Narratives of Fugitive Slaves in Canada Benjamin Drew, 2008-06-30 In the early 1850s white American abolitionist Benjamin Drew was commissioned to travel to Canada West now Ontario to interview escaped slaves from the United States At the time the population of Canada West was just short of a million and about 30 000 black people lived in the colony most of whom were escaped slaves from south of the border One of the people Drew interviewed was Harriet Tubman who was then based in St Catharines but made several trips to the U S South to lead slaves to freedom in Canada In the course of his journeys in Canada Drew visited Chatham Toronto Galt Hamilton London Dresden Windsor and a number of other communities Originally published in 1856 Drew's book is the only collection of first hand interviews of fugitive slaves in

Canada ever done It is an invaluable record of early black Canadian experience **No Grammar Tears 1** Marthus-Adden
Zimboiant,2013-08-05 First of all other I find No Grammar Tears very informative What amazes me is the kind of dedication
and patience Marthus Adden spent in writing this book This is because this kind of genre actually needs full attention Truly
whatever he has written is precise and correct I really admire his generosity of sharing his knowledge about English owing to
the fact that English is his second language What is good about the book is that the writer wrote it in a manner that readers
can easily understand it In other words what makes this book different from the other English grammar books in the market
is that it is more user friendly which means he wrote it in a manner that can easily be understood especially by those who
just learned English and want to learn more Correctly put this book is a guide to those who wants to learn English on their
own As a matter of fact he has a knowledge check in every subject he has discussed in this book He catered everything
especially in the part on how to construct sentences which are very precise and which make it very easy to learn the book He
did not change anything at all in terms of the right way to speak and learn English but instead he made it easier and more
convenient for those people whose English is not their first language In point of fact he wrote this book not because he wants
to show off to the world that he is a good grammarian but because he wants to help those struggling to learn English The
book therefore deserves recognition because he is actually giving a favour to those who can t afford to have a private tutor to
teach them how to speak English correctly I must in conclusion admit that this book will really help those people who want to
learn English language those people who are striving to speak perfect English and those people that English is their second
language I will therefore commend the author for this book **Nobel Universal Graphical Language** Milan

Randic,2010-05-24 Nobel is a pictographic language based on some 120 basic signs and many arrows of different shape that
are mutually combined It is named after Alfred Nobel 1833-1896 Swedish chemist and industrialist inventor of dynamite who
left most of his fortune to a foundation that annually gives awards to individuals whose work is characterized as greatest
benefit to mankind known as Nobel Prizes Besides the awards for sciences and literature significantly Alfred Nobel included
among others a prize for peace that besides individuals also organizations may obtain Although it would be utopian to believe
that human conflicts could be avoided if communication tools would improve the emergence of universal languages certainly
cannot make the situation worse Universal languages are a communication tool which makes it possible for people of no
common language to communicate They are graphic but they should be distinguished from picture writings which only
passively offer information on some event or give messages Universal languages have more similarity with the sign
languages that are used for people who lost hearing or the sign language of American Plains Indians who spoke different
languages and could communicate by sign language that they developed However written language has some advantages
over hand sign languages in that one can communicate at a great distance particularly today in the age of fax and computer
communications and that one can leave messages for posterity This is not the place to argue for or against the promise of

written sign languages Graphic written sign languages exist today and the best known are Chinese characters used in China and Japan The problem with Chinese characters is that there are too many characters and it is difficult to learn so many It takes years for children in China and Japan to learn so many different characters and the task would be even harder for grown people to learn if they have not done this when young Nobel is designed to remove this difficulty and is based on the following requirements 1 SMALL NUMBER OF BASIC SIGNS 2 SIGNS SHOULD BE EASY TO RECOGNIZE 3 SIGNS SHOULD BE EASY TO REPRODUCE 4 COMBINATIONS LIMITED TO THREE SIGNS 5 COMPLEMENTARY We have already mentioned that Nobel uses about 120 basic signs which can be viewed as a small number particularly in view of over 100 signs of Nobel that are so obvious that they can be easily absorbed The other requirements are also very important There are many signs that can be easily recognized but in order to be acceptable for Nobel they also need to be easily reproduced because that will facilitate communication Also when making combinations of signs one has to make some restriction in order to maintain clarity so we decided to have no more than three signs combined into single word Finally the last requirement that of complementarities needs some explanation Besides having signs that one can easily recognize and easily draw one needs some structure to be embedded into composition of signs that facilitates one to remember and learn signs easily We refer to this structure as complementary or broadly speaking associational and what it implies is that words and objects that are related should have related signs Thus for example pairs of words like man woman cat dog coffee tea good bad love hate etc should have signs that are in some opposition while words like smoke flame fire tree wood forest water sea ocean good better best should have signs that are in competition With this in mind when one sees and learns the basic signs the meaning of many combinations of signs can be in advance anticipated This helps one to learn Nobel rather fast not months not weeks perhaps not even days but a couple of hours may suffice that one may learn hundreds and hundreds of words In this respect Nobel may be unique among languages written spoken of *Technology and Home Economics i (worktext)2002 Edition* ,

