mistakes The question of decisive engagements The army and the people as the foundation of Victory Conclusion Mao Tse-Tung on Protracted War Zedong Mao,1967 **On Protracted War (Graphyco Editions)** Mao Tse-Tung,2020-04-05 All political power comes from the barrel of a gun In the book On Protracted War Mao advocates for doing small assaults on Japanese supply lines instead of large confrontations on the battlefield Mao Tse Tung 1893 1976 or simply known as Chairman Mao was a Chinese communist revolutionary born in Shaoshan Qing Empire who became the founding father of the People s Republic of China **Sino-Soviet Dialogue on the Problem of War** S. Yin,2012-12-06 The author has spent upwards of ten years in working on this book His objective is to clarify the military aspect of the Moscow Peking dialogue which has not yet received its deserved treatment The apogee of that dialogue seems to have been passed toward the end of the rule of Khrushchev Yet the Vietnam war spawns fresh contention Our cover age will span the development from 1956 to the present The beginning of the dispute with regard to the origins of war in general is taken up in the first two chapters The next three chapters discuss the several types of war with the frame of reference set in what now appears to be a quondam era But the principle differences between the disputants are just as outstanding today as they were then The penultimate chapter is somewhat wide in scope in order to deal with the larger and more intensely bitter polemics evolving after Khrushchev left office There have been many new and startling views held by both sides since then views splitting them poles apart Ominously at issue now is the question of Sino Soviet peaceful coexistence Our work obviously cannot wait until that question is answered to be finished The final chapter concludes our study To write of subjects as dynamic as this one is a challenge because they are current affairs Due to the swift change of events no sooner is our typescript put to press than it needs a revision **Routledge Library Editions: Modern East and South East Asia** Various Authors,2022-07-30 This 7 volume set reissues a range of classic out of print texts that cover a host of issues that have contributed to the development of modern East and South East Asia With titles covering economics politics history anthropology and security this set provides the researcher with an essential resource on the region **War Wisdom** Christian P. Potholm,2015-10-16 War Wisdom A Cross Cultural Sampling is a unique combination of directory and analysis It provides a relevant universe of quotations together with their authors about war from various ages and across a large number of societies including those found in China Japan Persia Mongolia Europe and America both North and South as well as Native American nations and Africa A lengthy introductory essay presents and analyzes a dozen relevant themes found throughout those cultures themes which show a pattern of very widespread if not universal appeal Of particular relevance is the author s engagement with the conflicting wisdom pertaining to war found within the same society as well as common themes appearing across cultures societies and time frames **Communist Revolutionary Warfare** George K. Tanham,2006-08-30 This volume in the Praeger Security International PSI series Classics of the Counterinsurgency Era was among the first major published analyses by an American expert on the insurgency in Indochina In addition to tracing the Chinese influence on the Vietminh

to assess China's political history
