*The New Economy in Transatlantic Perspective* Kurt Huebner, 2005-02-03 Pt 1 Macroeconomics of innovation pt 2 Institutional matrixes pt 3 Spaces of innovation *The New Economy in Transatlantic Perspective* Kurt Huebner, 2005-02-03 What's left from the new economy This book takes an unfashionable perspective and shows that despite all the mistaken ideas and exaggerations the technological changes of the 1990s still have important effects today Economic history shows that technological revolutions tend to generate deep economic and social crises before a temporary state of equilibrium is reached The established modes of accumulations and regimes of regulation of national capitalisms and international capitalism have been undermined by the collapse of the high tech asset bubble Financial markets are still in disarray What can be observed however is that national economies are better positioned to tackle the crisis than others Why is this This and other important questions are tackled by an international team of contributors including Daniele Archibugi Harald Hagemann Bruno Amable Martin Heidenreich and David Gibbs This volume should be of great interest to all those working at the intersection of international politics and economics *The New Economy in Transatlantic Perspective* Kurt Hubner, 2005

The New Economy and Economic Growth in Europe and the US David B. Audretsch, Paul J.J. Welfens, 2013-06-29 The strong productivity growth of the US and Scandinavian countries in Europe in the 1990s has raised the question whether the ICT sector information and communication technology that is computers plus telecommunications plus digital services is the new driving engine of high growth in leading OECD countries Judging by the empirical evidence for the US including a new study by McKinsey which gives mixed evidence it is still too early to clearly dismiss Robert G Gordon's hypothesis that the acceleration of US output growth is due to cyclical factors and increased productivity growth in the computer sector The counter hypothesis is associated with research by Stiroh and others who argue that there are positive productivity spillover effects from ICT to other sectors Indeed it is not clear ex ante whether mainly the Old Economy or the so called New Economy stands to benefit most from high innovation rates and strong productivity shifts associated with the spreading of digital services Interestingly the increased economic role of the internet also contributes to the internationalization of the economy since more services have become tradable and growing import competition itself could stimulate productivity growth and thus contribute to higher growth If ICT plays a key role in the new economy there are important implications in the differential degree to which Germany and the US have implemented ICT

**Environmental Sustainability in Transatlantic Perspective** Manuela Achilles, Dana Elzey, 2013-09-12 Experts from business academia governmental agencies and non profit think tanks to form a transnational and multi disciplinary perspectives on the combined challenges of environmental sustainability and energy security in the United States and Germany *Digital Jihad* Erik Skare, 2016-10-15 A new and innovative form of dissent has emerged in response to the Israeli occupation of Palestine Dubbed electronic jihad this approach has seen organized groups of Palestinian hackers make

international headlines by breaching the security of such sites as the Tel Aviv Stock Exchange AVG Avira Whatsapp and BitDefender Though initially confined to small clandestine groups hacktivism is now increasingly being adopted by militant Palestinian parties including Hamas and Palestinian Islamic Jihad who have gone so far as to incorporate hackers into their armed brigades Digital Jihad is the first book to explore this rapidly evolving and still little understood aspect of the Palestinian resistance movement Drawing on extensive interviews with hackers and other activists it provides a unique and fascinating new perspective on the Palestinian struggle

**The Euro and the Dollar in a Globalized Economy** Pedro Gomis-Porqueras, 2016-12-05 The dollar has been the dominant currency of the world economy for almost a century since 2002 the euro has gained widespread international acceptance resulting in important institutional economic and financial changes both for the euro zone the United States and the world economies affecting foreign exchange and financial markets as well as economic activities around the world In years to come the international role of the euro will hinge on the validity of the fundamental idea underlying its creation namely that important components of sovereignty can be pooled and shared among nations in the pursuit of common economic and political objectives This key book assesses the international role of the euro discusses its impact on global financial markets shifting global exchange rate relationships and their implications With input from various disciplines economics business and political science it foment discussions intended to facilitate an exchange of ideas among academics practitioners and the local business community

Macroeconomics and the History of Economic Thought H.M. Krämer, Heinz Kurz, H.-M. Trautwein, 2012-03-29 The essays in this Festschrift have been chosen to honour Harald Hagemann and his scientific work They reflect his main contributions to economic research and his major

fields of interest The essays in the first part deal with various aspects within the history of economic thought The second part is about the current state of macroeconomics The essays in the third part of the book cover topics on economic growth and structural dynamics

**International Trade and Neoliberal Globalism** Paul Bowles, Ray Broomhill, Teresa Gutiérrez-Haces, Stephen McBride, 2013-05-13 International trade must be analysed within the historical context within which it occurs Behind the statistics on trade flows lie power structures class interests and international hierarchies These change over time and how countries respond to them has critical implications for their citizens' well-being In this book the history of trade in Australia Canada and Mexico is analysed Trade agreements are analysed in detail to explore the new forms that dependence and subordination have taken Arguing that the free trade agreements are significantly biased in favour of the United States the contributors analyse how each of the three countries are being subject to specific forms of re-peripheralisation and examine possible alternatives for a progressive future based on an integration in the global economy which enhances rather than limits democracy and social justice By providing an historical and critical account of trade policy in the three countries the book provides a welcome antidote to the ahistorical accounts of free trade supporters

**The Creative Capital of Cities** Stefan Krätke, 2012-05-03 This book challenges the new urban growth concepts of the creative class and creative industries from a critical urban theory perspective Critiques Richard Florida's popular books about cities and the creative class Presents an alternative approach based on analyses of empirical research data concerning the German urban system and the case study regions Hanover and Berlin Underscores that the culture industry takes a leading role in conforming with neoliberal conceptions of labor markets

