our theoretical past with the post modern era It also provides a clear context for the discussion of contrasting notions of monocultural literacy and the relationship of literacy and power The volume goes on to deal with the relationship of literacy and culture actually to specific cultures especially African American At this point the discourse turns to strategies for incorporating minority perspectives into the literacy curriculum and including the home cultures of disenfranchised peoples The last section of the book offers help on the practical issues of teacher education for student populations often ignored and linkages between schools and homes in order to empower the disenfranchised and isolated
