New England 1998:

Publication, 1995 *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954* United States. Internal Revenue Service, 1997 **On Imposture** Serge Margel, 2023-02-07 Imposture is an abuse of power It is the act of lying for one's own benefit of disguising the truth in order to mislead For Jean Jacques Rousseau however imposture is first and foremost power itself In *On Imposture* French philosopher Serge Margel explores imposture within Rousseau's *Discourses* *Confessions* and *Emile* For Rousseau taking power using it or abusing it are ultimately one and the same act Once there's power and someone grants themselves the means the right and the authority to force another's beliefs or actions there is imposture According to Rousseau imposture can be found through human history society and culture Using a deconstructionist method in the classic manner of Derrida *On Imposture* explores Rousseau's thought concerning imposture and offers a unique analysis of its implications for politics civil society literature and existentialist thought **The Papon Affair** Richard Joseph Golsan, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informal company **The Problems and Promise of Commercial Society** Dennis Carl Rasmussen, 2010-11 Adam Smith is popularly regarded as the ideological forefather of laissez faire capitalism while Rousseau is seen as the passionate advocate of the life of virtue in small harmonious communities and as a sharp critic of the ills of commercial society But in fact Smith had many of the same worries about commercial society that Rousseau did and was strongly influenced by his critique In this first book length comparative study of these leading eighteenth century thinkers Dennis Rasmussen highlights Smith's sympathy with Rousseau's concerns and analyzes in depth the ways in which Smith crafted his arguments to defend commercial society against these charges These arguments Rasmussen emphasizes were pragmatic in nature not ideological it was Smith's view that all things considered commercial society offered more benefits than the alternatives Just because of this pragmatic orientation Smith's approach can be useful to us in assessing the pros and cons of commercial society today and thus contributes to a debate that is too much dominated by both dogmatic critics and doctrinaire champions of our modern commercial society *The Pursuit of Laziness* Pierre Saint-Amand, 2011-05-09 We think of the Enlightenment as an era dominated by ideas of progress production and industry not an era that favored the lax and indolent individual But was the Enlightenment only about the unceasing improvement of self and society *The Pursuit of Laziness* examines moral political and economic treatises of the period and reveals that crucial eighteenth century texts did find value in idleness and nonproductivity Fleshing out Enlightenment thinking in the works of Denis Diderot Joseph Joubert Pierre de Marivaux Jean Jacques Rousseau and Jean Sim on Chardin this book explores idleness in all its guises and illustrates that laziness existed not as a vice of the wretched but as an exemplar of modernity and a resistance to beliefs about virtue and utility Whether in the dawdlings of Marivaux's journalist who delayed and procrastinated or in the subjects of Chardin's paintings who delighted in suspended playful time Pierre Saint Amand shows how eighteenth century works provided a strong argument for

laziness Rousseau abandoned his previous defense of labor to pursue reverie and botanical walks Diderot emphasized a parasitic strategy of resisting work in order to liberate time and Joubert's little known posthumous Notebooks radically opposed the central philosophy of the Enlightenment in a quest to infinitely postpone work Unsettling the stubborn view of the eighteenth century as an age of frenetic industriousness and labor The Pursuit of Laziness plumbs the texts and images of the time and uncovers deliberate yearnings for slowness and recreation Some images inside the book are unavailable due to digital copyright restrictions

Confessional Crises and Cultural Politics in Twentieth-Century America Dave Tell, 2015-01-14 Confessional Crises and Cultural Politics in Twentieth Century America revolutionizes how we think about confession and its ubiquitous place in American culture It argues that the sheer act of labeling a text a confession has become one of the most powerful and most overlooked forms of intervening in American cultural politics In the twentieth century alone the genre of confession has profoundly shaped and been shaped by six of America's most intractable cultural issues sexuality class race violence religion and democracy

Annotation, 1994 **American Remakes of British Television** Carlen Lavigne, Heather Marcovitch, 2011-03-31 Ever since Norman Lear remade the BBC series Till Death Us Do Part into All in the Family American remakes of British television shows have become part of the American cultural fabric Indeed some of the programs currently said to exemplify American tastes and attitudes from reality programs like American Idol and What Not to Wear to the mock

documentary approach of *The Office* are adaptations of successful British shows. Carlen Lavigne and Heather Marcovitch's *American Remakes of British Television Transformations and Mistranslations* is a multidisciplinary collection of essays that focuses on questions raised when a foreign show is adapted for the American market. What does it mean to remake a television program? What does the process of Americanization entail? What might the success or failure of a remade series tell us about the differences between American and British producers and audiences? This volume examines British to American television remakes from 1971 to the present. The American remakes in this volume do not share a common genre format or even level of critical or popular acclaim. What these programs do have in common, however, is the sense that something in the original has been significantly changed in order to make the program appealing or accessible to American audiences. The contributors display a multitude of perspectives in their essays. British to American television remakes as a whole are explained in terms of the market forces and international trade that make these productions financially desirable. *Sanford and Son* is examined in terms of race and class issues. Essays on *Life on Mars* and *Doctor Who* stress television's role in shaping collective cultural memories. An essay on *Queer as Folk* explores the romance genre and also talks about differences in national sexual politics. An examination of *The Office* discusses how the American remake actually endorses the bureaucracy that the British original satirized.

