**Political Youth, Traditional Schools** Byron G. Massialas, 1972      **Becoming Political** Carole L. Hahn, 1998-04-02

This book sheds light on the question Under what conditions do democratic attitudes and values take root in youth Using a comparative perspective *Becoming Political* describes alternative forms of education for democracy and points to consequences of various alternatives in diverse settings This study of civic education and adolescent political attitudes contains rich descriptive information from interviews with students and teachers and classroom observations in England Denmark Germany the Netherlands and the United States Such qualitative information gathered over the past decade complements findings from surveys administered to students ages fifteen through nineteen in fifty schools in the five countries Chapters focus on civic education in the five countries adolescent political attitudes and behaviors gender and political attitudes support for free expression for diverse views and classroom climate and the investigation of controversial public policy issues An appendix describes the varied political contexts in which youth in the five democracies are being politically socialized The book will be of use to readers interested in social studies education comparative education and youth political socialization as well as education for democracy

**Researching and Teaching Social Issues** Samuel

Totten, Jon Pedersen, 2012-05-01 originally published by Lexington Books A division of Rowman Littlefield *Researching and Teaching Social Issues* The Personal Stories and Pedagogical Efforts of Professors of Education is comprised of original personal essays in which notable teacher educators delineate the genesis and evolution of their thought and work vis a vis the teaching of social issues In relating their personal stories the authors were asked to discuss among other issues those individuals and or scholarly works that have most influenced them and how their own aspirations in the field the frustrations they have faced their perceptions of the field their major contributions and their current endeavors Our goal was that each and every story be as informative instructive and engaging as possible We believe that readers will be thoroughly engaged as they read the stories of these individuals stories that are inspiring filled with passion and reflective in nature We also believe that readers will gain unique pedagogical insights into the field and ample food for thought The individuals selected for inclusion in the book dedicated a great amount of time thought energy and commitment to creating powerful and pedagogically sound ways to teach about social and or controversial issues Many have done so for well over forty years and have been among the strongest advocates vis vis the place social issues have in the extant curriculum and beyond

*Children's Social Consciousness and the Development of Social Responsibility* Sheldon Berman, 1997-01-01 This book breaks new ground in our understanding of the development of social consciousness and social responsibility in young people and the educational practices that promote this development Berman shows that children's awareness of the social and political world emerges far earlier and their social and moral abilities are more advanced than we thought Drawing on the research literature in such fields as moral development citizenship education political socialization prosocial development

and psychosocial development Berman provides educators and researchers with the developmental understandings and instructional strategies necessary to enable students to become active caring and responsible members of our social and political community I believe this book pushes the field of educational and developmental psychology to a new level It addresses some of the most pressing issues of our time Mary Field Belenky University of Vermont author of *Women's Ways of Knowing* Berman pushes us to consider how more than service opportunities or isolated courses in contemporary issues will be needed if students are to become engaged citizens In doing so he lays the groundwork for a movement to reclaim the civic purposes that once undergirded American education Achieving this end will require a transformation of curriculum instruction and school structures aimed at incorporating multiple perspectives providing more room for student voices and supporting the formation of interactive school communities in which students feel cared for and influential Gregory Smith Lewis and Clark College author of *Education and the Environment Learning to Live with Limits* *The Making of an Alienated Generation* Sai-Wing Leung, 2019-07-23 First published in 1997 this volume examines the political apathy of the Hong Kong Chinese with a particular focus on children in secondary schools While most previous studies have been of adults Leung's approach exposes a generation who are politically uninvolved and disenchanted He examines teacher student encounters in a depoliticized school context and through a curriculum in which explicit political content is absent The study throws light both on Chinese youths and the interaction of older and younger generations and its macroscopic implications are distinctly ominous suggesting trouble ahead for the Hong Kong Special Administrative Region *Education in the Arab Gulf States and the Arab World* Nagat El-Sanabary, 1992 This annotated guide of English language material on education in the Arab world includes books journal articles national and international reports and documents and Ph D dissertations The author opens with an introductory essay on the development of education in the Arab Gulf states and an analysis of current issues in educational research Chapters cover the social context of education educational systems and structures country reports on educational developments between 1950 and 1980 religion and education education at the pre college level and higher education with special attention to systems and institutions curriculum and evaluation management students in national and foreign universities research sciences and technology The book also examines women's education teachers and teacher education educational planning manpower and education educational guidance and counseling special education literacy and adult education and educational media and instructional technology Author and subject indexes are provided

