## **Political Writings:**

Political Writings Immanuel Kant, 1991 First published in 1970 this much acclaimed collection of the political writings of Immanuel Kant has now been revised and expanded for publication in Cambridge Texts in the History of Political Thought Three important texts are translated here for the first time and Professor Reiss has added in addition to an extended bibliography a substantial postscript looking at recent developments in Kantian scholarship and the changes that these have wrought in our understanding of Kant's political thought

Locke: Political Writings John Locke, David Wootton, 2003-01-01 John Locke's Second Treatise of Government c1681 is perhaps the key founding liberal text A Letter Concerning Toleration written in 1685 a year when a Catholic monarch came to the throne of England and Louis XVI unleashed a reign of terror against Protestants in France is a classic defence of religious freedom Yet many of Locke's other writings not least the Constitutions of Carolina which he helped draft are almost defiantly anti liberal in outlook This comprehensive collection brings together the main published works excluding polemical attacks on other people's views with the most important surviving evidence from among Locke's papers relating to his political philosophy David Wootton's wide ranging and scholarly Introduction sets the writings in the context of their time examines Locke's developing ideas and unorthodox Christianity and analyses his main arguments The result is the first fully rounded picture of Locke's political thought in his own words

**Political Writings** Simone de Beauvoir, 2012-06-21 Political Writings offers an abundance of newly translated essays by Simone de Beauvoir that demonstrate a heretofore unknown side of her political philosophy The writings in this volume range from Beauvoir's surprising 1952 defense of the misogynistic eighteenth century pornographer the Marquis de Sade to a co written 1974 documentary film transcribed here for the first time which draws on Beauvoir's analysis of how socioeconomic privilege shapes the biological reality of aging The volume traces nearly three decades of Beauvoir's leftist political engagement from exposés of conditions in fascist Spain and Portugal in 1945 and hard hitting attacks on right wing French intellectuals in the 1950s to the 1962 defense of an Algerian freedom fighter Djamila Boupacha and a 1975 article arguing for what is now called the two state solution in Israel Together these texts prefigure Beauvoir's later feminist activism and provide a new interpretive context for reading her multi volume autobiography while also shedding new light on French intellectual history during the turbulent era of decolonization
