in the policy area Specifically examining the regimes of the Czech Republic Hungary Poland Slovakia and Slovenia these challenges include political extremism and violence corruption ethnic and religious conflicts Presenting original Central European data and utilising the concept of consolidation of democracy from von Beyme and Merkel s concept the book demonstrates that these challenges are as much influenced by imported phenomena such as immigration organized crime and other potential systemic undemocratic volatilities as the domestic situation This text will be of key interest to scholars and students East European politics post Soviet politics EU Studies security and strategic studies international relations area studies modern history and sociology **Superbia!** Dan Chiras,Dave Wann,2009-03-01 The only book that shows how to

transform existing suburbs to create environment and people friendly neighborhoods **Selling Shaker** Stephen Bowe,Peter Richmond,2006-07-01 The Shakers a religious community whose origins are founded in the eighteenth century continue to exert an influence upon twenty first century life not for their religious teachings but rather through the simple yet elegant aesthetic they developed for the everyday artefacts they designed for themselves Selling Shaker aims to explore this influence and chart its evolution throughout the course of the twentieth century via the interest shown by the media art institutions and general public in the Shaker story Whilst other books have sought to examine the origins of the religious or aesthetic basis of the movement throughout the course of the eighteenth and nineteenth centuries this book seeks to deal with the Shaker phenomenon from a different angle Selling Shaker examines the means by which the Shakers have been promoted during the course of the last century by scholars and museum academics in order to establish a national style The book follows this process from high art to popular culture influences illustrating how the Shaker style has entered the general design consciousness and in doing so has become a generic style largely divorced from the original Shaker aesthetic Using a variety of sources ranging from museum catalogues to contemporary design magazines Selling Shaker aims to tell the story of the rise and rise of the Shaker phenomenon **The Connoisseur** ,1909 **Landscape Modernism**

Renounced David Jacques,Jan Woudstra,2012-09-10 Before the Second World War landscape architect Christopher Tunnard was the first author on Modernism in Landscape in the English language but later became alarmed by the destructive forces of Post war reconstruction Between the 1950s and the 1970s he was in the forefront of the movement to save the city becoming an acclaimed author sympathetic to preservation Ironically it was the Modernist ethos that he had so fervently advocated before the war that was the justification for the dismemberment of great cities by officials engineers and planners This was not the first time that Tunnard had to re evaluate his principles as he had done so in the 1930s in rejecting Arts and Crafts in favour of Modernism This book tracks his changing ideology by reference to his writings his colleagues and his work Christopher Tunnard is one of the most influential figures in Landscape Architecture and his journey is one that still resonates in the discipline today His leading role in first embracing the tenets of Modernism and then moving away from to embrace a more conservationist approach can be seen in the success and impact on the profession of those with whom he

worked and taught **Comparative Planning Cultures** Bishwapriya Sanyal, 2005-06-24 Bringing together leading planning and urban scholars and including fascinating international case studies this unique book investigates urban planning across the world and in different cultures **Good Furniture** ,1917 **Transnational Architecture and Urbanism** Davide Ponzini, 2020-05-28 Transnational Architecture and Urbanism combines urban planning design policy and geography studies to offer place based and project oriented insight into relevant case studies of urban transformation in Europe North America Asia and the Middle East Since the 1990s increasingly multinational modes of design have arisen especially concerning prominent buildings and places Traditional planning and design disciplines have proven to have limited comprehension of and little grip on such transformations Public and scholarly discussions argue that these projects and transformations derive from socioeconomic political cultural trends or conditions of globalization The author suggests that general urban theories are relevant as background but of limited efficacy when dealing with such context bound projects and policies This book critically investigates emerging problematic issues such as the spectacularization of the urban environment the decontextualization of design practice and the global circulation of plans and projects The book portends new conceptualizations evidence based explanations and practical understanding for architects planners and policy makers to critically learn from practice to cope with these transnational issues and to put better planning in place **Success Magazine** ,1904 Waste Reduction Great Britain.
