implications for white supremacy and for the balance of federal and state powers especially in a border state Shocking racial hostility surfaced even as activists attempted to make America more equitable Goan looks beyond iconic women such as Susan B Anthony and Elizabeth Cady Stanton to reveal figures whose names have been lost to history Laura Clay and Madeline McDowell Breckinridge led the Kentucky movement but they did not do it alone This timely study introduces readers to individuals across the Bluegrass State who did their part to move the nation closer to achieving its founding ideals

The Emergence of Global Maoism Matthew Galway, 2022-03-15 *The Emergence of Global Maoism* examines the spread of Mao Zedong s writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao s indigenization of Marxism Leninism and in the Communist Party of Kampuchea s indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao s greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao s thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change *The Emergence of Global Maoism* illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

National Communism Peter Zwick, 2019-03-04 According to the generally accepted view that nationalism is alien to communism and that internationalism disallows divisions based on nations the existence of national communism is often interpreted as a sign of the breakup of the world communist movement This book reexamines the evidence on the role of nations and national variations beginning with Marx and moving through Leninism and Stalinism to Titoism Maoism Castroism and current national liberation movements e g in Nicaragua Professor Zwick concludes that nationalism has always been an inherent element of communism He demonstrates with numerous concrete cases that rather than signaling the decline of communism national adaptation is the source of its strength The limits of national variation as defined by the Brezhnev Doctrine are precisely defined and examined in the cases of Hungary Czechoslovakia and Poland The book bridges the gap between Marxist theory and communist practice with respect to the central role that nationalism

will continue to play in the contemporary world No other study presents this material in a cross national comparative perspective *Critical Citizens* Pippa Norris,1999 *Critical Citizens* is a study on attitudes towards nation governance political institutions and political leadership The contributors argue that the crisis in global democracy has been greatly exaggerated in recent years *China in Revolution* Mark Selden,2016-09-16 Originally published in the early 1970s The Yen'an Way in Revolutionary China has proved to be one of the most significant and enduring books published in the field In this new critical edition of that seminal work Mark Selden revisits the central themes therein and reconsiders them in light of major new theoretical and documentary understandings of the Chinese communist revolution **Civil War in China** Suzanne Pepper,1999-07-22 Many books have tried to analyze the reasons for the Chinese communist success in China s 1945_1949 civil war but Suzanne Pepper s seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war_not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist led national government in Beijing this book is essential reading for anyone seeking a nuanced understanding of twentieth century Chinese politics
