Current Approaches to Metaphor Analysis in Discourse Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse

Variation in Political Metaphor Julien Perrez, Min Reuchamps, Paul H. Thibodeau, 2019-08-06 The objective of this book is to understand variation in political metaphor Political metaphors are distinctive and important because they are used to achieve political goals to persuade to shape expectations to realize specific objectives and actions The analyses in the book go beyond the mere identification of conceptual metaphors in discourse to show how political metaphors function in the real world It starts from the finding that the same conceptual domains are used to characterize politics political entities and political issues Yet the specific metaphors used to describe these conceptual domains often change This book explores some of the reasons for this variation including features of political leaders e g their age and gender countries and other sociopolitical circumstances This perspective yields a better understanding of the role s of metaphors in political discourse

Steen, 2023-06-15 If thinking can be fast or slow metaphorical thinking can be fast and slow too But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think Slow metaphorical thinking does mean however that we can exert more control over metaphor than has previously been acknowledged We can even offer resistance to metaphor Deliberate Metaphor Theory DMT claims that there is an essential processing difference between non deliberate and deliberate metaphor use which can explain all this This book is the first full account of the DMT model for metaphor comprehension It presents explicit conceptualization and formal operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor

Political Discourse Analysis Robert

Butler, 2024-03-05 Political Discourse Analysis addresses the challenges facing political actors at all levels of society and across a range of regimes It shows how discursive legitimisation strategies can vary on a continuum ranging from the stabilising effects of institutional discourse and the management of destabilising factors inherent in new types of media to the destabilising potential of rhetorical devices and deliberate de legitimisation strategies used to attack opponents The diverse approaches show how political actors strive to maintain control in the context of democratic deficit and crisis in developed societies while addressing growing global threats to stability in all regimes While many actors seek legitimisation through the institutional structure media or rhetoric others may seek to weaken any opposition to them through de legitimisation In this collection Butler provides the reader with replicable methods that can be adapted to political contexts