Love's Enlightenment Ryan Patrick Hanley, 2017-03-30 This book examines the transformation of the traditional understanding of love by four key Enlightenment thinkers: Hume, Adam Smith, Rousseau, and Kant.

Medicine and Social Justice Rosamond Rhodes, Margaret Battin, Anita Silvers, 2012-09-13 This unique and comprehensive second edition of an important volume presents writing from renowned authors about achieving social justice in medicine. Each of the 42 chapters addresses continuing and emerging policy challenges facing medicine. They deepen our understanding of theoretical and practical aspects of issues in the contemporary debate.

The Making of Home Judith Flanders, 2014-10-01 The idea that home is a special place, a separate place, a place where we can be our true selves is so obvious to us today that we barely pause to think about it. But as Judith Flanders shows in this revealing book, home is a relatively new concept. When in 1900 Dorothy assured the citizens of Oz that "There is no place like home," she was expressing a view that was a culmination of 300 years of economic, physical, and emotional change. In *The Making of Home*, Flanders traces the evolution of the house across northern Europe and America from the 16th to the early 20th century and paints a striking picture of how the homes we know today differ from homes through history. The transformation of houses into homes, she argues, was not a private matter but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution. Without home, the modern world as we know it would not exist, and as Flanders charts the development of ordinary household objects from cutlery, chairs, and curtains to fitted kitchens, plumbing, and windows, she also peels back the myths that surround some of our most basic assumptions, including our entire notion of what it is that makes a family. As full of fascinating detail as her previous bestsellers, *The Making of Home* is also a book teeming with original and provocative

used before in scholarly writing that were recently declassified using the Freedom of Information Act or released during litigation *Greenberg v FBI* Ivan Greenberg considers the diverse ways that government spying has crossed the line between legal intelligence gathering to criminal action While a number of studies focus on government policies under George W Bush's War on Terror Greenberg is one of the few to situate the primary role of the FBI as it shaped and was reshaped by the historical context of the new American Surveillance Society

The World for Sale Javier Blas, Jack Farchy, 2021-03-01 The modern world is built on commodities from the oil that fuels our cars to the metals that power our smartphones We rarely stop to consider where they have come from But we should In *The World for Sale* two leading journalists lift the lid on one of the least scrutinised corners of the world economy the workings of the billionaire commodity traders who buy hoard and sell the earth's resources It is the story of how a handful of swashbuckling businessmen became indispensable cogs in global markets enabling an enormous expansion in international trade and connecting resource rich countries no matter how corrupt or war torn with the world's financial centres And it is the story of how some traders acquired untold political power right under the noses of western regulators and politicians helping Saddam Hussein to sell his oil fuelling the Libyan rebel army during the Arab Spring and funnelling cash to Vladimir Putin's Kremlin in spite of western sanctions The result is an eye opening tour through the wildest frontiers of the global economy as well as a revelatory guide to how capitalism really works

Romanticism and the Question of the Stranger David Simpson, 2024-05-31 In our post 9/11 world the figure of the stranger the foreigner the enemy the unknown visitor carries a particular urgency and the force of language used to describe those who are different has become particularly strong But arguments about the stranger are not unique to our time In *Romanticism and the Question of the Stranger* David Simpson locates the figure of the stranger and the rhetoric of strangeness in romanticism and places them in a tradition that extends from antiquity to today Simpson shows that debates about strangers loomed large in the French Republic of the 1790s resulting in heated discourse that weighed who was to be welcomed and who was to be proscribed as dangerous Placing this debate in the context of classical biblical and other later writings he identifies a persistent difficulty in controlling the play between the despised and the desired He examines the stranger as found in the works of Coleridge Austen Scott and Southey as well as in depictions of the betrayals of hospitality in the literature of slavery and exploration as in Mungo Park's *Travels* and Stedman's *Narrative* and portrayals of strange women in de Staël Rousseau and Burney Contributing to a rich strain of thinking about the stranger that includes interventions by Ricoeur and Derrida *Romanticism and the Question of the Stranger* reveals the complex history of encounters with alien figures and our continued struggles with romantic concerns about the unknown