*Growing Up Suburban* Edward A. Wynne, 2014-09-10 The prosperous comfortable and homogeneous American suburb is a relatively recent institution in American history Edward Wynne was one of the first to take a serious look at the quality of suburban childhood where he contends we have ignored the developments affecting the largest pool of children and parents in America This provocative volume argues that the total environment of the suburban youth the school the community the family and the workplace is in need of drastic reform Wynne advances a forthright argument for the preservation of

traditional moral values and criticizes excessive individualism in fragmented modern society Focusing on the schools and extending his discussion to the larger community he pleads for more attention to such goals as honesty persistence patriotism and loyalty Post industrial suburban environments Wynne argues do not provide the diversity of experience children must have to become successful adults Strong community ties to the schools are basic to Wynne s thesis Within the schools he recommends changes in grading systems student responsibilities and assignments selection and training of teachers and administrators structuring and evaluation of programs and the socioeconomic and age mix of pupils A feeling of cooperation and unity within the school itself is a major goal Wynne also suggests steps for moving toward more heterogeneous close knit communities where citizens have greater local control For example community members could restrict movement into the community and should aim for a mix of blue and white collar residents Wynne s arguments clearly run counter to fashion and are sure to provoke a high level of debate among educators of differing philosophic persuasions Civil libertarians feminists civil rights advocates and others are bound to make spirited replies to many of Wynne s contentions Growing Up Suburban will be of interest to educators public school administrators parents and suburban dwellers

**The SAGE Encyclopedia of Classroom Management** W. George Scarlett, 2015-02-24 A teacher s ability to manage the classroom strongly influences the quality of teaching and learning that can be accomplished Among the most pressing concerns for inexperienced teachers is classroom management a concern of equal importance to the general public in light of behavior problems and breakdowns in discipline that grab newspaper headlines But classroom management is not just about problems and what to do when things go wrong and chaos erupts It s about how to run a classroom so as to elicit the best from even the most courteous group of students An array of skills is needed to produce such a learning environment The SAGE Encyclopedia of Classroom Management raises issues and introduces evidence based real world strategies for creating and maintaining well managed classrooms where learning thrives Students studying to become teachers will need to develop their own classroom management strategies consistent with their own philosophies of teaching and learning It is hoped that this work will help open their eyes to the range of issues and the array of skills they might integrate into their unique teaching styles Key Features 325 signed entries organized in A to Z fashion across two volumes Reader s Guide grouping related entries thematically References Further Readings and Cross References sections Chronology in the back matter Resource Guide in the appendix This encyclopedia is an excellent scholarly source for students who are pursuing a degree or position in the field of education The SAGE Encyclopedia of Classroom Management is an ideal source for all academic and public libraries

[Arab Education in Transition](#) Byron G. Massialas, Samir Ahmad Jarrar, 2016-03-22 The operation of schools in the Arab world is a topic about which very little is known in the West This volume first published in 1991 provides information about the Arab school and thus contributes to an understanding of what is taught by whom and under what conditions It seeks to define the interaction between traditional elements and innovative forces impinging on the

Arab school as well as reviewing policies that concern the education of Arab children It is maintained that Arab schools are in a state of transition reproducing society and its norms on one hand while on the other operating as agents seeking to transform society This work examines this claim in detail providing a unique discussion about education in the Arab world

*Citizenship Education and Global Migration* James A. Banks, 2017-06-23 This groundbreaking book describes theory research and practice that can be used in civic education courses and programs to help students from marginalized and minoritized groups in nations around the world attain a sense of structural integration and political efficacy within their nation states develop civic participation skills and reflective cultural national and global identities Bulletin - National Council for the Social Studies National Council for the Social Studies, 1977 **Research Review for School Leaders**

William G. Wraga, Peter S. Hlebowitsh, Founding Editor Tanner, Daniel Tanner, 2012-08-06 The Research Review for School Leaders Volume III is specifically designed as a practical resource for school leaders whose schedules preclude opportunities to locate and review key research on every issue they must address It places comprehensive current and accessible reviews of educational research at their fingertips and is organized to make the research and practices it summarizes useful to them in their professional endeavors This is the third volume of the Review Although the title has changed its purpose and substance is continuous with the work of the earlier volumes The first Annual Review of Research for School Leaders 1996 summarized research on the status of public schooling interdisciplinary curriculum and educational applications of computers The second volume 1998 addressed the topics of middle level education the extracurriculum mathematics education reform and drop outs The present Volume III offers educational leaders reviews of research on five timely educational issues citizenship education multicultural education gifted and talented education classroom assessment and scheduling A basic premise of this volume is that to make sound decisions professionals need to be up to date on current research related to the problems with which they grapple A second premise is that research cannot simply be imposed in a formulaic way on a local setting the nature of the particular problem to be solved will always bear upon the relevance of research to a specific context Thus this volume is envisioned as a helpful resource for school leaders as they engage in important discussions of the research with teachers school board members parents and other interested parties as they collaboratively seek effective resolutions to local educational problems **Publications of the National Council for the Social Studies**, 1973
