A New Dictionary of Political Analysis Geoffrey K. Roberts, Alistair Edwards, 1991 Alfabetisk gennemgang af en række politologiske begreber *The Dictionary of Political Analysis* Jack C. Plano, Robert Edwon Riggs, Helenan S. Robin, 1982

A Dictionary of Political Analysis Geoffrey K. Roberts, 1971 [The Handbook of Political Behavior](#) Samuel Long, 2012-12-06 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters *Dictionary of Political Analysis* Jack C. Plano, Robert Edwon Riggs, 1973 *Information Sources of Political Science* Stephen W. Green, Douglas J. interpretive literature in the history of political thought is now vast complex and esoteric posing as much a barrier to the understanding of the undergraduate student as it offers assistance This unique and innovative text provides the student with a guide through this maze of argument Each chapter sets out the major positions and debates that surround the texts of key thinkers analyzes major problems of interpreting them examines the sources of disagreement and evaluates the different interpretations in terms of their strengths weaknesses and contributions to scholarship

Ideology, Social Theory, and the Environment William D. Sunderlin, 2003 Does human population growth threaten the environment or does it guarantee we will safeguard it Is economic growth the key ecological problem or is it in fact the solution What will be the leading force to save the planet civil society government or private enterprise This book shows that these polemical debates are governed not so much by access to facts as they are by the political ideology of the expert advancing a particular argument Moreover the thoughts of these experts tend to be based largely in just one of three competing streams of political thought the left the center or the right Drawing on social theory the author explains the philosophical origins of this tendency to rely on just one of three traditions and why this poses a serious obstacle to conceptualizing the cause nature and resolution of environmental problems Sunderlin argues that laying the foundation for a livable world involves giving conscious and dedicated attention to the core tenets of all three political traditions action against class inequality and advocacy of social justice within and among countries reformation of laws and policies emanating from the halls of power and technological innovation in centers of research and wholesale cultural change and promotion of individual initiative responsibility and creativity

Dibié, 2001 This book attempts to correct the impression created by Western media that Sub Saharan Africa is in a state of anarchy The text analyzes and shows that while many Sub Saharan African nations are experiencing the worst time of their history others are enjoying their best times Thus the text argues that although some parts of Africa are experiencing crisis the continent is also a fine region of major new experiments in governance peace building and free market transformation programs Finally the text focuses some of its analyses on the colonial legacy economic and ethnic transformation indigenous institutions and other forces that seem to influence the governance of Sub Saharan African nations

Court's Democratic Spaces Jocelyn J. Evans, Keith Gaddie, 2021-10-28 Atop broad stone stairs flanked by statues of ancient lawgivers the U S Supreme Court building stands as a shining temple to the American idea of justice As solidly as the building occupies a physical space in the nation s capital its architecture defines a cultural social and political space in the public imagination Through these spaces this book explores the home of the most revered institution of U S politics its origin history and meaning as an expression of democratic principles The U S Supreme Court building opened its doors in 1935 Although it is a latecomer to the capital the Court shares the neoclassical style of the older executive mansion and capitol building and thus provides a coherent architectural representation of governmental power in the capital city More than the story of the construction of one building or its technical architectural elements The U S Supreme Court s Democratic Spaces is the story of the Court s evolution and its succession of earlier homes in Washington D C Philadelphia and New York This

timely study of how the Supreme Court building shapes Washington as a space and a place for political action and meaning yields a multidimensional view and deeper appreciation of the ways that our physical surroundings manifest who we are as people and what we value as a society **The Cumulative Book Index** ,1912 A world list of books in the English language
