New Directions in the Social Sciences and Humanities in China Michael B. Yahuda, 1987-06-18 New Directions in the Social Sciences and Humanities in China Michael B. Yahuda, 1987 *Unstately Power* Lynn T. White, III, 2015-06-03 A critique of America's flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews **Unstately Power** Lynn T. White, 1998 **New Directions in Africa-China Studies** Chris Alden, Daniel Large, 2018-07-17 Interest in China and Africa is growing exponentially Taking a step back from the events driven reactions characterizing much coverage this timely book reflects more deeply on questions concerning how this subject has been is being and can be studied It offers a comprehensive multi disciplinary and authoritative contribution to Africa China studies Its diverse chapters explore key current research themes and debates such as agency media race ivory development or security using a variety of case studies from Benin Kenya and Tanzania to Angola Mozambique and Mauritius Looking back it explores the evolution of studies about Africa and China Looking forward it explores alternative future possibilities for a complex and constantly evolving subject Showcasing a range of perspectives by leading and emerging scholars New Directions in Africa China Studies is an essential resource for students and scholars of Africa and China relations Unstately Power: Local causes of China's economic reforms Lynn T. White, 1998 China's dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping This fascinating new study by one of the West's leading authorities on contemporary China shows however that reforms began and are maintained by local networks They emerged first in the economy partly as unintended results of previous policies Agricultural extension in Mao Zedong's time freed so much labor from the land in rich areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor taking materials and markets away from state industries This caused socialist control of input prices and commodity flows to collapse by the mid 1980s As a result shortages and inflation bedeviled the economy the state ran deficits management decentralized local banks proliferated and immigration to cities soared Professionalizing Resrch in Post-mao Chi , **Just One Child** Susan Greenhalgh, 2008 Population politics are a major issue in China Susan Greenhaigh explores the origins and development of the one child policy from the late 1970s to the present day showing how sociopolitical life in China has been subject to scientization and statisticalization China Marches West Peter C Perdue, 2009-06-30 From about 1600 to 1800 the Qing empire of China expanded to unprecedented size Through astute diplomacy economic investment and a series of ambitious military campaigns into the heart of Central Eurasia the Manchu rulers defeated the Zunghar Mongols and brought all of modern

Xinjiang and Mongolia under their control while gaining dominant influence in Tibet The China we know is a product of these vast conquests Peter C Perdue chronicles this little known story of China's expansion into the northwestern frontier Unlike previous Chinese dynasties the Qing achieved lasting domination over the eastern half of the Eurasian continent Rulers used forcible repression when faced with resistance but also aimed to win over subject peoples by peaceful means They invested heavily in the economic and administrative development of the frontier promoted trade networks and adapted ceremonies to the distinct regional cultures Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control what holds the Chinese nation together and how its relations with the Islamic world and Mongolia developed He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule At the same time China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies China Marches West is a tour de force that will fundamentally alter the way we understand Central Eurasia **Handbook of**

Contemporary Behavioral Economics Morris Altman, 2006 This groundbreaking handbook of original works by leading behavioral economists is the first comprehensive articulation of behavioral economics theory At a time when conventional approaches have failed to resolve key economic concerns the book provides a provocative alternative view of how economic decisions are actually made *China-Europe Relations* David Shambaugh, Eberhard Sandschneider, Zhou Hong, 2007-09-24 Written by a hugely experienced team of international contributors from China Europe and the US this book takes an innovative and insightful look at one of the most important bilateral relationships in international relations this century

The Chinese State at the Borders Diana Lary, 2011-11-01 In this ground breaking study Hsiao Ting Lin demonstrates that the Chinese frontier was the subject neither of concerted aggression on the part of a centralized and indoctrinated Chinese government nor of an ideologically driven nationalist ethno-politics Instead nationalist sovereignty over Tibet and other border regions was the result of rhetorical grandstanding by Chiang Kai shek and his regime Tibet and Nationalist China's Frontier makes a crucial contribution to the understanding of past and present China Tibet relations A counterpoint to erroneous historical assumptions this book will change the way Tibetologists and modern Chinese historians frame future studies of the region *New Directions in the Study of China's Foreign Policy* Robert S. Ross, 2006 Ten outstanding specialists in Chinese foreign policy draw on new theories methods and sources to examine China's use of force its response to globalization and the role of domestic politics in its foreign policy *Communism and Reform in East Asia (RLE Modern East and South East Asia)* David S. G. Goodman, 2015-04-10 The West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential market The West's attitude is reinforced by the recognition of East Asia's economic importance more generally a perception which in itself undoubtedly stimulated reform in

the region's communist party states The causes extent and consequences of reform in the East Asian communist party states are the concerns of the contributions to this volume first published in 1988 It includes chapters on the reform process in China North Korea Vietnam and Mongolia as well as examinations of the roles played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process of economic and political liberalization brought about by the drive for economic modernization the production imperative is a misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even a necessary condition In individual countries the communist party's search for legitimacy a change of leadership or the relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a consequence of the communist party's desire to reform rather than a cause The absence of a uniform pattern does not detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of collective life ownership and rural society
