Politics And Planning A National Study Of American Planners:

Politics and Planning Michael Lee Vasu, 2018-07-25 Vasu analyzes the attitudes of a national sample of both public and private planners using a questionnaire he devised and administered and contrasts the results with a nationwide sample of the American public. He finds that planners are a distinct interest group with ideological orientations, political party affiliations, and political participation that differ significantly from those of the American public. Explorations in Planning Theory Luigi Mazza, 2017-09-29 What is this thing called planning? What is its domain? What do planners do? How do they talk? What are the limits and possibilities for planning imposed by power, politics, knowledge, technology, interpretation, ethics, and institutional design? In this comprehensive volume, the foremost voices in planning explore the foundational ideas and issues of the profession. *Explorations in Planning Theory* is an extended inquiry into the practice of the profession. As such, it is a landmark text that defines the field for today's planners and the next generation. As Seymour J. Mandelbaum notes in the introduction, the shared framework of these essays captures a pervasive interest in the behavior, values, character, and experience of professional planners at work. All of the chapters in this volume are written to address arguments that are important in the community of planning theoreticians and are crafted in the language of that community. While many of the contributors included here differ in their styles, the editors note that students, experienced practitioners, and scholars of city and regional planning will find this work illuminating and helpful in their research.

Visionaries and Planners Stanley Buder, 1990 In this book, Stanley Buder examines the Garden City movement from its origins in mid-nineteenth century England to its subsequent development and elaboration in twentieth century America. The Garden City movement emphasized green belts around cities but was not identified exclusively with suburban development. Much of the city planning which formed the basis for the Garden City movement was based upon designing the ideal community. But this sense of idealism was soon lost with the transfer of the movement to America, and indeed it was unable to sustain itself in the communities of its origin in England. *Alberta's Local Governments: Politics and Democracy* Jack Masson, Edward C. LeSage, 1994 During the last decade, Alberta municipalities have endured hardships they have not faced since the Great Depression. Changes in the province's political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities, yet surprisingly few municipal politicians have resisted the province's financial policies. *When Federalism Works* Paul E. Peterson, Barry G. Rabe, Kenneth K. Wong, 2010-12-01 Twenty years ago, cooperative federalism in the form of federal grant-in-aid programs administered by state and local governments was applauded almost without reservation as the best means of helping the handicapped, the educationally

disadvantaged the poor and other groups with special needs More recently these same programs have been criticized for excessive regulations and red tape bureaucratic ineptitude and high cost The criticisms have been used to justify efforts to curb federal domestic spending and terminate many grants in aid In *When Federalism Works* Paul E Peterson Barry G Rabe and Kenneth K Wong examine the new conventional wisdom about federal grants Through documentary research and hundreds of interviews with local state and federal administrators and elected officials they consider the implementation and operation of federal programs for education health care and housing in four urban areas to learn which programs worked when and why Why did rent subsidy programs encounter seemingly endless difficulties while special education was a notable success Why did compensatory education fare better in Milwaukee than in Baltimore Among the factors the authors find significant are the extent to which a program is directed toward groups in need the political and economic circumstances of the area in which it is implemented and the degree of professionalism among those who administer it at all levels of government *When Federalism Works* provides a solid introduction to the most important grant in aid programs of the past twenty years and a thoughtful assessment of where they might be going

Planning for Equitable Urban Agriculture in the United States Samina Raja, Marcia Caton Campbell, Alexandra Judelsohn, Branden Born, Alfonso Morales, 2024-03-19 This open access book building on the legacy of food systems scholar and advocate Jerome Kaufman examines the potential and pitfalls of planning for urban agriculture UA in the United States especially in how questions of ethics and equity are addressed The book is organized into six sections Written by a team of scholars and practitioners the book covers a comprehensive array of topics ranging from theory to practice of planning for equitable urban agriculture Section 1 makes the case for re imagining agriculture as central to urban landscapes and unpacks why how and when planning should support UA and more broadly food systems Section 2 written by early career and seasoned scholars provides a theoretical foundation for the book Section 3 written by teams of scholars and community partners examines how civic agriculture is unfolding across urban landscapes led largely by community organizations Section 4 written by planning practitioners and scholars documents local government planning tied to urban agriculture focusing especially on how they address questions of equity Section 5 explores UA as a locus of pedagogy of equity Section 6 places the UA movement in the US within a global context and concludes with ideas and challenges for the future The book concludes with a call for planning as public nurturance an approach that can be illustrated through urban agriculture Planning as public nurturance is a value explicit process that centers an ethics of care especially protecting the interests of publics that are marginalized It builds the capacity of marginalized groups to authentically co design and participate in planning policy processes Such a planning approach requires that progress toward equitable outcomes is consistently evaluated through accountability measures And finally such an approach requires attention to structural and institutional inequities Addressing these four elements is more likely to create a condition under which urban agriculture may be used as a lever in the planning and development of more just and equitable cities This is an

National Land Use Policy United States. Congress. Senate. Committee on Interior and Insular Affairs,1970 **People, Plans, and Policies** Herbert J. Gans,1994-06-16 The primary theme of this collection of essays is that the cities basic problems are poverty and racism and until these concerns are addressed by bringing about racial equality creating jobs and instituting other reforms the generally low quality of urban life will persist Gans argues that the individual must work to alter society He believes that not only must parents have jobs to improve their children s school performance but that the country needs a modernized New Deal a more labor intensive economy and a thirty two hour work week to achieve full employment Other controversial ideas presented in this book include Gans s opposition to the whole notion of an underclass which he feels is the latest way for the nonpoor to unjustly label the poor as undeserving He also believes that poverty continues to plague society because it is often useful to the nonpoor He is critical of architecture that aims above all to be aesthetic or to make philosophical statements is doubtful that planners can or should try to reform our social or personal lives and thinks we should concentrate on achieving individual public policies until we learn how to properly plan as a society