**Europe, Canada and the Comprehensive Economic and Trade Agreement** Kurt Hübner, 2011-04-01 The Great Recession and the turn towards all forms of protectionism stress the relevance of international trade policy With the global economy undergoing deep structural changes the negotiations between Canada and the EU on a Comprehensive Economic and Trade Agreement CETA present a real time experiment that sheds light on the direction that the relationships between two economic units of the G8 will take For Canada an agreement with the EU would end its current dependency on the US for the EU an agreement with Canada would be a first with a G8 economy and indicate how its new trade strategy Global Europe will look like This book is the first to simultaneously analyze the undercurrents of this project and introduce the main topics at hand CETA is much more than a simple free trade agreement its breadth covers regulatory aspects in goods services and finance the opening of public procurement markets attitudes and policies of Canadian provinces towards liberalization climate policies and international leadership claims of the EU in comparison to Canadian policy attempts the challenges of the Euro project and the reform efforts and the challenges of the Euro as an international reserve currency CETA is a challenging project that will kick start enormous changes in trade policy making as well as in market openness in Canada It will mark the EU's efforts to re-make the Atlantic Economy This book provides deep insights into the ambiguity of the project and addresses the implications of a rapidly changing global

economy for trade policy Offering analysis of the financial industry banking trade policy climate change strategy and the Euro exchange rate this book should be of interest to students and policy makers alike *Hegemonic Transitions, the State and Crisis in Neoliberal Capitalism* Yildiz Atasoy, 2009-01-08 Offering a unique opportunity to make conceptual connections between neoliberalism and political authority this book examines the transformation in the world economy as an outcome of historically specific social relations Boosting Productivity Via Innovation and Adoption of New Technologies Thierry Tresselt, Stefano Scarpetta, 2004 Germany on the Road to Normalcy W. Reutter, 2004-04-02 Many thought that the German question that had shaped European history so catastrophically in the last century had been solved for good in 1990 And the last elections seemed to confirm that Germany was on the road to normalcy However at the beginning of the new century many see Germany as a problem case in Europe This raises the question about the future of Germany and the performance of the incumbent government The book addresses these issues by examining the policies and politics of the Red Green government and by putting recent changes and developments in this country in a long term perspective *Transatlantic Perspectives on Liberalization and Democratic Governance* Transatlantic Policy Consortium. Annual Colloquium, Eberhard Bohne, Charles F. Bonser, Kenneth M. Spence, 2004 The first volume of the new Transatlantic Public Policy series comprises contributions by members of the Transatlantic Policy Consortium TPC Earlier versions of the papers published in this volume have been presented and discussed at the TPC Colloquium in Speyer Germany in June 2003 on the theme of Liberalization and Democratic Governance They centre around subthemes which are critical on both sides of the Atlantic the role of the state with social and economic actors policy development and regulatory challenges to the state and the changing nature of democratic institutions and participation Some contributions represent updated versions of papers originally prepared for the TPC Colloquium in Pittsburgh Pennsylvania in September 2001 on public service ethics at both national and international levels The earlier publication of these papers fell victim to the terrorist attacks of that time The book provides a unique insight into European and US American public policy issues and thinking Creativity and the Global Knowledge Economy Michael A. Peters, Simon Marginson, Peter Murphy, 2009 This is a major work by three international scholars at the cutting edge of new research that investigates the emerging set of complex relationships between creativity design research higher education and knowledge capitalism It highlights the role of the creative and expressive arts of performance of aesthetics in general and the significant role of design as an underlying infrastructure for the creative economy This book tracks the most recent mutation of these serial shifts from postindustrial economy to the information economy to the digital economy to the knowledge economy to the creative economy to summarize the underlying and essential trends in knowledge capitalism and to investigate post market notions of open source public space The book hypothesizes that creative economy might constitute an enlargement of its predecessors that not only democratizes creativity and relativizes intellectual property law but also emphasizes the social conditions of creative work It documents how these profound shifts have brought to the forefront forms

of knowledge production based on the commons and driven by ideas not profitability per se and have given rise to the notion of not just knowledge management but the design of creative institutions embodying new patterns of work      *Worlds of Capitalism* Max Miller, 2012-11-12 Efforts to combine the outstanding economic performance in the decades following the Second World War with social security appear to be endangered half way through the first decade of the 21st century This book draws together an international team of contributors including Douglass North Harold Demsetz and Michael Piore to assess the current world order      **The Future of Europe** Frances K. Scott, 2001 In support of the Academy Assembly the Directorate of Libraries Dean of the Faculty produces a special bibliography of Air Force Academy library materials relevant to the current year's theme The theme for the 2001-2002 academic year is The Future of Europe Integration or Fragmentation This year's bibliography number 98 in the library's Special Bibliography Series was prepared by Frances K Scott Social Sciences Bibliographer and Reference Librarian who has prepared the annual Academy Assembly bibliography for the past ten years      **The Governance Gap** Penelope Simons, Audrey Macklin, 2014-07-11 This book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance The authors launch their account with a fascinating case study of Talisman Energy's experience in Sudan informed by their own experience as members of the 1999 Canadian Assessment Mission to Sudan Harker Mission Drawing on new governance reflexive law and responsive law theories the authors assess legal and other non binding governance mechanisms that have emerged since that time including the UN Guiding Principles on Business and Human Rights They conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations The authors contend that home state regulation while not a silver bullet has a crucial role to play in regulating such conduct They pick up where UN Special Representative John Ruggie's Guiding Principles on Business and Human Rights left off and propose an innovative robust and adaptable template for strengthening the regulatory framework of home states Their model draws insights from the theoretical literature leverages existing public private transnational national soft and hard regulatory tools and harnesses the specific strengths of state based governance This book will be of interest to academics policy makers students civil society and business leaders
