Poems Containing History Gary Grieve-Carlson, 2013-11-08 Ezra Pound's definition of an epic as a poem containing history raises questions how can a poem contain history And if it can does it help us to think about history in ways that conventional historiography cannot *Poems Containing History Twentieth Century American Poetry's Engagement with the Past* by Gary Grieve Carlson argues that twentieth century American poetry has contained and helped its readers to think about history in a variety of provocative and powerful ways Tracing the discussion of the relationship between poetry and history from Aristotle's *Poetics* to Norman Mailer's *The Armies of the Night* and Hayden White's *Metahistory* the book shows that even as history evolves into a professional academic discipline in the late nineteenth century and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects twentieth century American poets continue to take history as the subject of their major poems Sometimes they endorse the views of mainstream historians as Stephen Vincent Benét does in *John Brown's Body* but more often they challenge them as do Robert Penn Warren in *Brother to Dragons* Ezra Pound in *The Cantos* or Charles Olson in *The Maximus Poems* In *Conquistador* Archibald MacLeish illustrates Aristotle's claim that poetry tells more philosophical truths about the past than history does while in *Paterson* William Carlos Williams develops a Nietzschean suspicion of history's value Three major American poets T S Eliot in *Four Quartets* Hart Crane in *The Bridge* and Carolyn Forché in *The Angel of History* present different challenges to professional historiography's assumption that the past is best understood in strictly material terms *Poems Containing History* devotes chapters to each of these poets and offers a clear sense of the seriousness with which American poetry has engaged the past as well as the great variety of those engagements