A Spiritual Portrait of a Believer Chet Cataldo,2010-02-19 The focus of this study is to discover the identity of the emphatic I of Rom 7 with the added purpose of attempting to draw a spiritual portrait of a mature Christian believer To accomplish this purpose the process is as follows An examination of Rom 7 within its context is conducted This examination is followed by an attempt at determining the experience of the emphatic I found within Rom 7 The next step in the process is to compare the experience of the emphatic I of Rom 7 as found within its context of Rom 1 8 with what Paul wrote elsewhere on the experience of new life in Christ for Christian believers The purpose of this comparison is to discover if Paul had a consistent portrait of spirituality and Christian maturity The final step is to compare the experience described by Paul both in Rom 7 and in the wider Pauline Corpus with the experience which John Wesley called perfection and with the Mystical experience called the spiritual marriage The study of Romans Wesley and the Mystics coupled with the wider study of the secondary literature showed that there is a remarkable consistency in the teaching and understanding that the closer a Christian believer gets to God the more this Christian believer is aware of his or her own sinfulness Paul in describing the experience of the emphatic I is describing a person who is becoming more and more aware of his or her own sinfulness The conclusion to be drawn from this study is that the identity of the emphatic I is of a regenerate Christian believer one who is growing ever closer and closer to God and at the same time is in pain over the remaining effects of sin

Understanding Family Policy Shirley .L Zimmerman,1995-09-05 First let me say that this edition is a wonderful expansion and thus an improvement on the first edition The comprehensiveness of this new edition makes it a worthy addition to the literature and enables it to be the basis for an entire course I especially like the organization of the chapters vis vis each other Chapters 2 3 and 5 will be especially beneficial to me and my students They cover material that I covered in the past but I couldn t do a good job without having something for the students to read I think this focus and integration is a strength of the book

especially in chapters 2-7 Chapter 7 really ties things up nicely Another strength of the book is its use of examples from recent policy debates to illustrate the concepts being discussed In general the text does a good job here implications and applications especially as the health care reform and welfare reform examples are included Ray Forgue Chairman Family Studies Department University of Kentucky I like this updated version of *Understanding Family Policy* and would definitely use it The approach taken in this edition has a more universal appeal in that it lays good groundwork to understanding family policy An excellent addition is the question section at the end of each chapter It will help the student highlight important concepts covered and also provide a good start for discussion I think Dr Zimmerman has done a great job of integrating the concepts referring back to points made earlier summarizing previous thoughts and moving on to new ones The examples to illustrate points are good I have used *Understanding Family Policy* and plan to use the new edition Catherine A Solheim Department of Family and Child Development Auburn University In the author's words this is a book about family policy and different ways of thinking about and its effects on families In this second edition Shirley L Zimmerman introduces new theoretical frameworks and applications that reinforce the link between family theory policy and practice Also new to this edition are a glossary and a listing of study questions at the end of each chapter intended to stimulate discussion and to be adapted to readers' situations and work settings The book geared toward students in social work and family and policy studies also provides examples from recent policy debates to illustrate its concepts *Journal of Social Work Education* Highly successful in its first edition *Understanding Family Policy* Second Edition introduces new theoretical frameworks as well as applications of theory Shirley L Zimmerman has incorporated the recent history of family policy and reinforced the link between theory and the everyday life experiences people have with the policy process Also new to this volume are a glossary and study questions at the end of each chapter useful for stimulating reflections and discussion on the book's twin subjects families and family policy Personal examples of policy research have been replaced with more generic and less time bound examples New topics include overriding issues gender race ethnicity and culture interest group theory and other family frameworks for assessing family well being including symbolic interaction family stress conflict feminist and cultural theories An excellent resource for offering conceptual tools for analyzing family problems policies and consequences this second edition is essential for students and individuals in the areas of social work and family and policy studies *New York Court of Appeals.
