Tippett,2015-06-01 Alan Tippett's publications played a significant role in the development of missiology. The volumes in this series augment his distinguished reputation by bringing to light his many unpublished materials and hard to locate printed articles. These books encompassing theology, anthropology, history, area studies, religion, and ethnohistory broaden the contours of the discipline. This volume contains two manuscripts. The first, *The Integrating Gospel*, combines a historical ethnolinguistic study of Fijian language, an examination of Fijian culture patterns in interaction with the church, and Tippett's own firsthand experience as a communicator of the gospel to specific receptors at a specific place and point in time. From this, Tippett is able to extrapolate broader ideas on contextualization and methods of gospel transmission. In *The Christian Fiji 1835-67*, Tippett addresses the establishment of the Christian church and the spread of Christianity in Fiji, with special attention to Ratu Cakobau. In this brief but in-depth study, Tippett presents a strong case against the understanding that Fijian conversions to Christianity were primarily political, as he offers evidence of the genuine religious and spiritual experiences behind these conversions. *The Statesman's Year-Book 1963* S. Steinberg,2016-12-27 The classic reference work that provides annually updated information on the countries of the world. **Degei's Descendants** Matthew Spriggs,2014-08-01 Dr Parke's monograph examines how Fijians, especially in western areas of Fiji, currently understand and explain the origins and development of the social and political divisions of late pre-colonial traditional Fijian society. It assesses the reasoning consistency and, where possible, the historical accuracy of such understandings. The oral history research, which forms the backbone of the study, was conducted in either standard Fijian or one or other of the western Fijian dialects with which Dr Parke was familiar. The period on which the monograph concentrates is the two centuries or so immediately prior to the Deed of Cession on 10 October 1874. A number of the major chiefs of Fiji had offered to cede Fiji to Queen Victoria, and after the offer had been accepted, Fiji became a British Crown Colony on that day. The volume will be of interest to all archaeologists, anthropologists, and historians with an interest in Fiji. It will also be of wider interest to Pacific Studies scholars and those of British colonial history, as well as historians with a wider interest in indigenous traditional histories and their role in governance today. *The Statesman's Year-Book 1962* S. Steinberg,2016-12-27 The classic reference work that provides annually updated information on the countries of the world. *Food and Gender in Fiji* Sharyn Jones,2009-01-01 This book examines the social relations surrounding foodways on the island of Nayau in Fiji. Offering a comprehensive and rigorous example of ethnoarchaeology at work, Jones' book has major implications for archaeological interpretations of foodways, gender identity, and social organization in the Pacific Islands and beyond. **Acquiring Culture (Psychology Revivals)** Gustav Jahoda, Ioan Lewis,2015-03-27 Until the 70s and 80s, anthropologists studying different cultures had mainly confined themselves to the behaviour and idea systems of adults. Psychologists, on the other hand, working mainly in Europe and America, had studied child development in their own settings and simply assumed the universality of their findings. Thus, both disciplines had largely ignored a crucial problem area: the

way in which children from birth onwards learn to become competent members of their culture This process which has been called the quintessential human adaptation constitutes the theme of this volume originally published in 1988 It derives from a workshop held at the London School of Economics which brought together fieldworkers who in their studies had paid more than usual attention to children in their cultures Their experience and foci of interest were varied but this very diversity serves to illuminate different facets of the acquisition of culture by children ranging in age from pre verbal infants to adolescents Evolutionarily primed for culture learning children are responsive to a rich web of influences from subtle and indirect as in their music and dance to direct teaching in the family guided by culture specific ideas about child psychology Some of the salient things they learn relate to gender status and power critical for the functioning of all societies The introductory essay provides the necessary historical background of the development of child study in both anthropology and psychology and outlined how future research in the ethnography of childhood should proceed The book concludes with an annotated bibliography providing a guide to the literature from 1970 onwards
