Companion to John Dryden Steven N. Zwicker, 2004-05-20 John Dryden Poet Laureate to Charles II and James II was one of the great literary figures of the late seventeenth century This Companion provides a fresh look at Dryden's tactics and triumphs in negotiating the extraordinary political and cultural revolutions of his time The newly commissioned essays introduce readers to the full range of his work as a poet as a writer of innovative plays and operas as a purveyor of contemporary notions of empire and most of all as a man intimate with the opportunities of aristocratic patronage as well as the emerging market for literary gossip slander and polemic Dryden's works are examined in the context of seventeenth century politics publishing and ideas of authorship A valuable resource for students and scholars the Companion includes a full chronology of Dryden's life and times and a detailed guide to further reading **The Princeton Encyclopedia of Poetry and Poetics** Roland Greene, Stephen Cushman, Clare Cavanagh, Jahan Ramazani, Paul Rouzer, Harris Feinsod, David Marno, Alexandra Slessarev, 2012-08-26 Rev ed of The Princeton encyclopedia of poetry and poetics Alex Preminger and T V F Brogan co editors Frank J Warnke O B Hardison Jr and Earl Miner associate editors 1993 **Howard Weinbrot and the**

Precincts of Enlightenment Kevin L. Cope, 2024-05-07 Seeking to honor and extend the critical legacy of Howard Weinbrot this volume re-examines rebuilds and upgrades the most prominent pillars of long eighteenth century scholarship The collection is divided into four thematic sections beginning with a series of chapters offering fresh analyses of Swift Dryden Hogarth and other major authors and artists of the period In the sections that follow the contributors not only explore biographies of both highly esteemed figures and notorious deviants but also investigate the very concept of Enlightenment as it has evolved from the eighteenth century to today The final section features chapters that probe the complex interaction of identity persona and place traversing the countless locales in which the British and the international eighteenth century emerged The volume ultimately covers a range of experience that extends from the gallows to the landscape garden and from heroic antiquity to Romantic era France Juxtaposing the local and particular against the grand and universal Howard Weinbrot and the Precincts of Enlightenment testifies to the complexity and ongoing significance of eighteenth century culture **The Age of Milton** Alan Hager, 2004-03-30 The 17th century was a time of significant cultural and political

change The era saw the rise of exploration and travel the growth of the scientific method and the spread of challenges to conventional religion Many of these developments occurred in England and North America and literature of the period reflects the intellectual and emotional fervor of the age This reference chronicles the lives and works of more than 75 British and American writers of the 17th century Included are entries on such major canonical authors as Donne Milton and Jonson The volume also covers the writings of such leading thinkers as Hobbes and Locke along with the works of leading European figures like Galileo and Descartes Also profiled are numerous significant women writers including Mary Astell Aphra Behn and Anne Killigrew Each entry is written by an expert contributor and includes a biography a discussion of major works and themes a survey of the writer's critical reception and primary and secondary bibliographies The volume additionally includes entries on several artists who significantly influenced British and American literary culture *Lord Burlington* Toby Barnard, Jane Clark, 1995-01-01 Despite Burlington's fame surprisingly little has been written about him Lord Burlington Architecture Art and Life presents a modern reassessment of his career while setting him in a broader context than has usually been the case to reflect both his interests outside architecture and to present his character in the round Architecture is given pride of place but his other interests in land owning politics and literature are also examined throwing much new light on an exceptionally significant and attractive figure *Making the Modern Reader* Barbara M. Benedict, 2018-12-04 Inquiring into the formation of a literary canon during the Restoration and the eighteenth century Barbara Benedict poses the question Do anthologies reflect or shape contemporary literary taste She finds that there was a cultural dialectic at work miscellanies and anthologies transmitted particular tastes while in turn being influenced by the larger culture they helped to create Benedict reveals how anthologies of the time often created a consensus of literary and aesthetic values by providing a bridge between the tastes of authors editors printers booksellers and readers Making the Modern Reader the first full treatment of the early modern anthology is in part a history of the London printing trade as well as of the professionalization of criticism Benedict thoroughly documents the historical redefinition of the reader once a member of a communal literary culture the reader became private and introspective morally and culturally shaped by choices in reading She argues that eighteenth century collections promised the reader that culture could be acquired through the absorption of literary values This process of cultural education appealed to a middle class seeking to become discriminating consumers of art By addressing this neglected genre Benedict contributes a new perspective on the tension between popular and high culture between the common reader and the elite This book will interest scholars working in cultural studies and those studying noncanonical texts as well as eighteenth century literature in general Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase

access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Digressive Voices in Early Modern English Literature Anne Cotterill, 2004-02-19 *Digressive Voices in Early Modern English Literature* looks afresh at major nondramatic texts by Donne Marvell Browne Milton and Dryden whose digressive speakers are haunted by personal and public uncertainty To digress in seventeenth century England carried a range of meaning associated with deviation or departure from a course subject or standard This book demonstrates that early modern writers trained in verbal contest developed richly labyrinthine voices that captured the ambiguities of political occasion and aristocratic patronage while anatomizing enemies and mourning personal loss Anne Cotterill turns current sensitivity toward the silenced voice to argue that rhetorical amplitude might suggest anxieties about speech and attack for men forced to be competitive yet circumspect as they made their voices heard

verbal complexity and cultural insights they articulate so powerfully Culture and Society in the Stuart Restoration Gerald M. MacLean, 1995-04-27 Literary and cultural changes reflecting new commercial and imperial interests of Restoration Britain **Cultivating Peace** Melissa Schoenberger, 2019-05-17 During the decades following the English civil wars British poets seeking to make sense of lingering political instabilities turned to Virgil's Georgics This ancient poem betrays deep ambivalences about war political power and empire and such poets as Andrew Marvell John Dryden and Anne Finch found in these attitudes valuable ways of responding to the uncertainties of their own time Composed during a period of brutal conflict in Rome Virgil's agricultural poem distrusts easy stability urging its readers to understand that lasting peace must be sowed tended reaped and replanted year after year Like the ancient poet who famously depicted a farmer's scythe suddenly recast as a sword the poets discussed in *Cultivating Peace* imagine states of peace and war to be fundamentally and materially linked In distinct ways they dismantle the dream of the golden age renewed proposing instead that peace must be sustained by constant labor Published by Bucknell University Press Distributed worldwide by Rutgers University Press
